General notes

Please read these instructions before working the pattern. If you find any mistake, please report it to DioneDesign@email.cz.

The beginning of each part

There are two options (I always use the second option. There are no holes at the beginning if you use the loop):

1. Start with chain 2 and work every first round into the first stitch made.
2. Start with a magic circle (adjustable loop) and work number of stitches in the first round into the loop.

Changing rounds

Do not replace crochet stitches by chain stitches at the beginning of each row. Instead make endless spiral. Crochet a first stitch of the row in first stitch of previous round. Use a stitch marker to remember of the beginning of the round. How to mark beginning of a row is demonstrated on pictures below.

Crocheting in back/front loops only

Unless noted otherwise always work the rounds/rows through both loops. Sometimes we need to crochet different structures and we crochet some rows in back/front loops only. The pictures below show how to crochet through the back loops (left) or front loops (right) only.

Loose ends

At the beginning and the end of a piece leave a tail of at least 15 cm or even longer, because most of these can be used for sewing. Loose ends you do not use anymore can be pulled through some stitches on the inside of the piece and cut off.

Now we pull the yarn through each stitch in the last round and about 5 cm before the end of the thread bind the thread with two nodes. Then we cut off both ends. We continue around the entire edge.

Finally, we cut the grass to the desired length and place it in the basket. We fasten the grass with brown yarn at several places to the basket.
