 BEGINNER	Projects for first-time crocheters using basic stitches. Minimal shaping.
 EASY	Projects using yarn with basic stitches, repetitive stitch patterns, simple color changes, and simple shaping and finishing.
 INTERMEDIATE	Projects using a variety of techniques, such as basic lace patterns or color patterns, mid-level shaping and finishing.
 EXPERIENCED	Projects with intricate stitch patterns, techniques and dimension, such as non-repeating patterns, multi-color techniques, fine threads, small hooks, detailed shaping and refined finishing.

GAUGE

Exact gauge is **essential** for proper size. Before beginning your project, make the sample swatch given in the individual instructions in the thread and hook specified. After completing the swatch, measure it, counting your stitches and rows/rounds carefully. If your swatch is larger or smaller than specified, **make another, changing hook size to get the correct gauge**. Keep trying until you find the size hook that will give you the specified gauge.

HINTS

As in all crocheted pieces, good finishing techniques make a big difference in the quality of the piece. Make a habit of taking care of loose ends as you work. Thread a tapestry needle with the thread end. With **wrong** side facing, weave the needle through several stitches, then reverse the direction and weave it back through several stitches. When ends are secure, clip them off close to work.

BACK RIDGE

Work only in loops indicated by arrows (Fig. 1).

BACK OR FRONT LOOP ONLY

Work only in loop(s) indicated by arrow (Fig. 2).

FREE LOOPS

After working in Back or Front Loops Only on a row or round, there will be a ridge of unused loops. These are called the free loops. Later, when instructed to work in the free loops of the same row or round, work in these loops (Fig. 3a). When instructed to work in free loops of a chain, work in loop indicated by arrow (Fig. 3b).

CHANGING COLORS

Work the last stitch to within one step of completion, hook new thread (Figs. 4a & b) and draw through all loops on hook.

POST STITCH

Work around post of stitch indicated, inserting hook in direction of arrow (Fig. 5).

WHIPSTITCH

Place two pieces with **wrong** sides together. Sew through both pieces once to secure the beginning of the seam, leaving an ample thread end to weave in later. Insert the needle from **front** to **back** through **both** loops on **both** pieces (**Fig. 6**). Bring the needle around and insert it from **front** to **back** through next loops of both pieces. Continue in this manner across, keeping the sewing thread fairly loose.

FRINGE

Hold together six strands of floss; fold in half. With **right** side facing and using a crochet hook, draw the folded end up around a stitch and pull the loose ends through the folded end (**Fig. 7a**); draw the knot up **tightly** (**Fig. 7b**). Trim the ends.

TASSEL

Cut a piece of cardboard 3" (7.5 cm) wide and as long as you want your finished tassel to be. Wind a double strand of thread around the cardboard approximately 12 times. Cut a 10" (25.5 cm) length of thread and insert it under all of the strands at the top of the cardboard; pull up **tightly** and tie securely. Leave the ends long enough to attach the tassel. Cut the thread at the opposite end of the cardboard and then remove it (**Fig. 8a**). Cut a 6" (15 cm) length of thread and wrap it **tightly** around the tassel twice, $\frac{1}{2}$ " (12 mm) below the top (**Fig. 8b**); tie securely. Trim the ends.
