How to start and follow patterns

The works (models) on this book are based on crochet hook size 1.5 mm. However, the size of works can be various, depends on the tension (how tight or loose of crocheting). If works come out at bigger size, you may use the smaller crochet hook size, or if they come out at smaller size you may use the bigger crochet hook size.

Beginning the chain stitching

Turning work crocheting

The work will be like a sheet.

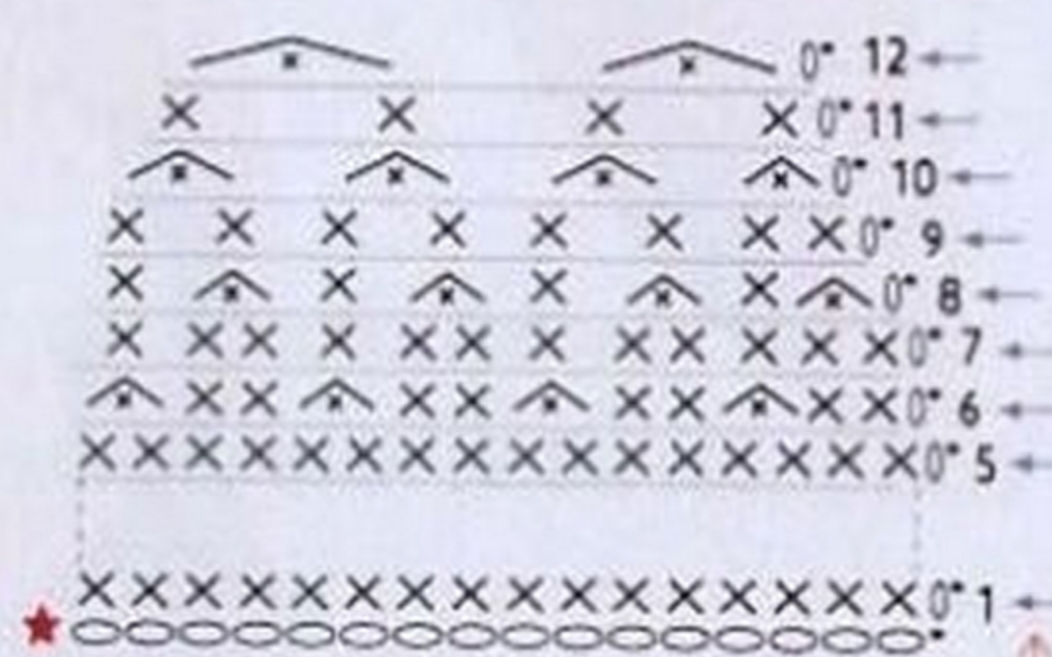

Arrows indicate turning work crocheting. For odd lines, crochet from the right to the left, and for even lines, crochet from the left to the right.

The number next to the pattern showing the number of stitches.

Round crocheting

The work will be like a opened-ends tube

Arrow shows the beginning of each row. Always crochet from the right to the left.

★ Start with 16 chain stitches.

Beginning working in rounds

Turning work crocheting

The work done in row 1-3 will be rounded, and the work done in row 4-9 will be separated at the ends.

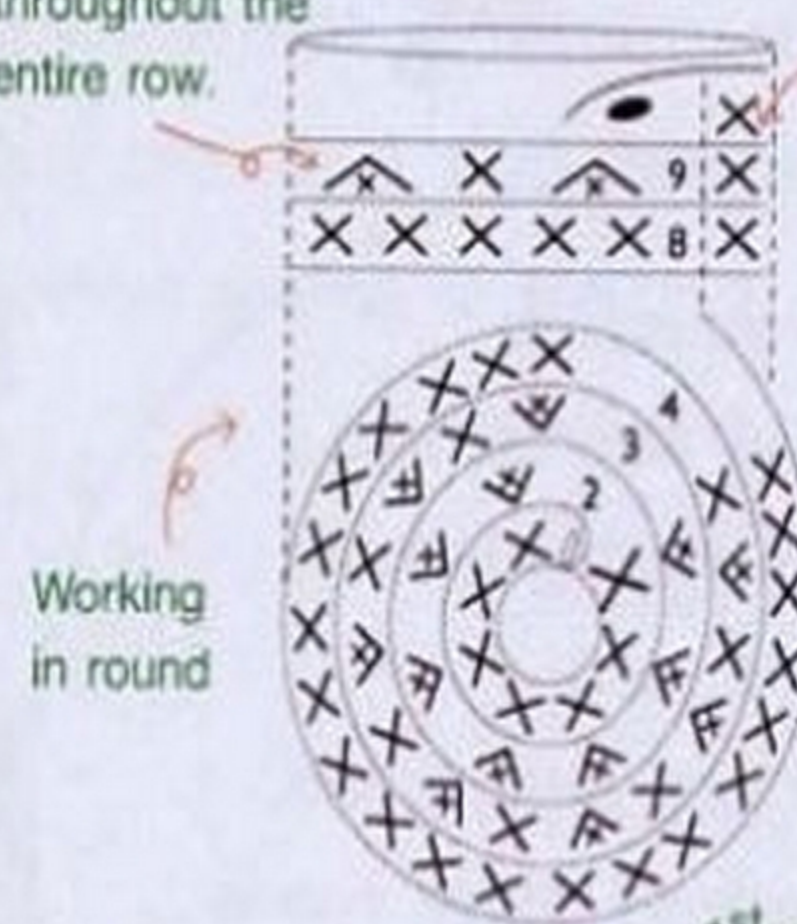

Running work crochet

Work will be like a one closed-end tube

Repeat crocheting throughout the entire row.
