3mm hook

GENERAL INFORMATION

For a **finer, softer finish, especially for the dolls**, use 3ply yarn with a 3mm hook. Extra pattern rows may be required for length.

If a **smaller size** is required, work in 3ply with a 2.5mm hook. This will produce smaller garments for small 1400g (3lb) babies and small baby dolls.

Because all babies and baby dolls vary in size we have averaged out our patterns and suggest that using ribbons at neck, waist and through the back of the bonnets will make these patterns more adjustable.

40cm (16") BABY DOLL and PREM BABY 2300g (5lb) SIZING

Head	29.8cm - 31.8cm	(11¾" - 12½")
Chest	24cm - 27.3cm	(9½" - 10¾")
Waist	24cm - 28cm	(9½" - 11")
Hips	26cm - 31cm	(10¼" - 12¼")
Foot length	5cm - 6.4cm	(2" - 2½")
Arm length	9.5cm - 11.4cm	(3¾" - 4½")

Dresses: All the dresses have short sleeves. If a long sleeve is preferred, work the sleeve as for the corresponding Matinee Jacket.

To Reduce neck edge for Matinee Jackets and Dresses: If a fitted neck edge is preferred to the threaded ribbons, work as follows:

Row 1. With right side facing join in yarn at front neck edge, 1dc into each of the first 2sts, * miss 1 stitch, 1dc into each of the next 2sts; repeat from * to end. This reduces the width of the neck edge by one third. Similarly, missing every 4th stitch would decrease the neck edge by one quarter.

Row 2. 1ch, 1dc in each st. End off.

Matinee Jackets: All jackets are loose fitting and can be adjusted with the ribbons at the neck and the underarm. This allows for the rapid growth of these tiny babies.

Sleeves: The length given is for 10cm (4") sleeves, however for Prem babies weighing 1400g - 2300g (3lb - 5lb) you may wish to add a few more rows to allow for growth (usually this is about 4 rows of tr or pattern). For dolls, check sleeve length on doll as you go, as some have shorter arms. For a smaller wrist work 3 rows of dc, decreasing if necessary.

Bonnets: Some of the bonnet patterns have been crocheted with extra length in the pattern and then folded back. As the baby grows this can be folded down to allow for baby growth. Extra rows may be added to the other bonnets and turned back.

The **Bootees** all have plain crocheting which covers the feet because tiny toes would protrude through the holes created by pattern.

GENERAL MAKE UP:

Matinee Jacket: Sew underarm seams and tuck in all ends. Thread ribbon between the trs at the neck edge or reduce sts as per general instructions. Thread ribbon between the trs in the row below the underarm. Sew on the buttons. The holes between the trs form the buttonholes.

Dress: Place the flap to the inside of the dress. Turn Dress inside out and sew flap into position. Complete as for Matinee Jacket. Sew side seam if applicable.

Bonnet: Tuck in all ends. If the bonnet has a turn back at front, fold this back. Sew on ribbons.

Bootees: Wrong side facing, sew up sole and back seams. Tuck in all ends and thread bootees with ribbon or crocheted chain.

Beanie: Tuck in all ends. If applicable, sew the side edge together, being sure to have the seam to the right side of work for the folded back length at the face edge of the beanie.

GENERAL REQUIREMENTS:

Matinee Jacket: 60cm of 7mm wide ribbon, 3 buttons

Dress: 75cm of 7mm wide ribbon, 2 buttons

Bonnet: 50cm of 10mm wide ribbon

Bootees: 70cm of 7mm wide ribbon or a crocheted chain
