Hello, and welcome! My name is Lauren and I'm so glad you are here!

My crochet journey began in 2009 when my grandmother bought me a book about amigurumi. I was intrigued that something so cute and small could be made by using yarn and a hook. My grandma, being the wonderful person she was, purchased the book for me and later gifted me a full set of crochet hooks. I spent hours trying to teach myself to crochet, and there were many times when I felt like I would never figure it out. After countless tries and lots of YouTube® videos, something finally clicked. I was hooked!

When I first started crocheting, I used patterns from books or ones I found online. I knew I eventually wanted to design my own patterns, but I was so nervous to try. The great thing with amigurumi, though, is that once you have mastered a few basic shapes, you can crochet almost anything! I sat and sketched out little kawaii characters, and then I pulled out the yarn and dove in. Since then, I've been designing all my own patterns and sharing what I make with the world. Being able to crochet something that was just an idea on paper has to be my favorite part of knowing how to crochet.

In 2015 I finally opened my Etsy® shop, A Menagerie of Stitches. Many people know me as the girl who crocheted a chemistry set, but I promise I've crocheted much more than that! I love adding faces to inanimate objects, and my Instagram™ feed is always filled with smiling food, plants, and animals. The items I crochet are things that I love to keep around the house, and make me smile when I see them.

So go on and crochet! I hope you enjoy this book and have fun making all sorts of cute things to gift or keep for yourself. Whether you're a beginner or expert crocheter, I have a feeling you're going to love these patterns and the items you make.

Happy crocheting!

Lauren Espy

MATERIALS AND TOOLS

To complete the patterns in this book, here are some of the materials and tools you will need: YARN:

You'll want to use worsted #4 weight yarn for all the projects in this book. Worsted weight comes in a large variety of colors and brands. Choose your favorite colors, or those recommended for each pattern.

CROCHET HOOKS:

Most of the patterns contained in this book use a U.S. size G-4.25mm crochet hook. Be aware that if you change the hook size, your items may come out a different size than what the pattern states.

SAFETY EYES:

Safety eyes come in all sorts of sizes and colors. They can range anywhere from 6mm to 40mm. Most of the patterns in this book require size 12mm, 9mm or 6mm. Safety eyes come with a plastic or metal washer that attaches to the back and makes the eye nearly impossible to remove. Make sure you've positioned the eyes exactly where you'd like them before attaching the backs. Buttons are a great alternative if you can't find safety eyes.

Note: if you plan on giving the items you create to small children, I always recommend replacing the safety eyes with felt or embroidering them on using yarn or thread.

STUFFING:

I always use polyester fiberfill to stuff my amigurumis. Make sure to add enough so your item won't lose shape, but take care not to add *too* much. Over-stuffing can cause the fabric to stretch and the stuffing to show through the stitches.

YARN NEEDLE:

Also called a darning needle, this needle is great because it has a bigger eye which makes threading yarn onto it much easier. This is an ideal needle to use to attach crocheted pieces together.

EMBROIDERY FLOSS AND NEEDLE: You can use embroidery floss to add facial features. Floss comes in all sorts of colors, just like yarn. I always use black for the mouths and eyelashes. Embroidery floss can also be used to add smaller details, such as rosy cheeks.

FELT:

Felt is another great material to use for facial features like eyes or rosy cheeks.

STITCH MARKERS:

Stitch markers are your best friend when crocheting amigurumi! Amigurumi is crocheted “in the round” so use these to mark the start or end of each round. If you don’t want to purchase markers, items you might have around the house (like safety pins) also work great!

SCISSORS:

Have a sharp pair of scissors on hand for trimming yarn or embroidery floss.

STRAIGHT PINS:

Straight pins are great to use as positioning aids before you sew the pieces on.

OTHER MATERIALS YOU MAY NEED

CARDBOARD: Cardboard can be useful for making the bases of items more sturdy.

PIPE CLEANERS: Pipe cleaners (also known as chenille stems) are perfect to use as flower stems.

POLY PELLETS AND SCRAP FABRIC: These items can be used to make a “bean bag” to help items stand up.

TERRA COTTA POTS: These pots are essential for planting the flowers you stitch!

WOODEN DOWELS: Dowels can be used for flower stems and support.

HOT GLUE GUN: Use a hot glue gun to assemble flowers to the pots.

EGG CARTON OR BERRY BOX: Use a cardboard egg carton or a cute berry box to display your creations!

STITCHES AND TECHNIQUES

GAUGE:

The measurements provided for each item in this book are approximate. Depending on your tension, yarn, and hook size, your items may turn out a little bigger or smaller.

YARN OVER:

To yarn over, simply grab hold of the yarn with your hook. The yarn will be going over your hook and then you can proceed to pull it through the loops or stitch.

MAGIC RING (also known as an adjustable ring):

I prefer this method because it makes the piece close up more, and a small hole isn't left at the top.

TO MAKE A MAGIC RING:

(steps pictured on opposite page)

1. Make a loop and place the working yarn on top of the loose tail.
2. Insert hook into loop, grabbing the working yarn with the hook. Pull through the loop.
3. Yarn over and pull hook through loop.

This is where you will start making single crochets into the magic ring.

4. Insert the hook back into the loop; make sure to go underneath both yarn tails.
5. Yarn over and pull hook through loop. 2 loops will be on the hook.
6. Yarn over and pull through both loops. This completes your first single crochet.
7. Repeat as many times as pattern states.
8. Grab the loose tail and pull to close the loop.

9. Begin crocheting, starting in the first single crochet from step 6.

SINGLE CROCHET:

1. Insert hook into stitch and yarn over. Pull hook through stitch. There will be 2 loops on your hook (*photos 1 & 2*).
2. Yarn over again and pull through both loops. 1 loop will remain on hook (*photos 3 & 4*).

HALF DOUBLE CROCHET:

1. Yarn over and insert hook into stitch (*photo 1*).
2. Yarn over and pull hook through stitch; 3 loops will remain on hook (*photos 2 & 3*).
3. Yarn over and pull through all 3 loops. 1 loop will remain on hook (*photos 4 & 5*).

DOUBLE CROCHET:

1. Yarn over once and insert hook into stitch (*photo 1*).
2. Yarn over and pull hook through stitch; 3 loops will remain on hook (*photo 2*).
3. Yarn over and pull through 2 loops. 2 loops will remain on hook (*photo 3*).
4. Yarn over for a final time and pull hook through remaining 2 loops. 1 loop will remain on hook (*photos 4 & 5*).

TRIPLE CROCHET:

1. Yarn over 2 times so that 3 loops are on hook (*photo 1*).
2. Insert hook into stitch and yarn over (*photo 2*).
Pull hook through stitch. There will be 4 loops on your hook.
3. Yarn over and pull through 2 loops. 3 loops will remain on hook (*photos 3 & 4*).
4. Yarn over again and pull through another 2 loops. 2 loops will remain on hook (*photos 5 & 6*).
5. Yarn over for a final time and pull through the remaining 2 loops. 1 loop will remain on hook (*photo 7*).

FRONT OR BACK LOOPS ONLY:

Some of the patterns in this book use this technique. In order to figure out which is the front and which is the back, simply hold your work up with the front of your work facing you. You will see a row of V's. The loops closest to you are the front loops (*photo 1*) and the farthest ones are the back loops (*photo 2*).

INVISIBLE DECREASE:

1. Insert the hook into the FRONT loops only of the next 2 stitches. There will be 3 loops on your hook (*photo 1*).
2. Yarn over and pull hook through 2 loops (the 2 front loops). 2 loops will remain on hook (*photos 2 & 3*).
3. Yarn over again and pull through the 2 remaining loops. 1 loop will remain on hook (*photo 4*).

SLIP KNOT:

1. Make a loop and place the loose tail on top of the working yarn.
2. Insert hook into loop and grab the loose tail.
3. Pull the loose tail through the loop, but not all the way.
4. Pull the tail to tighten the slip knot onto the hook.

CHAIN:

1. After you have made a slip knot, simply take the the working yarn and yarn over.
2. Pull hook through the slip knot. This is your first chain stitch. Repeat as many times as the pattern states.

SLIP STITCH:

1. Insert hook into stitch or chain and yarn over.
2. Pull hook through stitch or chain. There will be 2 loops on your hook.
3. Pull hook through the first loop and 1 loop will remain on hook.

CLEAN COLOR CHANGING TECHNIQUE

1. When working the last stitch of the old color, do the typical single crochet until there are 2 loops left on the hook (*photo 1*).
2. Use the new color to yarn over and pull through those 2 loops (*photo 2*).
3. Sl St into the next stitch with the new color (*photos 3 & 4*).
4. Continue to crochet as normal with the new color (*photo 5*).
5. Trim the tail of the old color. Tie the tails from both colors together to secure the color change.

CLOSING UP YOUR PIECE

I like to use the following closing technique because it give the piece a more finished look, and the closure is nearly invisible.

1. When you've reached the end of the piece, cut the yarn and leave a tail for sewing. Pull yarn tail through the loop on the hook and pull to secure (*photo 1*).
2. Thread the yarn tail onto the needle. Insert the needle into the front loop of the first stitch, working from the center to the outside. Pull needle through. Continue going through the front loops of the remaining stitches (*photo 2*).
3. Once you have reached the end, pull the yarn tail and the hole will close (*photo 3*).
4. Insert the needle into the center of the hole and bring out to the other side (where the magic ring is). Trim the yarn close to the piece and hide the tail inside (*photos 4 & 5*).

ADDING EYELASHES

Thread your sewing needle with a length of embroidery floss.

1. Bring the needle from inside the piece to the outside. Make sure your needle is right next to the safety eye (*photo 1*).
2. Insert the needle back into the piece, about $\frac{1}{4}$ of an inch away from the eye to make the first lash (*photos 2 & 3*).
3. Bring the needle to the outside again, and repeat step 2 for making another lash. Make sure to place the lashes apart from each other (*photo 4*).
4. Once the needle is inside the piece and you have sewn on as many lashes as you'd like, make a knot to secure floss.

ADDING A MOUTH

Thread your sewing needle with a length of embroidery floss.

1. Bring the needle from inside the piece to the outside, near the safety eye on your left (*photo 1*).
2. Go across to the right side and insert needle into piece. Don't pull the needle all the way through (*photo 2*).
3. Hold the thread in a smile shape and bring the needle up into the center and down a stitch or two (*photo 3*).
4. Pull thread down to make a "V" shape (*photo 4*).
5. Insert the needle close to the spot where the needle first came out at to create the smile (*photo 5*).
6. Pull thread through and make a knot to secure floss (*photo 6*).

Add safety eyes and stitch mouth.

R20: *Sc 3, inv dec 1, * 6 times. (24 sts) Stuff cactus. Fasten off and leave a tail for sewing.

ARMS: MAKE 2

Using green yarn,

Round 1: 5 sc in magic ring (5 sts) **R2:** 2 sc in each st around. (10 sts)
R3-13: Sc 10.

Stuff arms. Fasten off and leave a tail for sewing.

TO BEND ARMS:

Cut a length of green yarn and tie a knot at one end. With the yarn needle, insert into one of the holes on the side of the arm. Pull needle through the middle of one of the stitches between rounds 6 and 7 (*photo 1*). Insert the needle into the stitch directly below (*photo 2*) and pull out through another hole in the side of the arm (*photo 3*). Gently pull the yarn and the arm will bend (*photo 4*). Tie off and weave in end.

DIRT

Using brown yarn,

Fasten off.

ASSEMBLY

1. Attach the arms to the side of cactus with straight pins. Sew to the body using a yarn needle. Sew the cactus body to the dirt (*photo 1*).

2. With hot glue gun, glue a small piece of brown felt over the hole in the bottom of the pot (*photo 2*). This step is optional if your pot does not have a hole. I like to cover this up by adding felt to make it look like dirt and to hide the fiberfill in step 4.

3. Place some fiberfill inside of pot (*photo 3*).

4. To attach the cactus to the pot, begin at the back and place glue along the “lip” of the dirt (*photo 4*), add a little bit at a time and press onto the pot. (The “lip” is round 8 where we crocheted through the back loops in the dirt section.) It works well to use a chopstick to gently push through the stitches to make sure the glue dries and attaches to the pot (*photo 5*).

5. Continue adding glue and pressing until you have reached the end (*photo 6*).

TO MAKE A DAISY

You will need white yarn for the petals and yellow yarn for the center. Crochet all the same pieces as you would for the sunflower, replacing the petals with the pattern below.

PETALS: MAKE 9

Using white yarn,

Round 1: 6 sc in magic ring (6 sts) **R2:** 2 sc in each st around. (12 sts)

R3-5: Sc 12.

R6: *Sc 1, inv dec 1,* 4 times. (8 sts) **R7:** Sc 8.

R8: *Sc 1, inv dec 1,* 2 times, sc 1 and sl st into the last st. (5 sts)
Fasten off and leave a tail for sewing.

FLOWER ASSEMBLY

1. Sew the petals to the flower center (*photos 1 & 2*).

For sunflower: with straight pins, place 7 petals evenly around the flower center. Sew all 7 petals in place before doing the back row. Place the remaining 7 petals in between the first row of petals. You want to stagger them so the flower looks more full. Sew petals.

For daisy: with straight pins, place the 9 petals evenly around the flower center and sew in place.

2. Place the stem on the wooden dowel and sew the stem to the dirt (*photo 3*).

3. Cut a decent length of extra green yarn and tie a knot at one end. Make sure the flower is centered on the stem. Sew the stem to the back of the flower center. Weave the yarn back and forth through

the stem and the flower center, making sure it is securely attached (*photos 4-6*).

4. Sew the back circle on top of the stem (*photo 7 & 8*).

5. Sew on the leaves on each side of the stem.

ATTACHING TO TERRA COTTA POT

1. With a hot glue gun, glue the cardboard and brown felt together (*photo 9*). With the cardboard side up, place a large dollop of hot glue and place the dowel in the center of it (*photo 10*). Place the flower inside the terra cotta pot while the glue cools so the flower stays straight (*photo 11*). Once the glue has cooled, place some glue inside the pot, around the bottom and place the cardboard base on top of it. Press to secure the flower and pot.

2. Add some fiberfill around the dowel to give it some stability. This also allows the dirt to look like it is piled up around the flower once it is finished. You are now ready to attach the flower to the pot.

3. To attach the flower to the pot, begin at the back and place glue along the “lip” of the dirt, add a little bit at a time and press onto the pot. The “lip” is round 8 where we crocheted through the back loops, in the dirt section. Use a chopstick to gently push through the stitches to make sure the glue attaches and dries to the pot. Continue adding glue and pressing until you have reached the end *(photo 12)*.

2. Next, attach 5 of the thick dark green tentacles, placing them evenly around the 3 skinny ones ([photo 2](#)).

3. Place the remaining 5 thick light green tentacles evenly around the belly (about 2 rows from the edge of the belly, *photo 3*).

4. Attach the 5 remaining skinny dark green tentacles, positioning them in the middle of the thick light green tentacles (*photo 4*).

5. Make sure to securely knot the loose strands on the inside of the belly. Trim strands ([photo 5](#)).

TO FINISH THE JELLYFISH:

1. To attach the belly to the body of the jellyfish, weave the yarn needle through the last row of stitches on the belly and the back loops from R15 on the body ([photos 6-9](#)).
2. Stuff with fiberfill before closing.

OPTIONAL:

If you would like to have a hanging jellyfish, simply make one more skinny tentacle. With a yarn needle, insert it into a stitch by the magic ring and bring out on the opposite side (*photos 10 & 11*). Tie a knot on the tail ends and trim ends (*photo 12*). Then gently pull chain through so that the knot is hidden inside the body (*photos 13 & 14*).

R3: *Sc 1, 2 sc in next st,* 6 times. (18 sts) **R4:** *Sc 2, 2 sc in next st,* 6 times. (24 sts) **R5:** *Sc 3, 2 sc in next st,* 6 times. (30 sts) **R6:** *Sc 4, 2 sc in next st,* 6 times. R20: Sc 54 through **FRONT** loops only.

R21: Sc 54.

Fasten off and weave in end.

FOR SHELL DETAIL:

1. With light brown yarn and a yarn needle, back stitch a hexagon between rounds 5 and 6 (*photo 1*).

2. Next, count 8 rows down until you reach rounds 13 and 14. Back stitch a straight line around the whole shell and tie off (*photo 2*).

3. On each point of the hexagon, back stitch a line on a slight angle, about 4 stitches. Then turn and back stitch down until you reach the straight line (*photo 3*). We're essentially making a wide V shape that is on its side. Make sure that every other line is the opposite, almost like making another hexagon in between the straight line and original hexagon (*photos 4 & 5*).

4. For the last row, repeat the steps for making another slight angle, this time going below the straight line. Make sure every other line is opposite like in step 3. Back stitch lines and make sure to stop where **R20** from the shell begins (*photos 6 & 7*).

TURTLE ASSEMBLY

1. With green yarn and a yarn needle, sew the turtle head to the shell. Place the head about 2 rows above **R20** from the shell (*photo 1*).

2. Place the front legs at the top of the belly on the corners, leaving one side open in between them (*photo 2*). With tan yarn, sew legs to the belly with a back stitch. Make sure to sew them on the inside of the body (*the part that won't be showing, photos 3 & 4*).

3. Repeat for the back legs, this time working on the bottom half of the body. Leave one side open between the back legs, just like the front legs (*photo 5*).

4. To attach the belly to the shell, first make sure the head is centered between the front legs ([photo 6](#)). With tan yarn, begin to weave the yarn needle back and forth through the belly and shell. To create invisible stitching while sewing, weave the yarn needle through the last row of stitches on the belly and the back loops from **R20** on the shell ([photos 7 & 8](#)). When you reach the legs, do the same technique but this time the leg will be included ([photos 9-11](#)).

5. Make sure to stuff the shell with fiberfill before closing up the hole ([photos 12 & 13](#)).

2. Once you have pulled the yarn through, insert the needle into the hole diagonal from the one the needle just came out of (i.e., *down and over one stitch, photos 7 & 8*).

3. Now bring the needle up into the hole above the one the needle just entered. Make an X by inserting the needle into the hole diagonal to this corner (*photo 9*).

4. For the next stitch, bring the needle up through the hole which is diagonal from the final hole for the first X (*photo 10*).

5. Repeat the steps for making an X (*photos 11-13*). The row of X's will be along the bottom of the wing (*photos 14 & 15*).

Position the wings near the white line on the body, right where the color changes from gray to brown (*photos 16 & 17*). Only attach about 5 rows to the body so the wing sticks out just a little (*photo 18*).

WHIPPED CREAM

Using white yarn, Ch 39.

Row 1: In 2nd ch from hook, sc in each ch across. (38 sts) Fasten off and leave a tail for sewing.

To form the little dollop of whipped cream, begin by taking the end with no tails and rolling it together (*photo 2*). Continue to wrap around until you have formed a circle (*photo 3*). With a yarn needle, weave one tail through the whipped cream and make sure all sides have been sewn together (*photos 4 & 5*). You don't want any parts of the chain to come unravelling. Leave tails for attaching to pie at the end.

ASSEMBLY

1. If adding cardboard - trace top piece of pie onto cardboard and cut out. Do the same for the bottom, leaving off the "back" crust (R19-25 from bottom piece pattern) Set aside (*photo 1 & 2*).

2. Sew the side piece to the bottom crust piece, starting with the shorter side (*photo 3*). Next sew side to the bottom of the crust and continue sewing until you have reached the other side (*photos 4 & 5*). Sew the shorter side to the bottom crust as well.

3. Sew the top piece to the SIDES only (*photos 6 & 7*). Leave an opening between the back piece and add cardboard and fiberfill.

4. With the tail from crust, begin to sew the opening closed. Weave the yarn needle through the horizontal stitches behind the last row of the top piece (these stitches are on the inside of the top piece, *photo 8*). Bring the needle through the first row of horizontal lines on the crust, right below the “scalloped” part of crust (*photos 9 & 10*).

5. To attach the dollop of whipped cream - take one tail and a yarn needle and begin to sew through the bottom of whipped cream and top of pie (*photos 11 & 12*). Continue until it is completely attached. Weave in the extra tail and secure with a knot. To “fluff” whipped cream, gently pull on the pieces (*photos 13 & 14*).

Lauren Espy's journey with crochet began in 2009 when her grandmother gifted her a book about amigurumi, the Japanese art of knitting or crocheting small, stuffed creatures. In 2015, Lauren opened her Etsy shop, A Menagerie of Stitches. While Lauren was working at a nature and science museum, she became inspired to crochet a chemistry set, complete with beakers, test tubes, and a Bunsen burner. What started as a hobby quickly developed into a passion and then a career. She shares her designs with an ever-growing Instagram audience @amenagerieofstitches.

When not crocheting, Lauren loves to go on road trips and spend time with her husband, Carl.
