Special Stitch Explanation:

Invdec

This is a good way of decreasing in amigurumi when you need a tight, smooth fabric as this technique will eliminate bumps and holes in the fabric and will, as its name suggests, be almost completely invisible.

Insert hook into front loop only of first stitch, do not wrap yarn, insert hook into front loop only of next stitch. You will now have a total of three loops on your hook. Wrap your yarn around hook and pull through both of the 2 front loops on the hook, wrap yarn around hook again and pull through last 2 loops on hook. You have now 'invisibly' decreased by one stitch.

Color Changing:

Make all color changes in the last 2 loops of the final stitch of the old color.

Tie off and trim your color change ends as you go. Tie securely on the inside of your work.

Embroidered Stitches:

To hide the starting and fastening off ends of the embroidered stitches, first thread your yarn needle with the appropriate yarn. Tie a knot in the end of your yarn and push needle into and out of toy between crochet stitches, coming out where you want the first embroidery stitch to be. As you pull on the yarn the polyester toy filling will catch the knot securely inside the toy. When you have worked the required

embroidery stitches you can finish off by passing the needle in and out between different crochet stitches a few times until the yarn is securely caught up in the polyester filling. When secure, pull on end of yarn and snip off close to toy.

Stitch Marker Use:

Place marker in first stitch of each round. Move marker up with each completed round.

Stitch Placement: Work in both loops of the stitch unless specified otherwise.

Gauge (Tension):

Exact gauge is not crucial for this pattern. Just make sure your crochet hook is small enough to create a tight fabric that the stuffing can't poke through.

With the yarn and hook specified, dolls measure approximately 8" (20 cm) tall.
