STARTING!!

Chain of 7 and
go on around...

Make a **chain of 7**, and continue around with simple stitches, increase two each time at borders(same place)...

I used baby yarn, is not very larger

**Increase only
to try to keep circle plane...**

Make the low stitches you need to keep the circle flat, similar in both sides!

You will need about 5 rows, but you can change it if wish to.

After the Hard Pink, you have worked with the light pink, high stitches (see please my stitches tems).

About the light pink:

*one row with simple stitch , from this time on you **will not** increase stitches, **is always the same.**

Resume, you make **1 row** with light pink in simple stitch.

*After that you start with high stitch, in this image I made 4 rows.

*Green time: Make two rows and cut the yarn. Two rows like before, no increase.

After that **place in your feet** and decide **how large you wish** the front feet open zone. Cut the line before make this, and start again in one of the borders. Will look better Watch image:

I still used the green! **Why** do I tell you to place in your feet **and do not give** exact stitches? Because feet are different, some very fat, others no, sometimes a big size also!

(If this zone is not large enough for you that mean you should make more rows in the strong pink zone, starting)

I explain this way the pattern, this allow you to make slippers from childs to adults in your home! **All sizes**

I started with ligh pink again, and make 6 rows to my size (mine is the 9). How can you do to your size?? Again place at feet and look measurement. Is too small? Too big? Just check.

This is the **general look only** to **guide** you. Now, let s get back to our work!

You make the ligh pink, the size is ok.
Next you are going to make an easy
circle like this:

*Make a chain of 4

*Make 14 high stitches around

*Make 2 high stitches each time, same place

You make this circle separated, later you sew it to slipper!

Is the **back** zone!

If you do not wish this, just sew the slippers as you have it now! But this looks better!

General view:

The **only zones** where **you increased** stitches is the start (**zone A**) and the **circle** I showed you before.

(This image is from other slipper I made, but is similar the circle)

Did you sew the circle to the back of slipper? Ok, now you will make a row of green, simple stitch to start the **upper zone** of slipper, the “**boot**” zone.

Next rows will be with high stitch to grow up fast!

*I made 2 rows of high stitch

*1 row with open zones

*1 more row of high stitch to finish

You can change the look making a big boot, just make more rows.

IS DONE!!
