Special Stitch Explanations

Invdec

This is a good way of decreasing in amigurumi when you need a tight, smooth fabric as this technique will eliminate bumps and holes in the fabric and will, as its name suggests, be almost completely invisible.

Insert hook into front loop only of first stitch, do not wrap yarn, insert hook into front loop only of next stitch. You will now have a total of three loops on your hook. Wrap your yarn around hook and pull through both of the 2 front loops on the hook, wrap yarn around hook again and pull through last 2 loops on hook. You have now 'invisibly' decreased by one stitch.

Embroidered Stitches

To hide the starting and fastening off ends of the embroidered stitches on the face, first thread your yarn needle with the appropriate yarn. Tie a knot in the end of your yarn and push needle into and out of toy between crochet stitches, coming out where you want the first embroidery stitch to be. As you pull on the yarn the polyester toy filling will catch the knot securely inside the toy. When you have worked the required embroidery stitches you can finish off by passing the needle in and out between different crochet

stitches a few times until the yarn is securely caught up in the polyester filling. When secure, pull on end of yarn and snip off close to toy.

Gauge (Tension)

Exact gauge is not crucial for this pattern. Just make sure your crochet hook is small enough to create a tight fabric that the stuffing can't poke through.

With the yarn and hook specified Snowladies measure approximately 6" (15 cm) tall.
