Amber Millard is the designer behind Divine Debris. Although she was taught to crochet as a child, she didn't pick up a hook again until she began working at a craft store about 4 years ago.

The inspiration for her designs comes from just about everything, including crochet stitches and popular trends in clothing and jewelry fashion, but most importantly her perpetually filled coffee cup. In what began as the rediscovering of a long-forgotten hobby, for Amber, Divine Debris has become a fun, at times exhausting, but ultimately a very rewarding blogging/business venture.

Yarns

MEDIUM

Yarn

Red Heart® Super Saver (7 oz/364 yds): 4 skeins #316 Soft White (**A**) and 5 skeins #629 Green Tones (**B**)

Materials

US Size I/9 (5.5mm) crochet hook, yarn needle, locking stitch marker

Size

Throw measures 45" wide x 55" long

Gauge

5 pattern repeats (1 dc, 1 ch-1 space) = 3"
16 rows = 5"

Notes

1. Throw is worked back and forth in rows in 2 layers, an **A**-colored layer and a **B**-colored layer. Each layer consists of rows of (dc, ch-1) mesh that are carefully intermeshed as each row is worked. The intermeshing of the 2 layers creates a pattern on both sides of the Throw. On 1 side, the pattern appears to run vertically, while on the other it runs horizontally.
2. A row worked with **A** alternates with 1 row worked with **B**.

When changing color, do not fasten off old color. Instead, drop loop from hook, enlarge it, and place stitch marker so that it does not unravel. Then pick up previously dropped loop of other color on hook to begin next row.

3. Two set up rows are worked to create the foundation and 1st row of the 2 layers. The 1st set up row creates the 1st **A**-colored row of (dc, ch-1) mesh. The 2nd set up row works a **B**-colored foundation that is slip stitched to the **A**-colored foundation ch and then creates the 1st **B**-colored row of (dc, ch-1) mesh.
4. After the set up rows are complete, both the **A**- and **B**-colored working yarns are at the same edge. The dropped loop of **A** is returned to the hook and another **A**-colored row is worked and the loop dropped. Without turning piece, the hook is taken back to the beginning of the row, the previously dropped **B**-colored loop is returned to the hook and another **B**-colored row is worked. After 1 **A**-colored row and 1 **B**-colored row have been worked, both yarns are at the opposite edge and the piece is turned before working the next 2 rows (1 **A**-colored row and 1 **B**-colored row).
5. When beginning an **A**-colored row, make sure that the **B**-colored loop and working yarn are held to the back of work so that they lie between the turning ch and 1st dc of the **A**-colored row.

This ensures that the **B**-colored loop and working yarn are in the correct position to begin next **B**-colored row.

Instructions:

With **A**, ch 154. Place marker on 2nd ch.

Row 1: Working in BLO, dc in 6th ch from hook (beginning ch counts as 1st skipped ch, dc, ch 1), *ch 1, skip next ch, dc in next ch; repeat from * across; drop loop from hook, turn—76 dc, 75 ch-1 spaces.

Row 2: Join **B** to FL of marked ch, working in FLO of beginning ch, *ch 1, sl st in next skipped ch; repeat from * across working last sl st in 1st ch of beginning ch-6, turn.

(Dc, ch-1) mesh row: **A**-layer is now in front of **B**-foundation, work over **B** sl sts and into **A**-chs beneath as follows: ch 4 (*counts as dc, ch-1 here and throughout*), working in front of next **A** ch-1 space, dc in next ch, ch 1, working behind next **A** ch-1 space, dc in next ch, *ch 1, working in front of next **A** ch-1 space, dc in next ch, ch 1, working behind next **A** ch-1 space, dc in next ch; repeat from * across; drop loop from hook, turn—75 dc, 74 ch-1 spaces with **B**.

Note: Take care to work **A**-sts into sts of previous **A**-row only, and **B**-sts into sts of previous **B**-row only.

Row 3: Place **A** loop back on hook, ch 4, holding **B** working yarn and loop in back of work to left of ch just made
