

Crochet Beach Shoes Pattern

Material:

*Jute (2 balls of each) Line and Cotton 8ply

2 Colors suitable for crochet needles 4.00 (EUROPE)

STARTING:

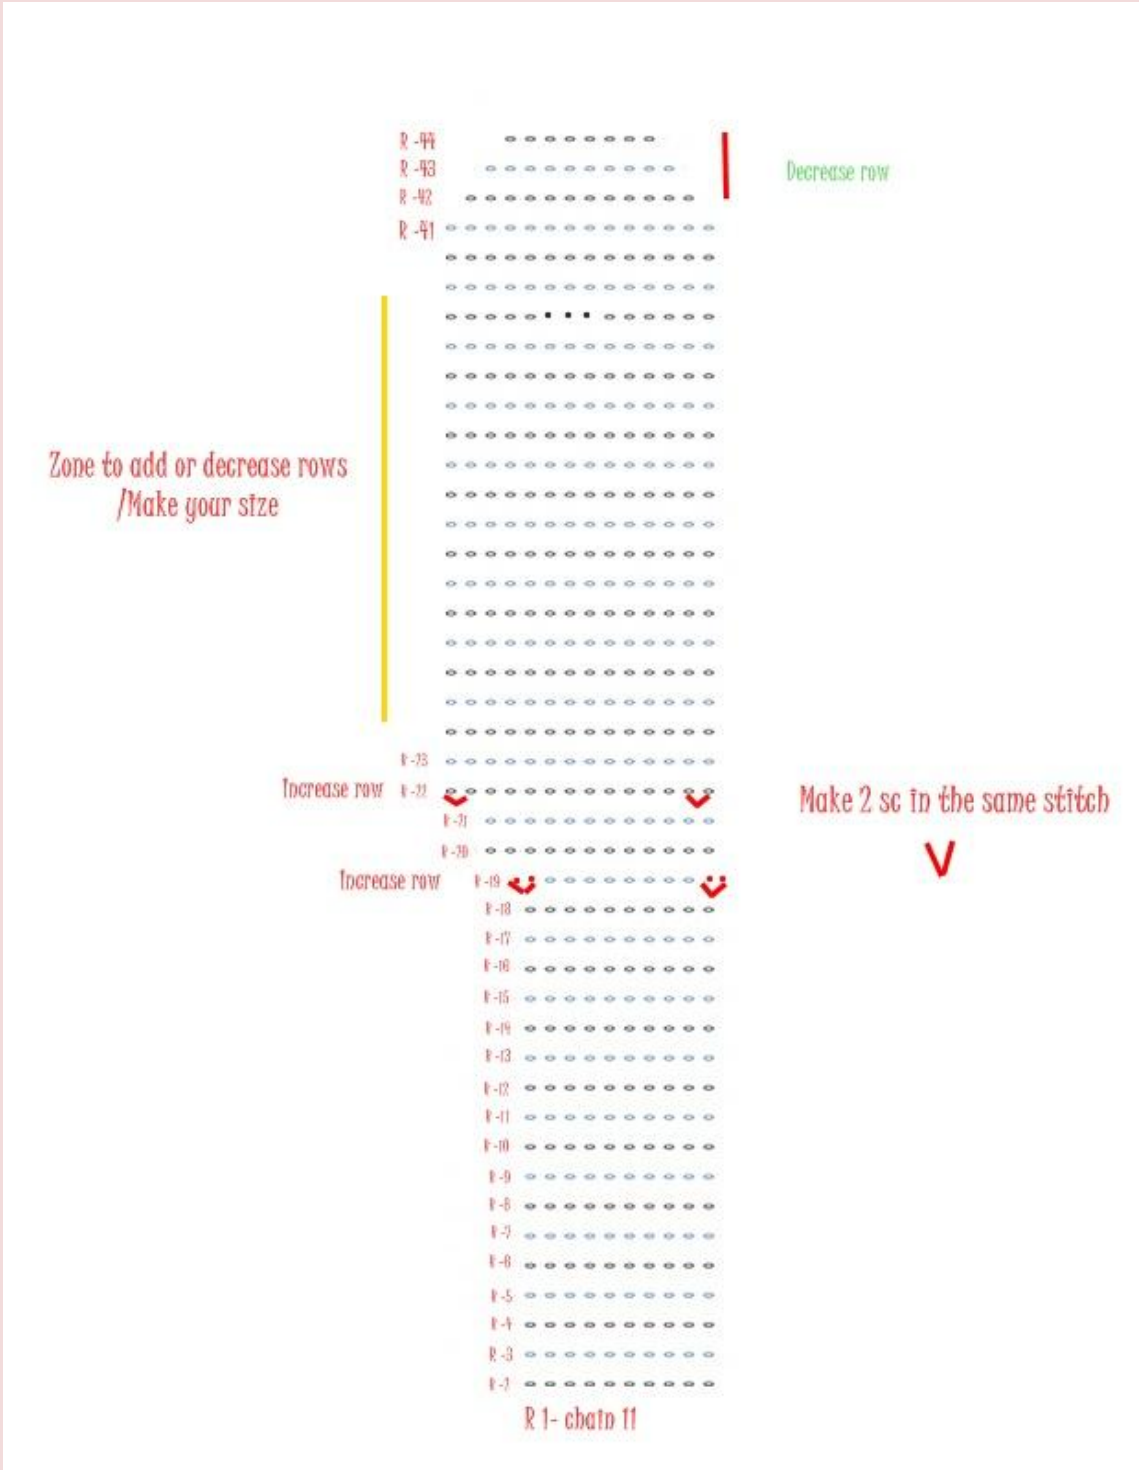

We start by the sole!

*I made an helping chart, is not very beautiful...but you can follow something you do not understand at the written pattern. Looks like the sole is not very centered, well...both sides of sole are similar...is just my bad skill to make the charts... Next image chart is only the sole. You can print only that page. You have a zone to increase or decrease size, I use to make it for removing or adding one row by size! For example: if I need to grow one size I grow one row!

This chart is for a 40(8.5 US/ 6 UK) Europe: see conversion sizes image:

Women's Footwear Sizing			
US	UK	Europe	CM
5	2.5	35.5	22
5.5	3	36	22.5
6	3.5	36.5	23
6.5	4	37.5	23.5
7	4.5	38	24
7.5	5	38.5	24.5
8	5.5	39	25
8.5	6	40	25.5
9	6.5	40.5	26
9.5	7	41	26.5
10	7.5	42	27
10.5	8	42.5	27.5
11	8.5	43	28
11.5	9	44	28.5
12	9.5	44.5	29

ZOOM!

1dbl st example (Make your normal stitch, lace the next 2, and push the line all together)

Written Instructions to print for the sole(print only this page):

R1-You start making a chain of 11,make a sc in second and the rest of 10 sc.

R2- Make a chain of 1, sc in each sc (10sc), and turn

R3 to 18- Similar

R 19-(INCREASE ROW) Make a chain of 1, 2 sc in one st, sc in each of next 8 sc, 2 sc in last stitch, and turn

R 20 and 21-Make a chain of 1, sc in each sc (12 sc), and turn

R 22-(INCREASE ROW) make a chain of 1, 2 sc in one st, sc in each of next 10 sc, 2 sc in last st, and turn

R23 to 41- (GET YOUR SIZE ROW) Make a chain of 1, sc in each sc (14 sc), and turn, this is the row where you change to your size. I use to remove one row to decrease one size..for example

R42-Make a chain of 1, 1dbl st (*make normal stitch,lace next 2 and push all together, you decrease, look up image instructions*), sc in each of next 10 sc, 1 dbl st, and turn

R43-Make a chain of 1, 1dbl st, sc in each of next 8 sc, 1 dbl st, and turn

R44-Make a chain of 1, 1 dbl st, sc in each of next 6 sc, 1 dbl st, and turn

Base of sole is done, but before we continue, make a row, all round the sole with sc, single crochet, to keep the sole more regular.

UPPER:

UPPER WRITTEN:

R1- (Still JUTE)Chain 1, sc all around in back loop, and join

R2-(STILL JUTE)Repeat

R3-**Change to cotton**, make all row with sc, note: start from the back center, when you arrive to the front sides, make 1dbl st (to decrease a little),each side **corner** of the front, all the rest is normal sc.

R4-Repeat row before

NOW

We need to make the flower! To insert in the front of shoe.

1-Chain of 4 and close

2-14 dc in ring

3-2 sc same sitch all around

4-1 sc each stitch all next row

5-make the petals like image: Chain of 2, 2 dc stitch together, 2 dc stitch together, 2 dc stitch together, chain of 2...

Will look like this...but the flower you see at this shoes is blue only!

We have the flower, join to the front of shoe (sew):

See the yellow point?

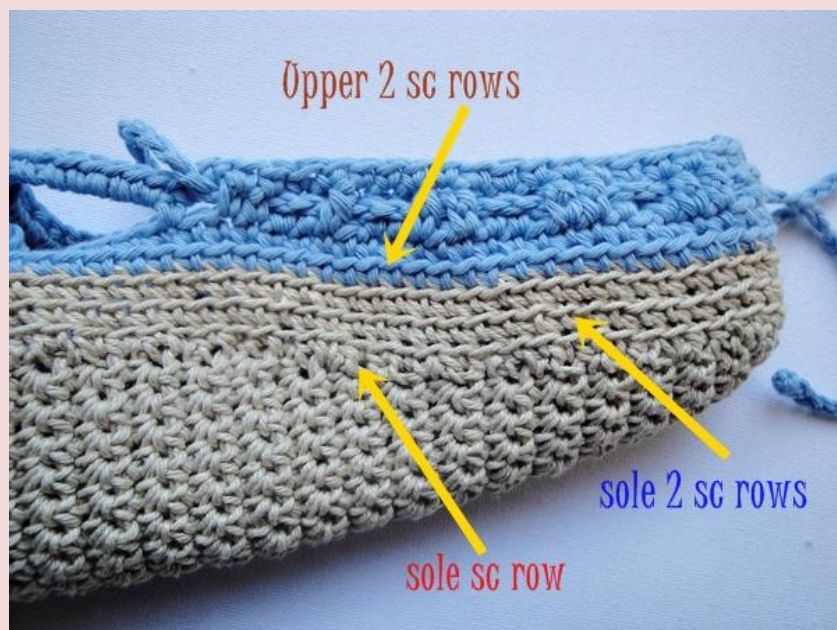

Is where you start a chain of 6 to each side (in the last row you will cover the chain with sc, not this row), and join at sides! The big chain you see at right, is only the chain to lace in the back, and you only make it in the end, not now!

OK. Now we made the 2 upper sc rows, we joined the flower, created the the 2 chains of 6, and joined them to the sides.

What is next?

Next row:

To the back side of shoe we use hdc (half double crochet), to the front we use sc (single crochet). You will understand if you look images).

The last row is sc all around or simply in the back zone if you already made in the front .

I made a chain of 110 and inserted at hdc.

The jute and the cotton. I used same needle to both, but they are different. The cotton is larger. This allows the jute to stay more flexible.

If you wish other flower make the same to insert at shoe.

Are very comfortable this shoes, not firm, flexible.

My mother and daughter are trying to get this ones!

IS DONE!

THANKS!

Please notice!

All my crochet patterns, including photos, may not be used to copy or redistribute.

You are welcome to sell your finished creations using my patterns and I would be thankful if you would mention my shop in a link.

Thank you so much!
