TENSION

Obtaining the correct tension is perhaps the single factor which can make the difference between a successful garment and a disastrous one. It controls both the shape and size of an article, so any variation, however slight, can distort the finished look of the garment. No-one wants to spend hours and hours making a "skinny rib" when they really want a "sloppy Joe".

As this yarn is chunky, we strongly advise that you knit a tension square in pattern and or stocking stitch (depending on the pattern instruction) of perhaps 5 - 10 more stitches and 5 - 10 more rows than those given in the tension note. Place the finished square on a flat surface and measure the central area. If you have too many stitches to 10cm try again using thicker needles, if you have too few stitches to 10cm try again using finer needles. Once you have achieved the correct tension your garment will be knitted to the measurements given in the pattern.

SIZE NOTE

The instructions are given for the smallest size. Where they vary, work the figures in brackets for the larger sizes. **One set of figures refers to all sizes.**

ALL ribs should be knitted to a firm tension, for some knitters it may be necessary to use a smaller needle. In order to prevent sagging in cuffs and welts we suggest you use a "knitting-in" elastic.

FINISHING INSTRUCTIONS

After working for hours knitting a garment, it seems a great pity that many garments are spoiled because such little care is taken in the

pressing and finishing process. Use the following tips for a truly professional-looking garment.

Pressing

Darn in all ends neatly along the selvage edge or a colour join, as appropriate.

Block out each piece of knitting using pins and gently press each piece, omitting the ribs, using a warm iron over a damp cloth. **Tip:** Take special care to press the edges, as this will make sewing up both easier and neater.

Stitching

When stitching the pieces together, remember to match areas of colour and texture very carefully where they meet.

Use a seam stitch such as back stitch or mattress stitch for all main knitting seams and join all ribs and neckband with a flat seam, unless otherwise stated.

Construction

Having completed the pattern instructions, join left shoulder and neckband seams as detailed above.

Sew the top of the sleeve to the body of the garment using the method detailed in the pattern, referring to the appropriate guide:

Shallow set-in sleeves: Join cast-off sts at beg of armhole shaping to cast-off sts at start of sleeve-head shaping. Sew sleeve head into armhole, easing in shapings.

Set-in sleeves: Set in sleeve, easing sleeve head into armhole.

Join side and sleeve seams.

Slip stitch pocket edgings and linings into place.

Sew on buttons to correspond with buttonholes.

After sewing up, press seams and hems.

Ribbed welts and neckbands and any areas of garter stitch should not be pressed.

= Easy, straight forward knitting

= Suitable for the average knitter
