Joke

In this book you will find

ALICIA THE ALPACA *(Created by Moji-Moji Design - Janine Holmes)* Alicia loves to carry your shopping in her panniers. She prides herself on her luxuriantly soft fleece, but when the weather gets too hot she's happy to be sheared so you can crochet something beautiful with it.

16

20 **BURTON AND BERTIE THE BIRDS** *(Created by Ildikko)* Burton and Bertie are a frolicsome duo. Though physically they appear very similar, they have very different characters. While Burton likes silence, Bertie chirps like crazy.

SNUGGLES THE BUNNY *(Created by Lisa Jestes Designs)* Snuggles loves nothing more than to crawl onto his mom and dad's laps. His brothers and sisters tease him sometimes, but he does not care. There's plenty of time to grow up!

28

31 **MAURY THE CAT** *(Created by Kristi Tullus)* Maury is a quiet cat who loves long walks through the forest to spot the most beautiful birds. To admire them, of course! It's odd that the birds are spooked when he walks past.

CHLOE THE COW *(Created by Patchwork Moose - Kate E. Hancock)* Chloe loves rolling in the grass. When mom turns her back to socialize with her friends, Chloe splashes through the mud again.

37

42 **KAMIEL THE CAMEL** *(Created by Woolytoons)* Kamiel is the biggest prankster of the desert. Armed with a banana peel he loves playing jokes on his friends.

REGGIE THE MOUSE *(Created by Lisa Jestes Designs)* Reggie is small, but faster than light. Running is his passion and he always wears his orange jacket. Everyone sees him coming from miles away and so nothing stands in his way when he whizzes by.

45

CATERINO THE WALRUS *(Created by Airali Design)* Caterino has seen the world. His nephews are eager to hear his stories when he returns home from a long voyage. He makes them dream of pirates, mermaids and treasure islands.

54

LEOPOLD THE PEACOCK *(Created by PicaPau)* Unlike most peacocks, Leopold does not care much for his beautiful appearance. His feathers always look a bit scruffy after a day of frolicking in the fields. Fortunately Leopold isn't averse to a bit of soap.

SCOUT THE PUPPY *(Created by Little Muggles)* Scout was a present, hence his big red bow. He's very proud of it and he never takes it off. Scout is a faithful puppy, he always takes his owner with him on a walk.

64

RUBY THE RHINO *(Created by Auroragurumi)* Ruby is a bundle of energy. 'Sit still' is not in her vocabulary. Her favorite activities are rope skipping and ballet dancing. Not the easiest hobbies for a rhino.

KAAN THE CROCODILE *(Created by One and Two Company)* Kaan is a little crocodile, but no less tough. Before mom wakes up, he goes out sunbathing all on his own. Luckily mommy is never angry. On his return she always gets a delicious breakfast in bed.

68

74

THEODORE THE TEDDY *(Created by Little Aqua Girl)* Theodore may not be a polar bear, but he would be only too happy to live in the Arctic. What could be more fun than throwing snowballs and making snow bears all day?

BETTY THE FLAMINGO *(Created by Irene Strange)* Naturally flamboyant Betty travels the world with her flock of fluffy flamingo friends, look out for a blur of pink dashing across the skyline! Betty enjoys the view from the top!

77

BARRY THE TROUT *(Created by Irene Strange)* Barry the trout is quite a catch! He spends his morning hours in front of the mirror. With his big eyes and impeccable taste, he is by far the prettiest fish in the sea.

BASIC STITCHES

If this is your first time making amigurumi you might find it useful to have a tutorial at hand. With the stitches explained in the next pages you can make all of the amigurumi in this book. I suggest you practice the basic stitches before you start making one of the designs. This will help you to read the patterns and abbreviations more comfortably without having to browse back to these pages.

CHAIN (abbreviation: *ch*)

This stitch is the basis for many crochet patterns. If you're working in rows, you start with a series of chain stitches. Use the hook to draw the yarn through the loop (1) and pull the loop until tight (2). Wrap the yarn over the hook from back to front. Pull the hook, carrying the yarn, through the loop already on your hook (3). You have now completed one *chain* stitch. Repeat step (3) as many times as indicated in the pattern to create a foundation chain (4).

SINGLE CROCHET (abbreviation: *sc*)

Single crochet is the stitch that will be most frequently used in this book. Insert the hook into the next chain stitch (1) and wrap the yarn over the hook. Pull the yarn through the stitch (2). You will see that there are now two loops on the hook. Wrap the yarn over the hook again and draw it through both loops at once (3). You have now completed one *single crochet* (4). Insert the hook into the next chain stitch to continue (5).

SLIP STITCH (abbreviation: *slst*)

A slip stitch is used to move across one or more stitches at once or to finish a piece. Insert your hook into the next stitch (1). Wrap the yarn over the hook and draw through both loops at once (2). You have now completed one *slip stitch*.

**DOUBLE CROCHET** (*abbreviation: dc*)

Bring your yarn over the hook from back to front before placing the hook in the stitch. Now insert your hook in the fourth chain – without counting the loop on the hook (1). Wrap the yarn over the hook and draw the yarn through the chain stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). You now have 2 loops on the hook. Wrap the yarn over the hook one last time and draw it through both loops on the hook (4). You have now completed one *double crochet*. To continue bring your yarn over the hook and insert it in the next stitch (5).

**HALF DOUBLE CROCHET** (*abbreviation: hdc*)

Bring your yarn over the hook from back to front before placing the hook in the stitch. Now insert your hook in the third chain – without counting the loop on the hook (1). Wrap the yarn over the hook and draw the yarn through the chain stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through all three loops on the hook (3). You have completed your first *half double crochet*. To continue bring your yarn over the hook and insert it in the next stitch (4).

**TRIPLE OR TREBLE CROCHET** (*abbreviation: tr*)

Bring your yarn over the hook twice before you insert it in the fifth chain from the hook (1). Wrap the yarn over the hook and draw the yarn through the chain stitch (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). Repeat this last step twice (4 & 5). You have now completed one *triple crochet*. Start the next triple crochet in the second stitch. Yarn over twice insert your hook in the next stitch (6).

INCREASE (*abbreviation: inc*)

To increase you make two single crochet stitches in the next stitch.

INVISIBLE DECREASE (*abbreviation: dec*)

The standard method of decreasing can leave a small bump or gap. The invisible decrease is an alternative method of decreasing which will make your decrease stitch look much like the other stitches in the row, resulting in a smoother and more even crochet fabric. Insert the hook in the front loop of your first stitch. Now immediately insert your hook in the front loop of the second stitch (1). You now have three loops on your hook. Wrap the yarn over the hook and draw it through the first two loops on your hook (2). Wrap the yarn over again and draw it through the two loops remaining on your hook (3). You have now completed one *invisible decrease*.

FRONT LOOPS ONLY (*abbreviation: FLO*)**AND BACK LOOPS ONLY** (*abbreviation: BLO*)

When making a crochet stitch, you end up with two loops at the top of the stitch, a front loop towards you (1) and a back loop (2). When asked to crochet FLO or BLO you make the same stitch but leave one loop untouched.

STARTING AN OVAL WITH A CHAIN

When crocheting an oval, you start with a foundation chain and crochet around it. Crochet a foundation chain with as many chains as instructed in the pattern. Start in the second chain from your hook (1) and work a single crochet stitch in this chain stitch (2, 3). Work your crochet stitches into each chain across as instructed in the pattern. The last stitch before turning usually is an increase stitch (4). Now, turn your work upside down to work into the underside of the chain stitches. You'll notice that only one loop is available, simply insert your crochet hook in this loop (5). Work your stitches into each chain across. When finished, your last stitch should be next to the first stitch you made (6). You can now continue working in spirals or turned rounds.

Magic ring

MAGIC RING

A magic ring is the ideal way to start crocheting in the round. You start by crocheting over an adjustable loop and finally pull the loop tight when you have finished the required number of stitches. The advantage of this method is that there's no hole left in the middle of your starting round.

Start with the yarn crossed to form a circle (1). Draw up a loop with your hook but don't pull it tight (2). Hold the circle with your index finger and thumb, and wrap the working yarn over your middle finger (3). Make one chain stitch by wrapping the yarn over the hook and pulling it through the loop on your hook (4). Now insert your hook into the loop and underneath the tail. Wrap the yarn over the hook and draw up a loop (6). Wrap the yarn over the hook again and draw it through both loops on your hook (7). You have now completed your first single crochet (8). Continue making single crochet stitches until you have the required number of stitches as mentioned in the pattern. Now grab the yarn tail and pull to draw the centre of the ring tightly closed (9).

You can now begin your second round by crocheting into the first stitch of the first round. You can use a stitch marker to remember where you started.

If you do not prefer this technique, you can start each piece using the following technique: ch 2, x sc into the second chain from the hook - where x is the number of sc stitches you would make in your magic ring.

BOBBLE STITCH

The bobble stitch creates a soft dimensional bobble in your crochetwork. Think of it as a cluster of dc stitches worked in the same stitch. Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook. Wrap the yarn over the hook again and pull it through the first two loops on the hook. One half-closed double crochet is complete, and two loops remain on the hook (2). In the same stitch, repeat the preceding steps twice. You should have four loops on your hook. Wrap the yarn over your hook and draw the yarn through all four loops on the hook (3). One *3-dc-bobble-stitch* is complete. Create a bobble stitch with as many dc stitches as indicated in the pattern.

PUFF STITCH

The puff stitch resembles the bobble stitch, but instead of half-finished double crochet stitches, the puff stitch is made with half-finished half double crochet stitches. Wrap the yarn over the hook from back to front (1). Insert your hook into the next stitch, wrap the yarn over your hook and pull up a loop. Make sure you pull the loops upward and your hook is parallel with the bottom row, that way you get the height of a double crochet stitch. You now have three loops on your hook. Wrap the yarn over your hook once more. Now insert the hook into the same stitch you inserted it into last time (2). Wrap the yarn over your hook and pull up a loop. You should have five loops on the hook. Repeat this last step once more. You should have seven loops on the hook. Wrap the yarn over the hook, then pull it through all seven loops that are on the hook (3). You have now completed one *puff stitch*. You can make one chain stitch to neatly finish off the puff stitch.

POPCORN STITCH

Work four dc in the next stitch. Remove your hook from the loop. Insert your hook in the first dc stitch. Put the loop back on your hook and pull it through the stitch (1). You have now completed one *popcorn stitch* (2).

SURFACE SLIP STITCH

The surface slip stitch is an embellishment of slip stitches worked on top of the fabric of your crochet work. Insert your hook from the right side through to the wrong side where you want your line of slip stitches to start, now wrap the yarn over the hook and draw it through the stitch (1). Insert your hook in the next stitch, wrap the yarn over your hook (2) and pull it through the stitch and the loop on your hook. This is the start of your line of surface slip stitches. Repeat this to the end of your crochet work or in any shape you like (3).

FRENCH KNOT

The French knot is a sewing stitch. Insert a threaded embroidery needle from the back to the front through the stitch where you want the knot to show. Keep the tip of the needle flat against your crochetwork and wrap the yarn around your needle twice (1). Carefully pull the needle through these loops so that you end up with a double knot. Insert the needle in the crochet stitch next to the knot – not in the same stitch, as this will make the knot disappear (2) and fasten at the back.

INVISIBLE COLOR CHANGE

When you want to switch from one color to the next, you work to within two stitches before a color change. Make the next stitch as usual, but don't pull the final loop through (1). Instead, wrap the new color of yarn around your hook and pull it through the remaining loops (2). To make a neat color change, you can make the first stitch in the new color a slip stitch instead of a single crochet. Don't pull the slip stitch too tight or it will be difficult to crochet into in the next round. Tie the loose tails in a knot and leave them on the inside.

FASTENING OFF

When you've finished crocheting, cut the yarn a couple of inches / cm from your last stitch. Pull the yarn through the last loop until it is all the way through (1). You now have a finished knot. Thread the long tail through a tapestry needle and insert your tapestry needle through the back loop of the next stitch (2). This way the finishing knot will remain invisible in your finished piece. You can use this piece of yarn to continue sewing the body pieces together.

JOINING ALL PARTS

First, pin together the parts that you want to sew to one another, so you can evaluate the results and adjust if necessary. If possible use the leftover yarn tail from where you fastened off or use a new length of the same yarn color from one of the pieces that you want to join.

When the different pieces are open: position the piece on the body and sew all around it, going through the front stitches of both the extremity and the body.

When the opening of the different pieces is sewn closed before attaching it to the body, you line up the stitches of one side with the other side and sew through the front loop of one side and the back loop of the other side. Use the same color of yarn as the piece you want to join together.

Always make sure pieces are securely attached so that they can't be pulled off. Make small, neat stitches and try to make them show as little as possible.

WORKING WITH SPECIAL YARN

DECREASING WITH FURRY AND FLUFFY YARN

The invisible decrease method, most commonly used for making amigurumi, might not be the easiest method when working with furry or fluffy yarns where individual loops are more difficult to see. Instead you can decrease with this method: Insert your hook into the next stitch, wrap yarn around your hook and draw up a loop. Insert hook into next stitch, wrap the yarn around your hook and draw up a second loop. You now have three loops on your hook. Wrap yarn around the hook one last time and draw through all three loops on the hook.

MAGIC RING WITH FURRY AND FLUFFY YARN

If you have trouble making a magic ring in furry or fluffy yarns, you can start each piece using this technique: ch 2, 6 sc into the second chain from the hook.

SKILL LEVEL

easy (*), intermediate (* *), advanced (* * *)

Every pattern is marked with a skill level to indicate how easy they are to make. If this is your first time making amigurumi, it's best to start with an easy pattern and work up to the intermediate and advanced ones.

PATTERN STRUCTURE

All patterns in this book are worked in continuous spirals, not in joined rounds. Crocheting in spirals can be confusing since there's no clear indication of where a new round begins and the previous one ends. To keep track of the rounds, you can mark the end of a round with a stitch marker or safety pin. After crocheting the next round, you should end up right above your stitch marker. Move your stitch marker at the end of each round to keep track of where you are.

At the beginning of each line of the pattern you will find 'Rnd + a number' to indicate which round you are on. Although we usually crochet in rounds, occasionally it happens that we switch to rows. When we switch to rows, it will be indicated with 'Row + a number'.

At the end of each line you will find the number of stitches you should have in square brackets, for example [9]. When in doubt take a moment to check your stitch count.

Abbreviations are used throughout the book. You can find their explanations on the previous pages.

When part of the instructions repeat throughout the round, we place it between rounded brackets followed by the number of times it should be repeated. We do this to shorten the pattern and make it less cluttered.

BASIC MATERIALS

YARN

With every pattern in this book we list the materials used to create that design, including the yarn thickness used by the designer. Don't feel tied to the choices of yarn thickness though, any weight of cotton, acrylic or wool can be used as a substitute, provided you use the right crochet hook accordingly.

The patterns don't state the yarn quantity needed. The amounts are rather small and will vary according to how loosely or tightly you crochet. You could use some of the remnants from other projects or start with a new ball of yarn. One or two balls of a color is usually enough.

CROCHET HOOKS

Not only yarn, but hooks as well come in different sorts and sizes. Bigger hooks make bigger stitches than smaller ones. It is important to match the right hook size with the right weight of yarn. In the table below you will find the standard hook size recommended for each yarn weight. For amigurumi, however, you generally use a hook two or three sizes smaller than what is recommended for your yarn. The crochet fabric should be quite tight, without any gaps through which the stuffing can escape. Using a smaller hook makes it easier to achieve this.

Hooks are usually made from aluminum or steel. Metal hooks tend to slip between the stitches more easily. Preferably choose a crochet hook with a rubber or ergonomic handle.

STITCH MARKER

A stitch marker is a small clip made of metal or plastic. It's a simple tool to mark your starting point and give you the assurance that you've made the right number of stitches in each round. With your stitch marker you mark the last stitch of the previous round.

STUFFING/FACIAL FEATURES

For the filling polyester fiberfill is advised. You can purchase this at any craft shop. It is inexpensive, washable and non-allergenic. Be careful not to over-stuff your amigurumi as the stuffing might stretch the fabric and show through.

For some patterns safety eyes are used. These are widely available. Be alert when you apply safety eyes: once you put the washer on you won't be able to pull it off again. So be very careful that the post is where you want it to be before attaching the washer.

Alternatively, the features can be embroidered, which is recommended if you're crocheting for children under the age of three. For embroidery a tapestry needle with a rounded tip is used.

Use one of the dark pink yarn tails to oversew the first edge together (fig.2), fasten off in a knot at the bottom of the pocket and leave the yarn ends dangling. Repeat on the other side. When the pocket is sewed up, knot the multi-colored yarn ends together in pairs at the top of the pocket (fig.3). Use your yarn needle to weave the ends down the inside of the pocket, coming out at the bottom edge and leaving the yarn ends dangling (fig.4). Trim ends to approximately 1" / 2 cm. Repeat on the other side of the blanket.

Neck ties: (fig. 5) Join dark pink yarn in the third stitch from the top of one of the pocket edges (a) and ch 35. Repeat on the other side (b). Weave in the yarn ends closest to the blanket. Pull on each of the other two yarn ends tightly and trim short. Tie both neck ties together in a bow at the front of the neck.

POMPOM TAIL (in brown yarn)

- Cut approx. 10" / 25 cm long piece of yarn and set aside.
- Wrap the yarn around your 2 fingers approx. 60 times.
- Carefully slide the yarn off your fingers and tie it tightly around the center with the 10" piece you set aside, leaving the ends long.
- With scissors, cut through the loops on both sides. Fluff out the pompom, cut and trim until you reach the desired size and it looks fluffy and round.
- Attach the pompom to the lower back of the bunny using the yarn ends.

EYES

- Cut a long strand of black yarn.
- Insert your yarn needle into the back of the bunny's head. Bring the needle out between rounds 9 and 10 (fig. 1). Leave a short strand hanging out of the back of the head for securing later.
- Move the needle up about 3 rounds, bringing it back out where you began at round 9-10 (fig. 2). Keep embroidering over the 3 rounds until the eyes are as big as you like.
- When the right eye is finished, insert the needle one more time, bringing it out on the opposite side of the face where the left eye will begin. Pull very tight to

indent the eyes, and give the appearance of cheeks. You may need to pinch the nose so that you can keep it pulled tight until you get the first couple of stitches completed (fig. 3).

- Repeat the same process as for the first eye.
- When finished, run the needle back through the head, bringing it out of the same hole where you left the short strand. Tie the ends in a knot (fig. 4), trim and stuff the knot into the head to hide it.

NOSE

The nose is done in the same manner as the eyes, using pink yarn, and inserting the yarn needle under the bunny's chin (5) instead of the back of the head. You will need to work across the nose instead of working in the same holes. Start on one side of the nose and work your way across until it is as big as you like. In the example, the nose is about 1" / 2,5 cm wide. When finished, bring the needle back out of the same hole under the chin (6). Tie the ends in a knot, trim and stuff the knot into the head to hide it.

For the arms we will be making the same stitch but without pulling the stitch tight. Insert your needle into the middle of the magic ring on the arm and exit vertically between rounds 10 and 11. Stitch again in the same place, looping the yarn around the hoof. Repeat this stitch and fasten off securely. Repeat for the second arm.

ASSEMBLY

- Place the horns along round 20 of the head, with an interspace of 11 stitches, making sure the curve of the horn points toward the center of the head. Sew on firmly.
- Flatten the ears and pinch the open edge to form a leaf shape, then stitch closed. Sew the ears to the head with the stitched edge lying horizontally.
- Place the head on top of the open neck of the body and sew on firmly.
- Take a long length of brown yarn and sew through the first leg at about 0.5" / 1 cm from the top, through the body and into the second leg at about 0.5" / 1 cm from the top, then stitch back through the second leg, the body and the first leg in the same place and pull firmly. Repeat these stitches back and forth through the legs and body until the legs are securely attached but still movable. Fasten off.
- Repeat this process for the arms attaching them in the same way, below the neck.
- Sew the tail to the lower back. Weave in any loose ends.

FINISHING

To make the peacock stand better, sew a stitch that goes from the bottom of the body up to the back (where the back feathers will be located). This will help to flatten the bottom and make it less round.

Optional: You could add a round of slst in the front loops of round 59 of the body.

The legs should not flop, but instead be flush against the body. To achieve this, the portion of the leg that touches the body also needs to be sewn to the body. Once the legs are attached, your puppy should be balanced and able to sit upright independently.

- Sew the legs to the body and sew the gap between the toes together with the leg piece.

ASSEMBLY

- Sew the beak to the front of the head.
- To get the curved shape of the black tip, thread a length of black yarn onto your yarn needle and weave it in from the tip of the beak to the end of the black section along the increases, then pull it tight and secure.
- Shape the tail of the flamingo the same way as the beak. Thread a length of pink yarn onto your yarn needle and weave it through the rounds from the tip to the start of decreases. Pull it tight and secure.
- Sew the eyes to either side of the head.
- Sew the wings to the body.
- Take a long piece of wire and push it through the body into round 56 (before the start of decreases). Leave the same amount of wire on either side, enough for the legs and the toes. In the example we needed 25" / 65 cm, the length of 2 legs + 12 toes + the distance between both legs (see diagram).
- Pull the leg pieces onto the wire using the small gap from round 9 to let extra wire escape. Bend the tip of the wire to form 3 toes, push the middle one into the tip of the leg, pull the other toes onto wire either side.
- Add a small amount of stuffing around the wires, use a long stick to push it in further.
