General notes

Please read these instructions before working the pattern.

The beginning of each part

There are two options (I always use the second option. There are no holes at the beginning if you use the loop):

1. Start with chain 2 and work every first round into the first stitch made.
2. Start with a magic ring (adjustable loop) and work number of stitches in the first round into the loop.

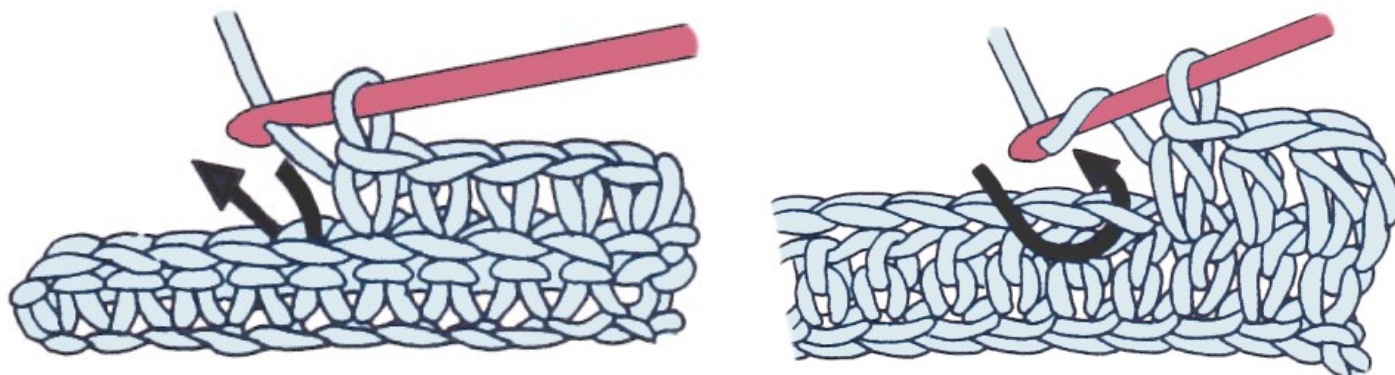

Changing rounds

Do not replace crochet stitches by chain stitches at the beginning of each row. Instead make endless spiral. Crochet a first stitch of the row in first stitch of previous round. Use a stitch marker to remember of the beginning of the round. How to mark beginning of a row is demonstrated on pictures below.

Crocheting in back/front loops only

Unless noted otherwise always work the rounds/rows through both loops. Sometimes we need to crochet different structures and we crochet some rows in back/front loops only. The pictures below show how to crochet through the back loops (left) or front loops (right) only.

Loose ends

At the beginning and the end of a piece leave a tail of at least 15 cm or even longer, because most of these can be used for sewing. Loose ends you do not use anymore can be pulled through some stitches on the inside of the piece and cut off.

Sewing

Now we have all parts ready and we can start sewing them together.

1. First sew the head and the body together.

2. Now attach the arms to the body and sew them properly to the body.

3. After the arms, attach the legs and sew them properly to the body.

4. Now place the hair on the head (the middle wave of the last row should be in the middle of the forehead) and sew it to the head all around the head in the last row.

5. Now sew the strands on the head (hair). Sew the shorter strands around the middle in a circle and the remaining strands in the middle. Sew the longer strands in a next row (towards the forehead).

6. As a next step, prepare the hairband. Place the pink flower on the hairband and sew it together. Then place the hairband around the ponytail and sew the ends together.

7. Now attach the sleeves.

8. After the sleeves, attach the wings on the back of the doll. You can sew them just in the corners to make them more flexible, or you can sew them also more towards the sides and they will be more fixed.

9. Now place the dark pink flower on the waist and sew it to the body. Use the ends of the yarn and fasten them around the waist and make a belt.

10. Finally, embroider the mouth and eye lashes with black yarn and shoelaces with dark pink yarn.
