HOW TO CHECK YOUR TENSION

Before you knit this design check your tension carefully. Take a pair of No. 7 needles and some Patons Moorland Double Knitting or Patons Bulldog Double Knitting. Cast on 21 stitches and work in stocking-stitch—1 row knit; 1 row purl—for 28 rows. Cast off; press lightly on wrong side. The tension should be 5½ stitches and 7 rows to one square inch and the knitted square should measure 4 inches each way. If the square is bigger your work is too loose; try a size finer needle. If it is smaller your work is too tight; try a size coarser needle.

If you knit to the correct tension in stocking stitch, you will knit naturally to the correct tension for any stitch in this booklet. If you alter the needles to obtain the correct tension in stocking stitch, corresponding alterations must be made to the needles throughout.
