Reversible Tapestry Hot Pads™

Designed by Lynda Chambers

General Information

Many of the products used in this pattern book can be purchased from local craft, fabric and variety stores or from the Annie's Attic Needlecraft Catalog.

General Instructions

- 1:** When **changing colors** (see *Stitch Guide*), drop first color to wrong side of work, pick up next color. Always change colors in last st made.
- 2:** Carry the thread not used along the wrong side of work. **Do not** catch it every time you make a stitch. Single crochet over the carried thread about every fourth st keeping the carried

thread fairly loose. If the thread is carried along too loosely, it will make holes appear in your work. However, if you notice some threads are too loose, they can be tightened with a stitch made with a needle and thread. If you are carrying the thread too tight, your hot pad will pucker.

- 3:** Each graph shown with each individual pattern is one section

of a five-section piece worked in rounds.

- 4:** Each square on each graph equals one sc unless otherwise stated.
- 5:** Block each Side piece before joining together.
- 6: Optional:** Six strands of embroidery floss can be substituted for size 10 crochet cotton thread.
