<u>Skill Level:</u> Intermediate <u>Yarn:</u> RED HEART Super Saver Orchid Amethyst Bubble Gum Caron One Pound Cape Cod Blue <u>Crochet Hook:</u> US 7 (4.5mm) <u>Additional Materials</u> Yarn Needle, Felt, Polyfil, Sewing Needle and Thread or glue	<u>Abbreviations</u> ch chain sc single crochet dec single crochet 2 stitches in front loops together inc single crochet 2 stitches in same sc sl st slip stitch st(s) stitch(es) tog together
---	--

Finished Size: 12 inches

Gauge: Not essential for Project

Notes:

The actual size of your hook doesn't really matter, as long as your hook and yarn choices result in tight even stitches. Crocheting too loosely, or using too large of a hook for the yarn weight, will result in the stuffing showing through.

IMPORTANT NOTE: Each round is written in the following format

Sc, inc (18) --- as an example

This means when working through project the instructions will repeat unless otherwise indicated. The numbers in () at the end of each round or row, indicates the total number of stitches that should be in that round or row. Each round is worked in a continuous spiral you will not need to join rounds. For further tips there is a General Instructions page at the end of the pattern

It's highly recommended that you read through the pattern completely before beginning to familiarize yourself with the entire process

Pictures are from various ponies..

General Instructions

Stuffing

Stuff your toys firmly so they retain their shape and don't look droopy. Be careful not to overstuff them, though, because the stuffing will stretch the fabric and may show through the stitches. I always use polyester fiberfill stuffing because it's nonallergenic, won't bunch up, and it's washable, which is always good when making toys, make sure you follow the yarn care instructions on the label

How to change yarn colors

Some projects require alternating two colors in the body. To do this, work the last stitch of a round until one step remains in the stitch; then work the last step with the new color and continue the round in the new color.

Adding the extremities

I always use a tapestry needle and the same color of yarn as the pieces (or at least one of the pieces) that I want to sew together. When sewing pieces to the body, make sure they are securely attached so that little fingers can't pull them off.

On some animals, the opening of the extremities will remain open for sewing onto the body; the instructions will tell you when to leave them open. Position the limb on the body and sew all around it, going through the front stitches of both the limb and the body.

On other animals, the opening of the extremities will be sewn closed before being attached to the body. To do this, pinch the opening closed, line up the stitches of one side with the other side, and sew through the front loop of one side and the back loop of the other side. Position the piece where you want it on the body and sew.

Weaving in ends

Weaving in ends is easy on little ami pieces. Because the pieces are stuffed, simply pull the tails to the inside of the piece and leave them. The tails will be secure inside the pieces. If there are any tails left after sewing into the body, pull it out 1-2 inches away, and snip close to the piece, being careful not to cut the crochet stitches.
