In this book you will find

ANDY THE ANT *(created by Maja Hansen)* Andy is a hard worker and he always has his hands full. Whether it's pulling weeds or fixing a broken fence, Andy is always there to help out in his local community. When he has a day off, he does not slow down, but enjoys playing both the drums and the piano – at the same time.

18

22

BAO THE GIRAFFE *(created by Crochetbykim)* Bao the Giraffe is a big talker. He talks from the moment he wakes up until the moment he falls asleep, and sometimes he even continues talking in his dreams. He knows all about the latest gossip too, and in return for some fresh leaves, he'll happily tell you all about it.

27

BARRY THE BADGER *(created by Sundot Attack – Jhak Stein)* Ever since Barry tried his hand at gardening, he's been in love with the feeling and the scent of the earth. He spends most of his time outdoors, working on an allotment he shares with his neighbors. And when the harvest comes in, he cooks a delicious meal for all of his fellow gardeners.

KAI THE KOALA *(created by Lemon Yarn Creations - Andreia Ferreira)* Like most marsupials, Kai the Koala loves to sleep. He loves it so much that he can fall asleep pretty much anywhere at any given time, so he always carries a big leaf blanket with him to stay cozy. And should he wake up hungry from his nap, he immediately has a snack at hand.

32

LEVI THE LION *(created by Airali Design - Ilaria Caliri)* Levi is a lion cub who can't wait to grow up. He came up with a little trick: he made a beautiful mane with all the red leaves he could find on the savannah. He wears his mane with pride, then looks at his reflection in the river and practices his best roar.

37

42

MAMA AND BABY KANGAROO *(created by DIY Fluffies)* Mama and Baby Kangaroo love to make really big jumps together. The higher Mama Kangaroo jumps, the more excited Baby Kangaroo gets, and he'll squeal with delight. But Baby Kangaroo is growing fast and is getting a bit heavy, so after a few big jumps, Mama Kangaroo needs to take a break.

GARY THE GORILLA *(created by Sundot Attack – Jhak Stein)* Gary the Gorilla is an enthusiastic photographer. He's always snapping pictures, trying to preserve the beautiful memories he makes together with his family. Remember to say 'monkey' next time he tries to take your picture!

48

RUFF THE SQUIRREL (created by Rnata – Natalia Ruzanova) Ruff's family has a long tradition of jewelry-making, and Ruff is bent on continuing the business. He's gathered the best acorns to make adorable necklaces in a fall theme, his favorite season of the year. I'm sure they'll make perfect little gifts.

54 

59

BENJY THE BUNNY (created by Moji-Moji Design – Janine Holmes) Have you ever seen your carrot tops mysteriously rustling around even when there's no breeze? If you look carefully amongst the undergrowth, chances are that you'll find Benjy the Bunny cheekily pulling up a root or two for a quick snack. If you're happy to share your crop with him, you'll soon have a new best friend.

CHARLIE THE CROCODILE (created by DIY Fluffies) Charlie is a big day-dreamer. You can find him in the water with his head in the clouds almost all the time. He likes to fantasize about flying, he would love to be able to fly over the woods and see the big trees and animals from up above.

64 

70

AUDREY THE OWL (created by Irene Strange) Like most owls, Audrey is a shy but observant little bird. She spends her days in a reading nook at the local library, where she devours one story after another. She'd like to read all the books in the library someday. And library mice are a lot of fun to hunt too!

MAX THE MOUSE (created by YarnWave – Banga Vaicekauskienė) Max the Mouse is an architect and he loves to inspect older houses to see what kind of renovations can be done. The human inhabitants don't always seem to appreciate his visits, but Max doesn't mind. He also checks their food supplies before leaving, just to make sure they have enough cheese.

74 

80

ANTI THE ANTEATER (created by Lemon Yarn Creations - Andreia Ferreira) Anti the Anteater is the sweetest northern tamandua you'll ever meet. Instead of hunting ants for lunch, he meets up with them to chat about the weather and the latest news. It might seem a bit strange, but Anti just wants to be friends with everyone.

CEDRIC THE CRAB (created by Elisa's Crochet – Elisa Sartori) Cedric the Crab wants to make the ocean a peaceful place to live, so he's practicing to be an environmental lawyer. He's got his speeches down pat, and his claws are great for underlining every point he makes. I'm sure he'll be able to make a big difference in his underwater world.

85

89

OLLIE THE CORGI (created by Little Muggles – Amy Lin) Ollie the Corgi is always up for a party! You'll see him wearing his favorite party hat all day long, as there's always a celebration going on somewhere! Ollie loves the Brazilian Carnival most of all, so play some samba music and watch him bust out his dance moves!

BASIC STITCHES

If this is your first time making amigurumi, you might find it useful to have a tutorial at hand. With the stitches explained on the following pages you can make all of the amigurumi in this book. We suggest you practice the basic stitches before you start making one of the designs. This will help you to read the patterns and abbreviations more comfortably, without having to browse back to these pages.

STITCH TUTORIAL VIDEOS

With each stitch explanation we have included a URL and QR code that will take you to our online stitch tutorial video, showing the technique step by step. Simply follow the link or scan the QR code with your smartphone. Phones with iOS will scan the QR code automatically in camera mode. For phones with Android you may need to activate QR code scanning or install a separate QR Reader app.

CHAIN (*abbreviation: ch*)

This stitch is the basis for many crochet patterns. If you're working in rows, your first row will be a series of chain stitches. Use the hook to draw the yarn through the loop (1) and pull the loop until tight (2). Wrap the yarn over the hook from back to front. Pull the hook, carrying the yarn, through the loop already on your hook (3). You have now completed one chain stitch. Repeat these steps as indicated in the pattern to create a foundation chain (4).

SINGLE CROCHET (*abbreviation: sc*)

Single crochet is the stitch that will be most frequently used in this book. Insert the hook into the next stitch (1) and wrap the yarn over the hook. Pull the yarn through the stitch (2). You will see that there are now two loops on the hook. Wrap the yarn over the hook again and pull it through both loops at once (3). You have now completed one single crochet (4). Insert the hook into the next stitch to continue (5).

SLIP STITCH (*abbreviation: slst*)

A slip stitch is used to move across one or more stitches at once or to finish a piece. Insert your hook into the next stitch (1). Wrap the yarn over the hook and draw through both loops at once (2).

HALF DOUBLE CROCHET (*abbreviation: hdc*)

(When starting a new row of half double crochet, work two chain stitches to gain height.) Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through all three loops on the hook (3). You have completed your first half double crochet. To continue, bring your yarn over the hook and insert it in the next stitch (4).

DOUBLE CROCHET (*abbreviation: dc*)

(When starting a new row of double crochet, work three chain stitches to gain height.) Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). You now have two loops on the hook. Wrap the yarn over the hook one last time and pull it through both loops on the hook (4). You have now completed one double crochet. To continue, bring your yarn over the hook and insert it in the next stitch (5).

**TRIPLE CROCHET** (*abbreviation: tr*)

(When starting a new row of triple crochet, work four chain stitches to gain height.)

Bring your yarn over the hook twice before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). Repeat this last step twice (4, 5). You have now completed one triple crochet stitch. To continue, bring your yarn over the hook twice and insert it in the next stitch.

**INCREASE** (*abbreviation: inc*)

To increase you make two single crochet stitches in the next stitch.

**INVISIBLE DECREASE** (*abbreviation: dec*)

The invisible decrease is a method which will make your decrease stitch look much like the other stitches in the row, resulting in a smooth and even crochet fabric.

Insert the hook in the front loop of your first stitch. Now immediately insert your hook in the front loop of the second stitch (1). You now have three loops on your hook. Wrap the yarn over the hook and pull it through the first two loops on your hook (2). Wrap the yarn over again and pull it through the two loops remaining on your hook (3). You have now completed one invisible decrease.

INVISIBLY DECREASE 3 STITCHES**AT ONCE** (abbreviation: *sc3tog*)

Insert the hook under the front loop only of the next three stitches (1). This gives you four loops on the hook (2). Wrap the yarn over the hook and pull it through the first three loops on your hook. Wrap the yarn over the hook again and pull it through the remaining two loops on the hook (3). You have now completed one *sc3tog*.

**CROCHET AROUND A FOUNDATION CHAIN**

Some pieces start with an oval instead of a circle. You make an oval by crocheting around a foundation chain. Crochet a foundation chain with as many chains as mentioned in the pattern. Skip the first chain on the hook (1) and work a sc stitch in the next chain stitch (2, 3). Work your crochet stitches into each chain across as mentioned in the pattern. The last stitch before turning is usually an increase stitch (4). Now, turn your work upside down to work into the underside of the chain stitches. You'll notice that only one loop is available, simply insert your crochet hook in this loop (5). Work your stitches into each chain across. When finished, your last stitch should be next to the first stitch you made (6). You can now continue working in spirals.

MAGIC RING

A magic ring is the ideal way to start crocheting in the round. You start by crocheting over an adjustable loop and finally pull the loop tight when you have finished the required number of stitches. The advantage of this method is that there's no hole left in the middle of your starting round.

Start with the yarn crossed to form a circle (1). Draw up a loop with your hook but don't pull it tight (2). Hold the circle with your index finger and thumb and wrap the working yarn over your middle finger (3). Make one chain stitch by wrapping the yarn over the hook and pulling it through the loop on your hook (4, 5). Now insert your hook into the loop and underneath the tail. Wrap the yarn over the hook and draw up a loop (6). Wrap the yarn over the hook again (7) and pull it through both loops on your hook. You have now completed your first single crochet stitch (8). Continue to crochet (repeating step 6, 7, 8) until you have the required number of stitches as mentioned in the pattern. Now grab the yarn tail and pull to draw the center of the ring tightly closed (9, 10). You can now begin your second round by crocheting into the first single crochet stitch of the magic ring. You can use a stitch marker to remember where you started.

If you don't want to use this technique, you can start each piece using the following technique: ch 2, x sc into the second chain from the hook – where x is the number of sc stitches you would make in your magic ring.

FRONT LOOPS ONLY (*abbreviation: FLO*) **AND BACK LOOPS ONLY** (*abbreviation: BLO*)

When making a crochet stitch, you end up with two loops at the top of the stitch, a front loop towards you (1) and a back loop (2). When asked to crochet FLO or BLO you make the same stitch but leave one loop untouched.

BACK POST OR FRONT POST SINGLE CROCHET (*abbreviation: BPsc, FPsc*)

To make a back post or front post single crochet, insert the hook from right to left around the vertical post of the next stitch according to the picture. Wrap the yarn over the hook and draw up a loop. Finish the single crochet stitch as usual.

SPIKE STITCH

Instead of working into the two loops of the next stitch, work into the corresponding stitch in the round below (1). Wrap the yarn over the hook and pull it through the stitch. You now have two loops on your hook. Wrap the yarn over the hook once more and pull it through both loops on your hook (2). You have now completed one spike stitch.

FRENCH KNOT

The French knot is a sewing stitch. Insert a threaded embroidery needle from the back to the front through the stitch where you want the knot to show. Keep the tip of the needle flat against your crochetwork and wrap the yarn around your needle twice (1). Carefully pull the needle through these loops so that you end up with a double knot. Insert the needle in the crochet stitch next to the knot (2) – not in the same stitch, this will make the knot disappear – and fasten the yarn at the back.

www.stitch.show/frenchknot

INVISIBLE COLOR CHANGE

When you want to switch from one color to the next, you work to within two stitches before a color change. Make the next stitch as usual, but don't pull the final loop through (1). Instead, wrap the new color of yarn around your hook and pull it through the remaining loops (2). To make a neat color change, you can make the first stitch in the new color a slip stitch instead of a single crochet. Don't pull the slip stitch too tight or it will be difficult to crochet into in the next round. Tie the loose tails in a knot and leave them on the inside.

Scan or visit
www.stitch.show/colorchange
 for the video tutorial

FASTENING OFF

When you've finished crocheting, cut the yarn a couple of inches / cm from your last stitch. Pull the yarn through the last loop until it is all the way through (1). You now have a finished knot. Thread the long tail through a tapestry needle and insert your tapestry needle through the back loop of the next stitch (2). This way the finishing knot will remain invisible in your finished piece. You can use this piece of yarn to continue sewing the pieces together.

www.stitch.show/fastenoff

JOINING ALL PARTS

First, pin the parts you want to sew to one another, so you can evaluate the result and adjust if necessary. If possible, use the leftover yarn tail from when you fastened off, or use a new length of the same yarn color of one of the pieces that you want to join.

When the different pieces are open: position the piece on the body and sew all around it, going through the front stitches of both the extremity and the body.

When the opening of the different pieces is sewn closed before attaching them to the body: line up the stitches of one side with the other side and sew through the front loop of one side and the back loop of the other side. Use the same color of yarn as the pieces you want to join together.

Always make sure the pieces are securely attached so that they can't be pulled off. Make small, neat stitches and try to make them show as little as possible.

SKILL LEVEL

easy (★), intermediate (★★), advanced (★★★)
Every pattern is marked with a skill level to indicate how easy they are to make. If this is your first time making amigurumi, it's best to start with an easy pattern and work up to the intermediate and advanced ones.

PATTERN STRUCTURE

All patterns in this book are worked in continuous spirals, not in joined rounds. Crocheting in spirals can be confusing since there's no clear indication of where a new round begins and the previous one ends. To keep track of the rounds, you can mark the end of a round with a stitch marker or safety pin. After crocheting the next round, you should end up right above your stitch marker. Move your stitch marker at the end of each round to keep track of where you are.

At the beginning of each line you will find 'Rnd + a number' to indicate which round you are in. If a round is repeated, you'll read 'Rnd 9 – 12', for example. You then repeat this round four times, crocheting the

stitches in round 9, 10, 11 and 12.

Although we usually crochet in rounds, occasionally it happens that we switch to rows, going back and forth instead of working in continuous spirals. When we switch to rows, it will be indicated with 'Row + a number'.

At the end of each line you will find the number of stitches you should have indicated between square brackets, for example [9]. When in doubt, take a moment to check your stitch count.

When parts of the instructions repeat throughout the round, we place them between rounded brackets, followed by the number of times this part should be worked. We do this to shorten the pattern and make it less cluttered.

AMIGURUMI GALLERY

With each pattern, we have included a URL and QR code that will take you to that character's dedicated online gallery. Share your finished amigurumi, find inspiration in the color and yarn choices of your fellow crocheters and enjoy the fun of crocheting. Simply follow the link or scan the QR code with your mobile phone. Phones with iOS will scan the QR code automatically in camera mode. For phones with Android you may need to activate QR code scanning or install a separate QR Reader app.

BASIC MATERIALS

YARN

For every pattern in this book we've listed the materials used to create that design, including the yarn type used by the designer. Don't feel tied to the choices of yarn weight though: any weight of cotton, acrylic or wool can be used as a substitute, provided you use the right crochet hook accordingly.

The patterns don't give the yarn quantity. The amounts are rather small and will vary according to how loosely or tightly you crochet. You could use some of the remnants from other projects or start with a new ball of yarn. One or two balls per color is usually enough.

CROCHET HOOKS

Not only yarn, but hooks as well come in different sorts and sizes. Bigger hooks make bigger stitches than smaller ones. It is important to match the right hook size with the right weight of yarn. In the table on this page you find the standard hook size recommended for each yarn weight. For amigurumi, however, you generally use a hook two or three sizes smaller than what is recommended for your yarn and in this table. The crochet fabric should be quite tight, without any gaps through which the stuffing can escape. Using a smaller hook makes it easier to achieve this.

Hooks are usually made from aluminum or steel.

Metal hooks tend to slip between the stitches more easily. Preferably choose a crochet hook with a rubber or ergonomic handle.

STITCH MARKER

A stitch marker is a small metal or plastic clip. It's a simple tool to mark your starting point and give you the assurance that you've made the right number of stitches in each round. Mark the last stitch of the round with your stitch marker and move it with each round.

STUFFING

For the filling, polyester fiberfill is advised. You can purchase this at any craft shop. It is inexpensive, washable and non-allergenic. Be careful not to over-stuff your amigurumi as the stuffing might stretch the fabric and show through.

FACIAL FEATURES

For some patterns safety eyes are used. These are widely available in craft shops. Be careful when you apply safety eyes: once you put the washer on, you won't be able to pull it off again, so make sure that the post is where you want it to be, before attaching the washer.

If you're crocheting for children under the age of three, it is advised to embroider the facial features for safety. For embroidery, a tapestry needle with a rounded tip is used.

ASSEMBLY

- Pin and sew the ears on rounds 17-19 of the head,
with an interspace of 10 stitches (picture 10-11).
- Pin and sew rounds 11-18 of the head to the body,
adding more fiberfill to the neck before closing the
seam (picture 12).
- Sew the first 3 rounds of the foot to the leg (pictures
13-14). Position the legs on each side of the body.

The feet should be aligned with the bottom of the body, so that the mouse can stand properly. Use pins to secure the legs in place and use gray yarn to sew around the leg (picture 15).

- Pin and sew the arms to each side of the body, 1 round below the neck seam.
- Pin the tail to the back of the body. The tail should start on round 6 and should help to keep the mouse upright. Adjust the position if necessary and sew it on (picture 16).

WHISKERS

- Take a long strand of gray yarn and a yarn needle. Insert your needle at the bottom of the head and bring it out where you want the whiskers to appear. Pull the yarn through.
- Insert your needle in the exact same place, making a loop of yarn, and run your needle through the head to the other side where you want the whiskers to appear.
- Insert the needle in the exact same place and form another loop. Run through the head to the same place where you started (picture 17).
- You have two loops of yarn where the whiskers should appear. The numbers on the picture show the movements of your needle (picture 18).

- Take 4 strands of silver fingering weight yarn and tie them around the loops (2 threads at each loop). Leave the long yarn ends (picture 19).
- Pull the ends of gray yarn tightly, so that the whiskers are pulled into the head a bit. Knot and weave in the remaining ends of gray yarn (picture 20).
- Cut the whiskers to the desired length.
