15 CUTE AMIGURUMI PATTERNS
BY 12 GREAT DESIGNERS

COMPILED WITH CARE BY
Amigurumipatterns.net

HI!

A few years ago I started collecting amigurumi patterns on my website called *amigurumipatterns.net*. I'm an enthusiast with a heart for the creative. I think some people just deserve to be published, and it shouldn't be that hard for them to draw a publisher's attention. I love showing their work, helping them get the word out about their new designs. It's great following this group of people who all adore making unique softies.

Making a first patternbook has been a dream come true. Encouraged by fans worldwide, I teamed up with a group of

top notch designers to create a selection of the sweetest patterns in amigurumi-land.

A second followed quickly and as fans kept asking when the next book would be available, now a third one has been made.

And I must say the new designs are stunning! At some point you think it really can't get any cuter - but it can! There's an explanation of all the basic stitches and materials to use for each pattern and you'll find lots of pictures of each character from all sides.

Enjoy crocheting!

Joke

BASIC STITCHES

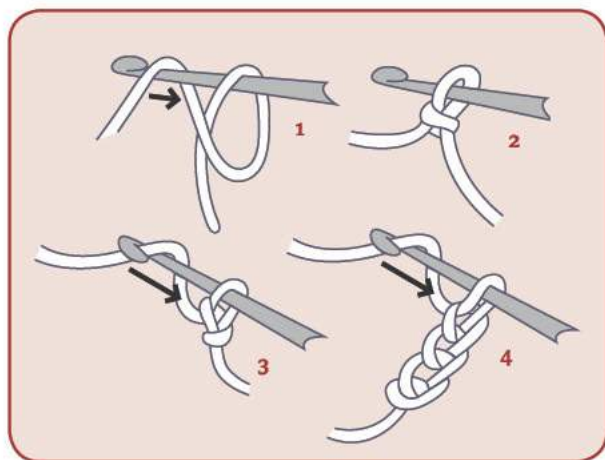

If this is your first time making amigurumi you might find it useful to have a tutorial of the most basic stitches. With the stitches explained here you can make all amigurumi in this book.

I suggest you try them before you start making one of the animals, it will surely help you read the patterns and abbreviations more comfortably without having to browse back to these pages.

CHAIN STITCH (ch)

This stitch is the basis for many crochet patterns. If you're working in rows, your first row will be a series of chain stitches.

Use the hook to draw the yarn through the loop (1) and pull the loop until tight (2). Wrap the yarn over the hook from back to front. Pull the hook, carrying the yarn, through the loop already on your hook (3). You have now completed one *chain stitch*. Repeat these steps as indicated in the pattern to create a foundation chain (4).

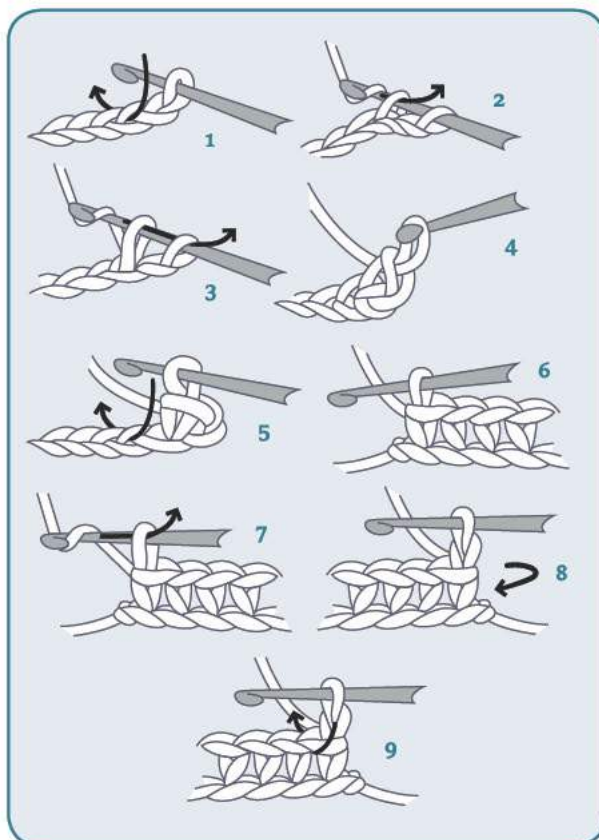

SINGLE CROCHET (sc)

Single crochet is the stitch that will be most frequently used in this book.

Insert the hook into the next chain stitch (1) and wrap the yarn over the hook. Pull the yarn through the stitch (2). You will see that there are now two loops on the hook. Wrap the yarn over the hook again and draw it through both loops at once (3). You have now completed one *single crochet* (4). Insert the hook into the next chain stitch to continue the row (5).

At the end of the row (6) you need to bring the yarn up to the correct height to work the first stitch. Make one chain stitch (ch) (7) and turn the work (8). Start the next single crochet in the first stitch (don't count the turning chain as a stitch). To work into a previous row of crochet, insert your hook under both loops of the first stitch, as shown in the figure (9).

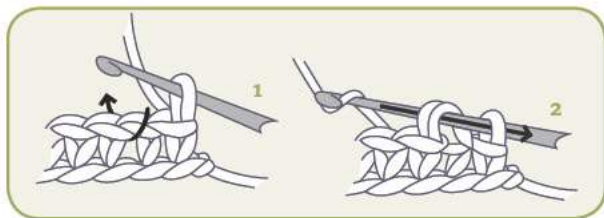

BACK LOOPS ONLY (BLO) & FRONT LOOPS ONLY (FLO)

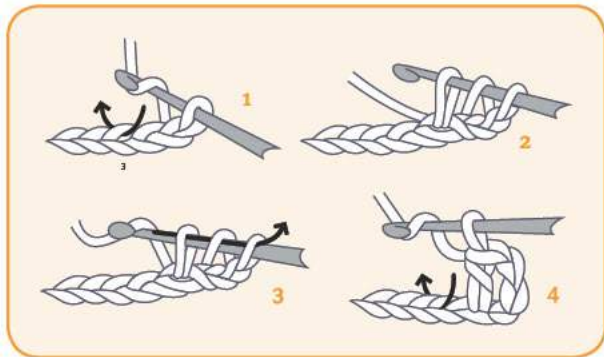

When making a crochet stitch, you end up with two loops at the top of the stitch, a *front loop* (towards you) and a *back loop*. When asked to crochet FLO or BLO you make the same stitch but leave one loop untouched.

SLIP STITCH (slst)

A *slip stitch* is used to move across one or more stitches at once. Insert your hook into the next stitch. Wrap the yarn over the hook and draw through both loops at once.

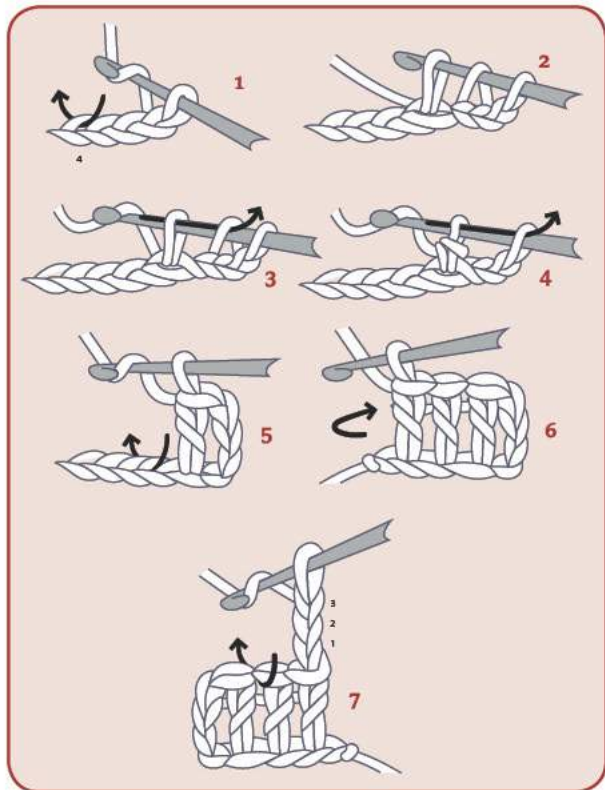

**HALF DOUBLE CROCHET (hdc)**

Bring your yarn over the hook from back to front before placing the hook in the stitch. Now insert your hook in the third chain - without counting the loop on the hook (1). Wrap the yarn over the hook and draw the yarn through the chain stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through all three loops on the hook (3). You have completed your first *half double crochet*. To continue bring your yarn over the hook and insert it in the next chain stitch (4). To start a second row, bring your thread to the correct height by making two chain stitches.

**DOUBLE CROCHET (dc)**

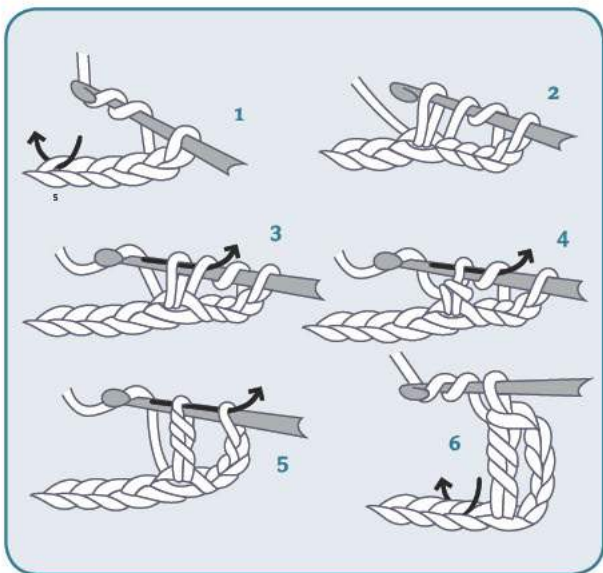

Bring your yarn over the hook from back to front before placing the hook in the stitch. Now insert your hook in the fourth chain - without counting the loop on the hook (1). Wrap the yarn over the hook and draw the yarn through the chain stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). You now have 2 loops on the hook. Wrap the yarn over the hook one last time and draw it through both loops on the hook (4). You have now completed one *double crochet*. To continue bring your yarn over the hook and insert it in the next chain stitch (5).

To start the second row, you turn the work (6). You will need to bring the thread up to the correct height to work the first stitch. To raise the yarn, make three chain stitches. Start the next double crochet in the second stitch. Be sure to insert your hook under both loops of this stitch (7).

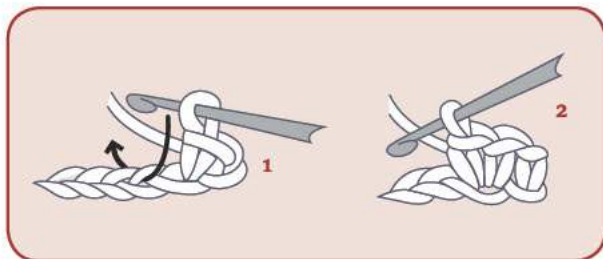

TRIPLE OR TREBLE CROCHET (tr)

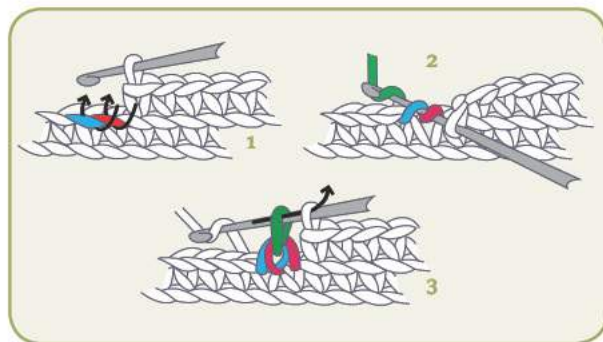

Bring your yarn over the hook twice before you insert it in the fifth chain from the hook (1). Wrap the yarn over the hook and draw the yarn through the chain stitch (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). Repeat this last step twice (4 & 5). You have now completed one *triple crochet*. To start the second row, you turn the work. You will need to bring the thread up to the correct height to work the first stitch. To raise the yarn, make four chain stitches. Start the next triple crochet in the second stitch. Yarn over twice and be sure to insert your hook under both loops of this stitch.

**INCREASE (inc)**

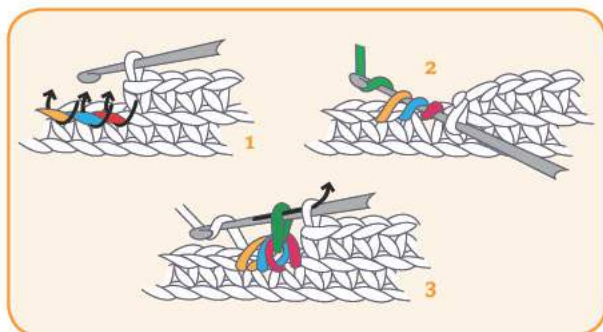

To increase you make two single crochet stitches in the next stitch.

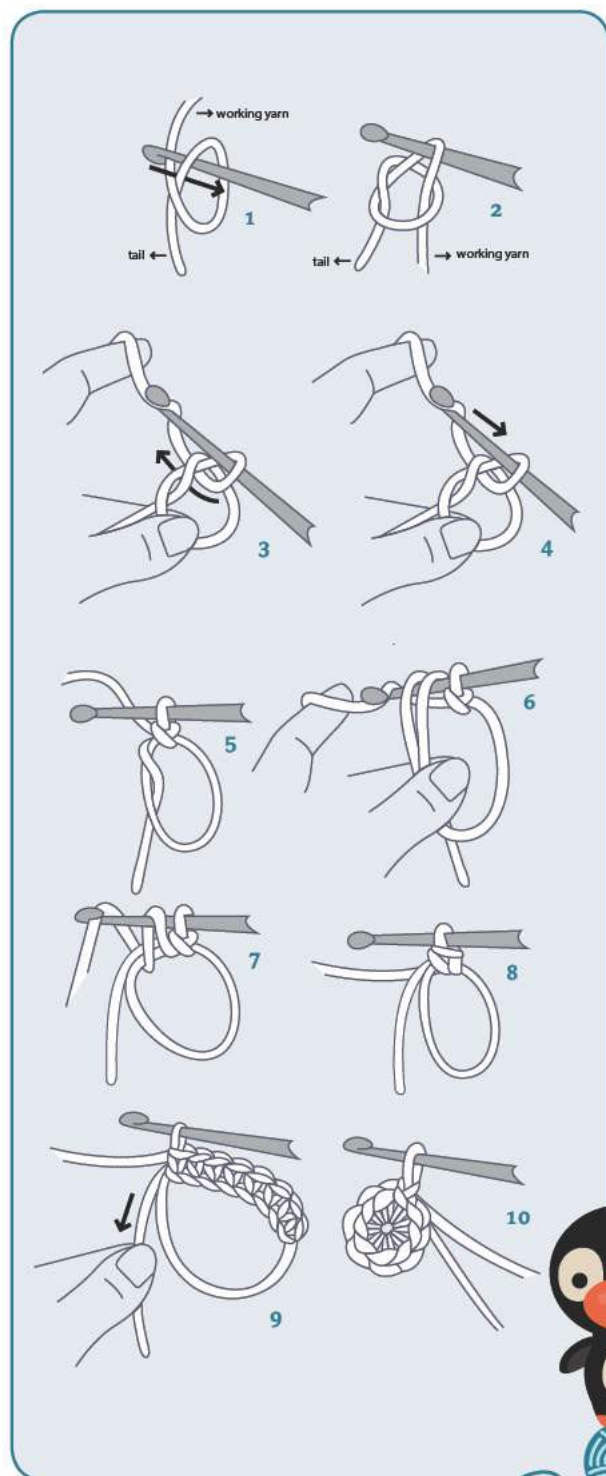

**INVISIBLE DECREASE (dec)**

The standard method of decreasing can leave a small bump or gap. The invisible decrease is an alternative method of decreasing which will make your decrease-stitch look much like the other stitches in the row, so it results in a more smooth and even crochetwork. Insert the hook in the front loop of your first stitch. Now immediately insert your hook in the front loop of the second stitch (1). You now have three loops on your hook. Wrap the yarn over the hook and draw it through the first two loops on your hook (2). Wrap the yarn over again and draw it through the two loops remaining on your hook (4). You have now completed one *invisible decrease*.

**INVISIBLY DECREASE 2 STITCHES AT ONCE (sc3tog)**

Insert the hook under the front loop only of the next three stitches. (1) This gives you four loops on the hook (2). Wrap the yarn over the hook and draw it through the first three loops on your hook. Wrap the yarn over the hook again and pull through the remaining two loops on the hook (3). You have now completed one *sc3tog*.

MAGIC RING

A magic ring is ideal to start crocheting in the round. You start by crocheting over an adjustable loop and in the end pull the loop tight. The advantage of this method is that there's no hole left in the middle of your starting round.

Start with the yarn crossed to form a circle (1). Draw up a loop with your hook but don't pull it tight (2). Hold the circle with your forefinger and thumb, and wrap the working yarn over your index finger (3). Make one chain stitch by wrapping the yarn over the hook and pulling it through the loop on your hook (4). Now insert your hook into the loop and underneath the tail. Wrap the yarn over the hook and draw up a loop (6). Wrap the yarn over the hook again and draw it through both loops on your hook (7). You have now completed your first single crochet (8). Continue to crochet until you have the required number of stitches as mentioned in the pattern.

Now grab the yarn tail and pull to draw the centre of the ring tightly closed.

You can now begin your second round by crocheting into the first stitch of the first round. You can use a stitch marker to remember where you started.

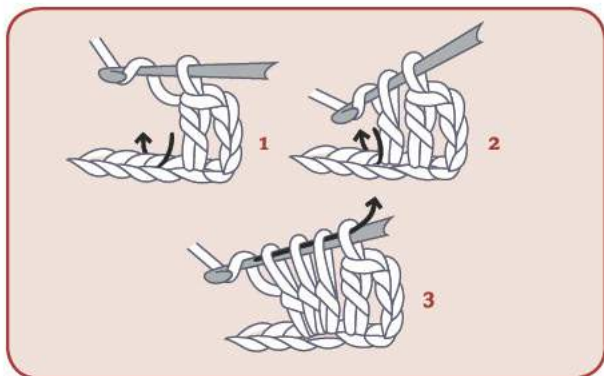

If you do not prefer this technique, you can start each piece using the following technique: ch 2, 6 sc into the second chain from the hook.

BOBBLE STITCH

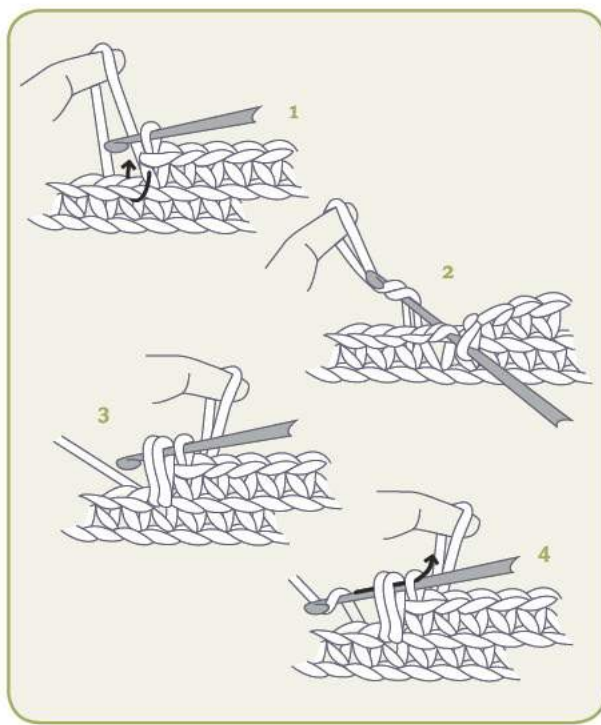

The bobble stitch creates a soft dimensional bobble in your crochetwork. Think of it as a cluster of dc stitches worked in the same stitch.

Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook. Wrap the yarn over the hook again and pull it through the first two loops on the hook. One half-closed double crochet is complete, and 2 loops remain on the hook (2). In the same stitch, repeat the preceding steps twice. You should have 4 loops on your hook. Wrap the yarn over your hook and draw the yarn through all 4 loops on the hook (3). One *3-dc-bobble-stitch* is complete. Create a bobble stitch with as many dc stitches as indicated in the pattern.

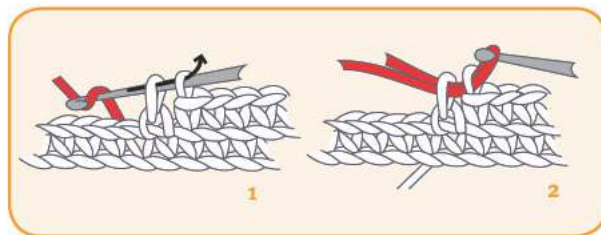

**LOOP STITCH**

Loop 1: Wrap a loop of yarn around your index finger (1). Insert your hook in the next stitch, grab both strands of the loop and draw them through the stitch (2). Make sure you draw this loop out to approx. 1.5" / 4 cm. You now have 3 loops on your hook (3). Now wrap your yarn around your hook and draw it through all 3 loops on your hook (4).

Loop 2: Make 2 loops as described above in the next stitch.

**INVISIBLE COLOR CHANGE**

When you want to switch from one color to the next, you work to within two stitches before a color change. Make the next stitch as usual, but don't pull the final loop through (1). Instead, wrap the new color of yarn around your hook and pull it through the remaining loops (2). To make a neat color change, you can make the first stitch in the new color a slip stitch instead of a single crochet. Don't pull the slip stitch too tight or it will be difficult to crochet into in the next round. Tie a knot to the loose tails and leave them on the inside.

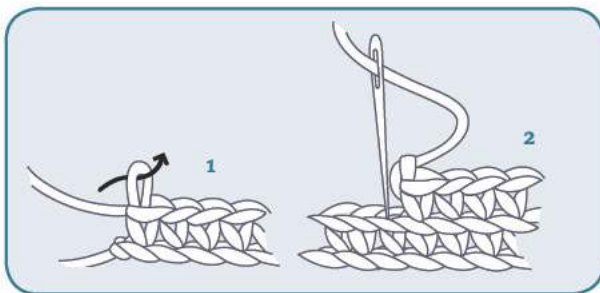

FASTENING OFF AND JOINING ALL PARTS

When you're done crocheting, cut the yarn a couple of inches / cm from your last stitch. Pull the yarn through the last loop until it is all the way through (1). You now have a finished knot.

Thread the long tail through a tapestry needle and insert your tapestry needle through the back loop of the next stitch (2). This way the finishing knot will remain invisible in your finished piece. You can use this piece of yarn to continue sewing the body pieces together. Always make sure pieces are securely attached so that they can't be pulled off. Make small, neat stitches and try to make them show as little as possible. Some designers leave the extremities open for sewing onto the body, others sew them closed.

When open: Position the piece on the body and sew all around it, going through the front stitches of both the extremity and the body.

When the opening of the extremities is sewn closed before attaching it to the body, you line up the stitches of one side with the other side and sew through the front loop of one side and the back loop of the other side. Use the same color of yarn as one of the pieces you want to join together.

**WORKING IN SPIRALS**

All patterns in this book are worked in continuous spirals, not in joined rounds. Crocheting in spirals can be confusing since there's no clear indication of where a new round begins and the previous one ends. To keep track of the rounds, you can mark the end of a round with a stitch marker or safety pin. After crocheting the next round, you should end up right above your stitch marker. Move your stitch marker at the end of each round to keep track of where you are.

PATTERN STRUCTURE

At the beginning of each line of the pattern you find 'Rnd' + a number to indicate which round you are in.

Although we usually crochet in rounds, occasionally it happens that we switch to rows. When we switch to rows, it will be indicated with 'Row' + a number.

At the end of each line you will find the number of stitches you should have in brackets, for example [9]. When in doubt, count your stitches for a moment.

Abbreviations are used throughout the book. You can find the explanation on the previous pages.

Sometimes we use a more condense way of writing. When reading "inc in st 5, 7, 13", you make a single crochet in all stitches except for stitch 5, 7 and 13 where you increase.

SKILL LEVEL

easy () intermediate (**) experienced (***)*

Every pattern is marked with a skill level to indicate how easy they are to make. Start with an easy pattern and work up to the intermediate and experienced ones.

BASIC MATERIAL

YARN

With every pattern in this book we list the materials used to created that amigurumi, including the specific yarn that is used. But don't feel tied to the yarn choices, other types of cotton, acrylic or wool can be used as a substitute.

Yarn comes in different thicknesses. The yarn thick-ness is specified with every pattern. Much of what you need to know is on the yarn label, but it might take a little bit of decoding. Below we add a chart that can help you make the right choice.

The patterns don't give the yarn quantity. The amounts are rather small and will vary according to how loosely or tightly you crochet. You could use some of the remnants from other projects or start with a new ball of yarn.

CROCHET HOOKS

Not only yarn, but hooks as well come in different sorts and sizes. Bigger hooks make bigger stitches than smaller ones. It is important to match the right hook with the right type of yarn. The size of hook used is indicated with every pattern, or can be consulted in the chart below.

The crochetwork should be quite tight, without any gaps through which stuffing can escape. You best use a

smaller hook than stated on the yarn label to achieve this.

Hooks are usually made from aluminium or steel. Metal hooks tend to slip between the stitches more easily. For projects that require very thick yarn, a wooden hook might be a comfortable alternative.

STITCH MARKER

A stitch marker is a small clip in metal or plastic. It's a simple tool to mark your starting point and give you the assurance that you've made the right number of stitches in each round. With my stitch marker I always mark the last stitch of the previous round.

STUFFING/FACE FEATURES

For the filling polyester fiberfill is advised. You can purchase this at any yarn shop. It is inexpensive, washable and non-allergenic. Be careful not to overstuff your animal. Stuffing might stretch the fabric and show through.

For some patterns safety eyes are used. These are widely available. Be alert when you apply safety eyes: once you put the washer on you won't be able to pull it off again. So you best make sure the post is where you want it before attaching the washer.

Alternatively, the features can be embroidered, which is recommended if you're crocheting for children under the age of three. For embroidery a tapestry needle with a rounded tip is used.

Sew the top center of each leg to the body at one point only. Go back and forth through the button, the leg and the body, pulling the thread tightly each time.

ASSEMBLY

- Position the ears to the head and sew them on.
- Line up the fawn's head with its body and use your thin knitting needle to skewer the two pieces together. This makes it easier to hold and maneuver the head and body as you sew them together. Sew the head to the body until the head and body feel secure. Weave in the yarn ends.
- Place the legs on either side of the fawn's body. Using your upholstery thread and long doll needle, sew the top center of each leg to the body at one point only. Go back and forth through the leg and the body, pulling tightly each time. The legs should feel secure, but still movable.
- Repeat the same method for sewing on the arms.
- Pin the tail to the back of the fawn's body and sew it on.

Toe Shaping *(in orange yarn)*

You will be sewing with a needle in between rounds 5 and 6 of the foot, making five stitches to create three toes. Make your first stitch a third of the way across the foot (3 stitches from the end), stitching into the foot from the front and exiting straight through the back. Stitch again in the same place, looping the yarn horizontally, around the side of the foot. Pull the yarn tightly and repeat. Then stitch again in the same place, but this time loop the yarn vertically, around the top of the foot, to create the first toe. Pull the thread tightly and repeat. Now make a stitch across the middle third of the foot horizontally and repeat these two stitches on the last third of the foot (5 stitches from your first stitch), so that you are making a toe on the opposite side to the first one. Stitch around the horizontal middle stitch repeatedly, pulling the yarn tight as you go, to finish the middle toe. Fasten off.

ASSEMBLY

- Stuff the head firmly.
- Attach the safety eyes through round 1 of the eye patches, at the place marked earlier with a stitch marker. This will put the eye slightly closer to one corner of the triangle shaped eye patch and this corner needs to be closest to the middle of the head (where the beak will be) when you sew the patch to the head. Position the eye patches on the head with the back of the eye posts resting between rounds 10 and 11 of the head, 9 stitches apart. Stitch the eye patches on firmly. Sew the eyelids on, making sure the round side of the eyelids curves around the eyes.
- Stuff the beak and squash into a horizontal oval shape, align the top of the beak to rest on round 11 of the head and stitch on firmly.
- Stuff the body firmly, and stitch it to the head along the neck edges.
- Do not stuff the wings, stitch them to either side of the body at the neckline, with the curved side facing backwards.
- Place the belly patch with the bottom edge resting on round 6 of the body and stitch on firmly.
- Stuff the tail and squash it into a horizontal oval shape then sew to the lower half of the back.
- Sit your penguin on a flat surface and pin the feet to the front of the body, placing them so that the toes slightly face out and your penguin can sit up and balance by itself. Stitch the feet firmly to the front of the body. Weave in any loose ends.

ASSEMBLY

- Sew the beak to the face in between rounds 12 and 16, curving the top of the beak down to form the shaping.
- Place the raincoat hood on the back of the duckling's head and adjust it to your liking. The hood should fit snugly around the head. Pin the hood onto the head so it is secure. Thread the leftover tail from the hood onto a long doll needle and stitch the hood to the head. Weave in the yarn ends.

- Line up the duckling's head with its body and use your thin knitting needle to skewer the two pieces together. This makes it a bit easier to hold and maneuver the head and body as you sew them together.
- Sew the head to the body using the yarn tail left over from the body, until the head and body feel secure. Weave in the yarn ends.
- Place the legs on either side of the duckling's body. Using your upholstery thread and long doll needle, sew through the legs and the duckling's body at one point only. Go back and forth as many times as needed, pulling tightly on the thread as you go.
- Repeat the same method for sewing on the duckling's wings.
- Pin the tail to the back of the duck's body and sew it on with the leftover yarn tail.

Rnd 14: (sc in next 4 st, dec) repeat 6 times [30]

Fasten off, leaving a long tail for sewing (24" / 60 cm)

The finished "exterior head" looks like a fluffy bowl and when you put the gray head in, it should fit quite snugly, with no loose gaps anywhere. Once the face is positioned to your liking, take the long leftover fuzzy white yarn and sew it around the entire circumference of the opening, making sure that your needle pushes through to the gray yarn. Make your stitches approximately 1/2" / 1,5 cm in from the edge. Because of the fuzziness of the yarn, the stitches should not show.

EAR (make two in pale gray yarn)

Rnd 1: start 6 sc in a magic ring [6]

Rnd 11: (sc in next 2 st, dec) repeat 6 times [18]

Rnd 12 – 14: sc in all 18 st [18]

Fasten off, leaving a long tail for sewing. Flatten the ear and sew the opening shut. Then fold the closed opening in half and sew the edges together. Attach both ears to the head. Make sure to poke your needle down far enough to be sewing it to the gray head and not just the fuzzy white yarn.

BODY (in fluffy white yarn with size K / 6,5 mm hook)

Even with the slightly looser stitch due to the large hook size, the fuzziness of the yarn will camouflage

the stuffing that would otherwise show through. If your holes are big enough to obviously see the stuffing, you need to make slightly tighter stitches.

TAIL (in light green yarn)

Ch 3.

Rnd 1: sc in second ch from hook, hdc [2]

Fasten off, leaving a tail for sewing.

ASSEMBLY – SHELL

– Take Shell A and one of the Shell B pieces. Line up the short end of B with one of the sides of A. Using the large sewing needle and about 18" / 50 cm of yellow yarn, start with the corner stitches of both pieces and whip stitch them together. When you've reached the end, take another Shell B piece, line it up with the next corner, and continue on. Repeat all the way around, keeping the tension of the sewing yarn snug but not too tight. (fig. 1)

– Next, still using yellow yarn and starting in the top corners, whip stitch the sides of the Shell B pieces together. Repeat for each side. (fig. 2)

– Take Shell Piece C and, using yellow yarn, whip stitch it to the edge of the shell. (fig. 3)

fig. 2

fig. 1

fig. 3

fig. 4

fig. 6

fig. 5

fig. 7

– Turn the shell wrong side up and, using crochet hook size B / 2,5 mm and dark green yarn, sc all along the inside seam created by Shell Piece C. This is what the head and belly will be sewn into. (fig. 4)

– Turn the shell right side up and, using yellow yarn, blanket stitch along the edge of the shell. (fig.5)

ASSEMBLY – HEAD

– Taking the tail that was left on Head A, thread the yarn through the bottom left corner stitch on Head B. Sew nearly all the way around, stopping at the bottom right corner of Head B. Do not tie off the yarn.

– Use pins to mark the eye placement. The eyes will go between rounds 7 and 8 on the head, about 11 stitches apart. With the large sewing needle and yarn B, sew back and forth through the head at the marked

stitches. (fig. 6) Pull the stitches tight to create a dimpled effect. After two or three passes, tie off the yarn. Insert the eyes and stuff the head.

– To attach the head to the shell, turn the shell over to see the sc edging along the inside. Find the sc in the center of one of the Shell B pieces and count over four stitches, clockwise. This is where to start sewing the head. Take the head and, using the yarn tail from before, whip stitch Head A to the shell. Tie off the yarn. (fig. 7)

ASSEMBLY – BODY

– Take the Belly and, using the leftover tail, begin sewing it to the shell. When the head is reached, whip stitch along the edge of Head B. (fig. 8) Resume sewing into the shell. Whip stitch about three-quarters of the

fig. 8

fig. 10

way around, then stop to stuff. Add enough to make the turtle nice and plump. When satisfied, whip stitch the rest of the way around and tie off the yarn.

- Stuff the legs, being careful not to overstuff. Take one leg and place it halfway between the side seams of the shell, with the hdc side facing out. Using the leftover tail, sew the leg to the body. Once the leg is sewn in place, sew the side of the leg closest to the belly to the belly itself. (fig. 9) Repeat stitch several times, pulling each one tight. This keeps the leg pointing downwards. Tie off the yarn. Repeat for the other three legs.

ASSEMBLY – FINISHING TOUCHES

- To keep the edge of the shell from sticking up, sew the edge of the shell to the sides of the legs. (fig. 10) Next, sew

the edge of the shell to the back of the turtle's head. Then sew the edge of the shell to the side of the shell. (fig. 11) This keeps the turtle from looking down all the time.

- Lastly, take the tail and sew it halfway between the back legs, along the belly/shell seam.
- As a final optional touch, take the large sewing needle and red yarn and chain stitch two red lines along the side of the head.
