General notes

Please read these instructions before working the pattern.

The beginning of each part

There are two options (I always use the second option. There are no holes at the beginning if you use the loop):

1. Start with chain 2 and work every first round into the first stitch made.
2. Start with a magic circle (adjustable loop) and work number of stitches in the first round into the loop.

Changing rounds

Do not replace crochet stitches by chain stitches at the beginning of each row. Instead make endless spiral. Crochet a first stitch of the row in first stitch of previous round. Use a stitch marker to remember of the beginning of the round. How to mark beginning of a row is demonstrated on pictures below.

Loose ends

At the beginning and the end of a piece leave a tail of at least 15 cm or even longer, because most of these can be used for sewing. Loose ends you do not use anymore can be pulled through some stitches on the inside of the piece and cut off.

Sewing

Now we have all the parts of the monkey and we can start sewing them together.

1. First sew the eyes on the head (the edges).
2. Then sew the snout on the head just below the plastic eyes. Stuff the snout during sewing.

3. Now sew the inner ears into the outer ears. Use the beige yarn and sew it carefully. Make sure the beige yarn does not appear on the back side of the ear.
4. Then sew the ears on the head.

5. As a next step sew the head and the body together.
6. Then sew the arms and the legs on the body.

7. Then sew the tail on the back.

8. At the end, sew the nose and mouth and fasten the flower on the head.

We can also add hair on the head. For the hair make a small tassel from brown yarn and fasten it on the head. Then divide the yarn into individual threads.

Julie is finished!!!
