

Ocean Hexi's Beach Bag

Crochet Pattern

Create 20 motifs. For the model, I created 1 of each character (crab, seashell, turtle, starfish, squid, and fish) and 14 plain hexi's.

Lay motifs out in the pattern shown in the diagram above, and join, using your preferred method of joining. (I slip stitch through both layers, using the outside, or "back" loops only.)

After motifs are all joined, fold the bottom edge up, to meet the top edge, with right sides together, and join your sides. Be sure to fold the 2 side hexi's in, when you reach them, to the adjoining motifs.

Handle Strap:

Join yarn at side seam, in first stitch before the seam. Ch 75 (or desired length for handle). Join in same st on OPPOSITE side edge of bag. Sl st in next st. Ch 1, TURN. Hdc in each ch across. Sl st in first st AFTER seam join. Sl st in next st. Ch 1, TURN. Hdc in each st across. Sl st in 1st st after seam join (opposite side). Do not fasten off.

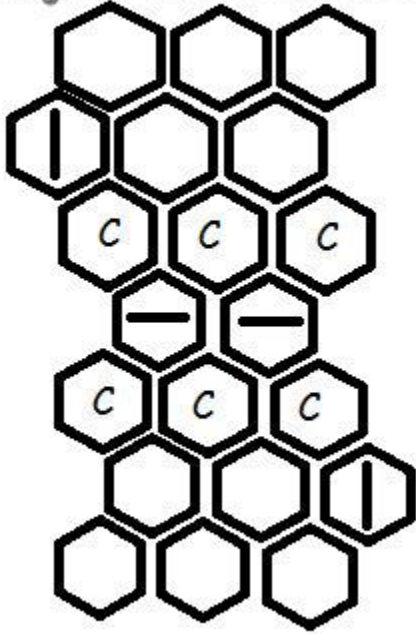

Top Edge:

Ch 1. Sc in each st around top edge, working slip stitches across handle sections. Join. Fasten off. Weave in ends

You can make your hexi's in any color combinations you'd like (obviously). Here, I have created a layout diagram, to show how you assemble the motifs into a great beach bag!

Each hexagon marked with a "C" is where I placed a character motif. All the rest were plain motifs. Each hexagon with a line through it, is where you will fold your bag, when all motifs are stitched together. You will then stitch your sides together, folding the 2 marked motifs to either the front or back, to create a solid rectangular shape.

Trifles N Treasures

When placing motifs on opposite sides of the bag, be sure to place the "back side" row upside down when joining!
