TENSION

The following basic patterns have been worked with 3ply yarn and a 3mm crochet hook, to give a tension of:

12sts per 5cm and 9 rows per 5cm over htr;

12sts per 5cm and 7 rows per 5cm over tr.

FOOT SIZES

First Size (premature).....6cm

Second Size (new-born to 3 months)...7 cm

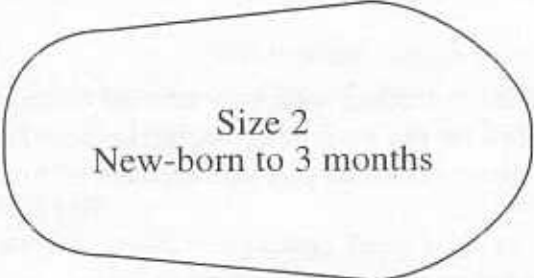

Third Size (3 to 6 months)8cm

Fourth Size (6 to 9 months).....9.5 to 10cm

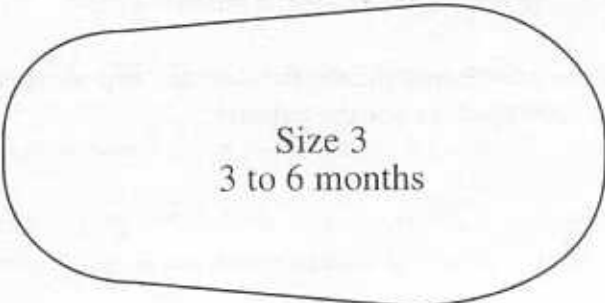

If a smaller bootee than the premature size is required, crochet the premature size with 2ply yarn. This will produce a bootee with a foot size of 5.5cm.

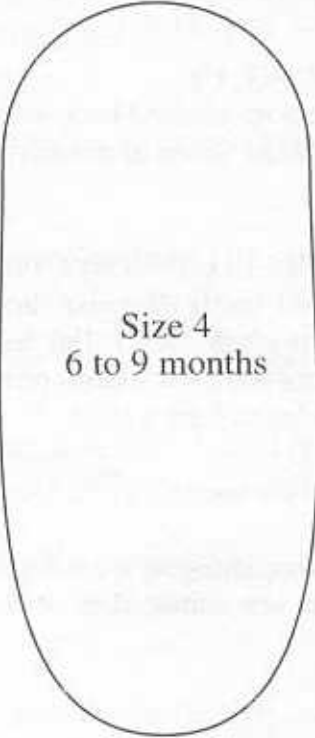

Size 1
Premature

Size 2
New-born to 3 months

Size 3
3 to 6 months

Size 4
6 to 9 months

GENERAL INSTRUCTIONS

Patterns 5 - 20 all begin with the basic pattern. These patterns are for all four sizes.

QUANTITIES

The quantity of yarn for each pair of booties will vary depending on whether pure wool, nylon or acrylic yarn has been used; the length of the cuff and the size crocheted. The average large pair of booties crocheted in nylon /acrylic requires up to 16 grams of yarn. Therefore one 25 gram ball of yarn is more than sufficient for a pair of booties.

Where required, each pair of booties will need 80 - 90cm of 6mm wide ribbon cut into two lengths each of 40 - 45cm.

MAKE UP

Sew up sole and back seams. Weave in all ends.

Thread ribbon or crocheted chain through the ribbonholes and tie in a bow.

SPECIAL INSTRUCTIONS

Half treble decrease (htr decr): This is worked over two stitches to form one stitch. Work 1htr leaving 2 loops on the hook, then work the next htr until there are 4 loops on the hook, yarn over hook, pull yarn through all four loops to form a stitch.

At the beginning of a row count the turning chain as one stitch.

When changing the colour of the yarn, break off the first colour, slip stitch in the new colour, then work the next stitch as per the pattern.
