MORTIMER THE MAMMOTH (Created by Patchwork Moose - Kate E. Hancock)

Mortimer the Mammoth lives on a moon. He likes it there, it's pretty cold and the craters make excellent ice rinks. When he's not skating around, he enjoys collecting fossils while wondering how the creatures of the past managed without a trunk.

Today he's dressed in a cute sailor shirt and hat, but he'll change into three more outfits before the day is over.

SHAWN THE SHARK *(Created by Theresa's Crochet Shop - Theresa Kicher)*

Shawn lights up the ocean with his sweet smile. He's a little bit scared of swimming too far from home, but when he's surrounded by his shark friends, he can travel across the world!

RUDY THE RED PANDA *(Created by Little Muggles)* Rudy is a mischievous red panda cub who loves to explore the world! He's a hungry little guy, always on the lookout for tasty bamboo shoots. His curiosity and appetite often get him into trouble, but who can stay upset at his adorable little face?

WOO RI THE LION *(Created by An Jiyoun)* Woo Ri is a kind and warm leader, and he respects all of the other animals, just as they are. The one thing he cannot stomach, however, is being hungry. So if you try to touch his piece of meat, he'll squeeze his fierce eyes, shake his wild mane and roar loudly!

CEDRIC THE SLOTH *(Created by Irene Strange)* Cedric enjoys hanging out in the top branches of his tree, nibbling leaves and fruit. He often watches the world rushing past below – and wonders why everyone is always in such a hurry!

ALVIN THE HEDGEHOG *(Created by Pepika - Sanda J. Dobrosavljev)*

Alvin is a gentle and kind hedgehog, and his spikes are rather soft. He's looking for true love and trust, and would love to find someone he can hug and cuddle with on stormy nights.

KIMI THE KITTEN *(Created by Woollytoons)* Kimi prefers to stretch out on the sofa. She loves it when you tickle her! Hunting mice is not her cup of tea, she rather chases a ball of wool. She loves the bright colors and soft touch of a ball of yarn. Watch it ... Off she goes!

ANNA THE SWAN AND HER BABY PETER *(Created by Pica Pau - Yan Schenkel)* Anna is a virtuoso at the piano and she has a good ear for music, she can play a tune after hearing it only once. Together with her son Peter at the cello, she's formed a little jazz band, and their days are filled with swinging rhythms and tunes.

Stitches & info

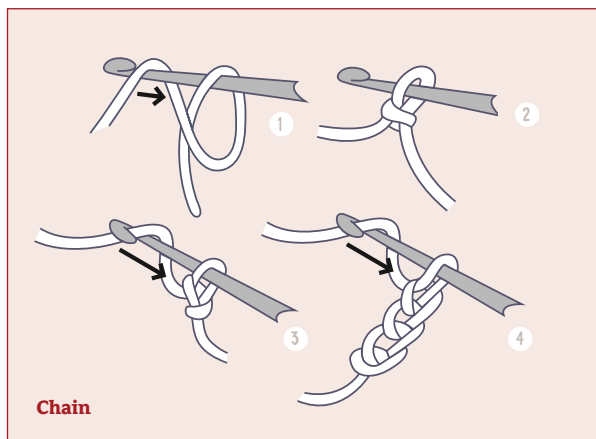

BASIC STITCHES

If this is your first time making amigurumi you might find it useful to have a tutorial at hand. With the stitches explained on the next pages you can make all of the amigurumi in this book. I suggest you practice the basic stitches before you start making one of the designs. This will help you to read the patterns and abbreviations more comfortably without having to browse back to these pages.

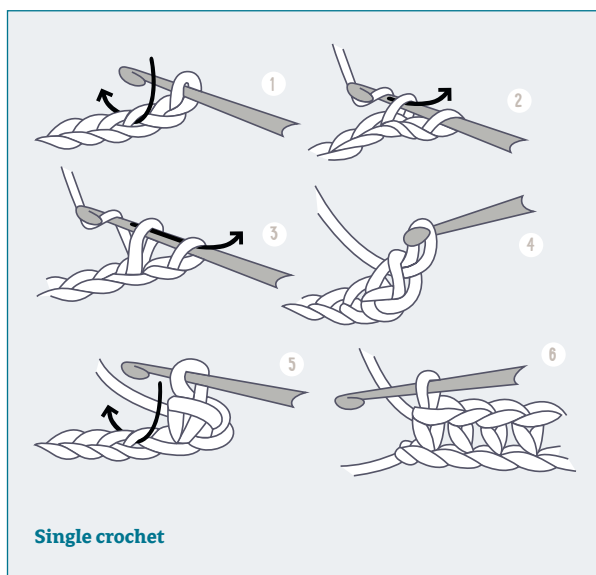

CHAIN (*abbreviation: ch*)

This stitch is the basis for many crochet patterns. If you're working in rows, your first row will be a series of chain stitches. Use the hook to draw the yarn through the loop (1) and pull the loop until tight (2). Wrap the yarn over the hook from back to front. Pull the hook, carrying the yarn, through the loop already on your hook (3). You have now completed one chain stitch. Repeat these steps as indicated in the pattern to create a foundation chain (4).

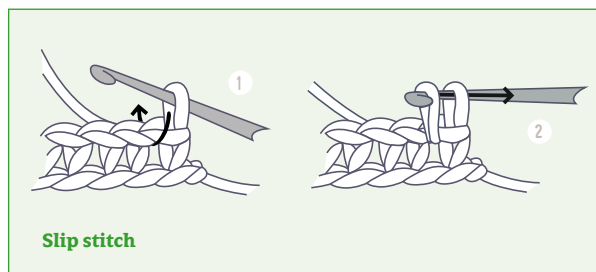

SINGLE CROCHET (*abbreviation: sc*)

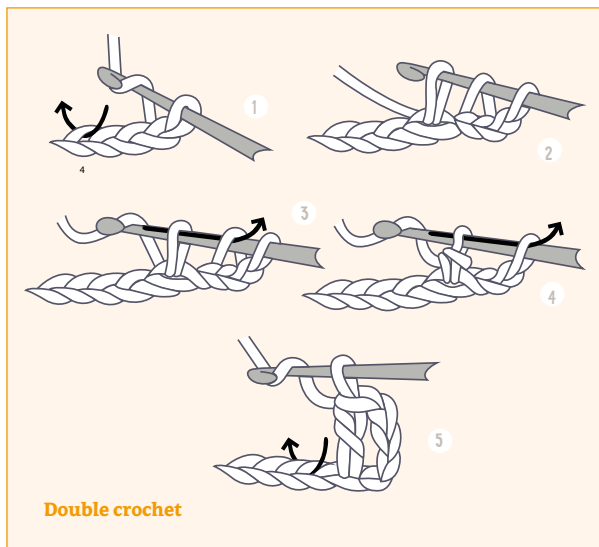

Single crochet is the stitch that will be most frequently used in this book. Insert the hook into the next chain stitch (1) and wrap the yarn over the hook. Pull the yarn through the stitch (2). You will see that there are now two loops on the hook. Wrap the yarn over the hook again and draw it through both loops at once (3). You have now completed one single crochet (4). Insert the hook into the next chain stitch to continue the row (5).

SLIP STITCH (*abbreviation: slst*)

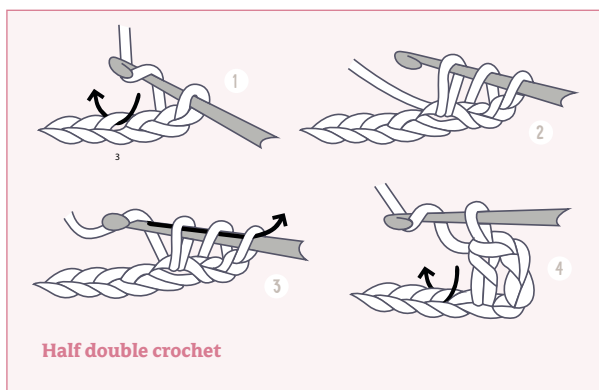

A slip stitch is used to move across one or more stitches at once or to finish a piece. Insert your hook into the next stitch (1). Wrap the yarn over the hook and draw through both loops at once (2).

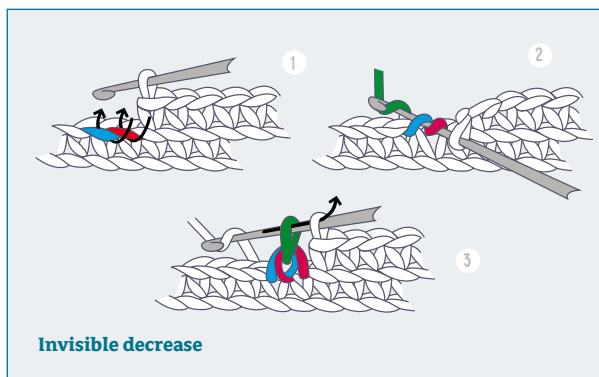

DOUBLE CROCHET (*abbreviation: dc*)

Bring your yarn over the hook from back to front before placing the hook in the stitch. Now insert your hook in the fourth chain – without counting the loop on the hook (1). Wrap the yarn over the hook and draw the yarn through the chain stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). You now have 2 loops on the hook. Wrap the yarn over the hook one last time and draw it through both loops on the hook (4). You have now completed one double crochet. To continue, bring your yarn over the hook and insert it in the next chain stitch (5).

HALF DOUBLE CROCHET (*abbreviation: hdc*)

Bring your yarn over the hook from back to front before placing the hook in the stitch. Now insert your hook in the third chain – without counting the loop on the hook (1). Wrap the yarn over the hook and draw the yarn through the chain stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through all three loops on the hook (3). You have completed your first half double crochet. To continue, bring your yarn over the hook and insert it in the next chain stitch (4).

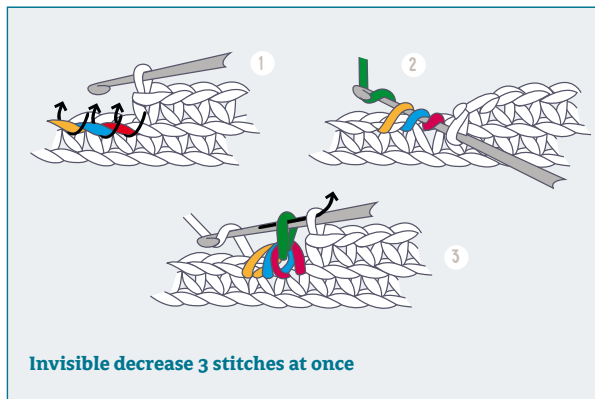

INVISIBLE DECREASE (*abbreviation: dec*)

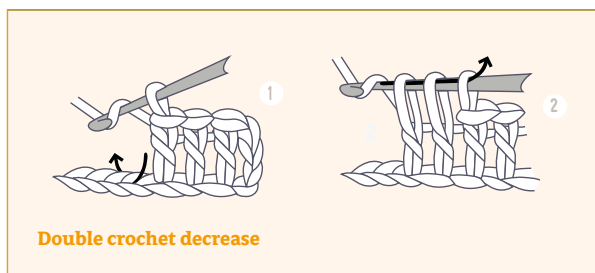

The standard method of decreasing can leave a small bump or gap. The invisible decrease is an alternative method of decreasing which will make your decrease stitch look much like the other stitches in the row, resulting in a smoother and more even crochet fabric. Insert the hook in the front loop of your first stitch. Now immediately insert your hook in the front loop of the second stitch (1). You now have three loops on your hook. Wrap the yarn over the hook and draw it through the first two loops on your hook (2). Wrap the yarn over again and draw it through the two loops remaining on your hook (3). You have now completed one invisible decrease.

INVISIBLE DECREASE 3 STITCHES AT ONCE*(abbreviation: sc3tog)*

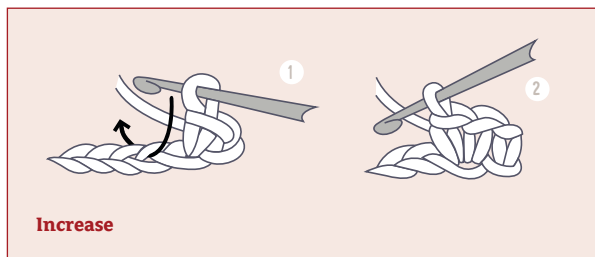

Insert the hook under the front loop only of the next three stitches (1). You now have four loops on your hook (2). Wrap the yarn over the hook and draw it through the first three loops on the hook. Wrap the yarn over the hook again and pull through the remaining two loops on the hook (3). You have now completed one invisible decrease with 3 stitches at once.

**DOUBLE CROCHET DECREASE***(abbreviation: dc dec or dc3tog for more than 2 stitches)*

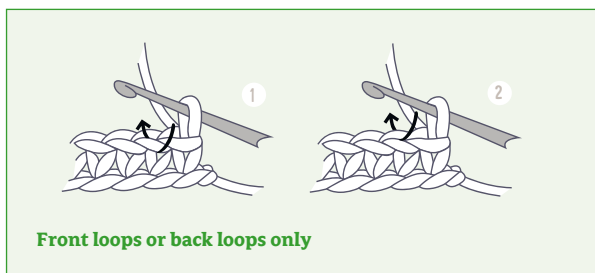

Bring your yarn over the hook from back to front before placing the hook in the next stitch (1). Wrap the yarn over the hook and pull it through the stitch. You now have three loops on the hook. Wrap the yarn over the hook and draw it through the first two loops on the hook. You now have two loops on the hook. Repeat this from the start in the next stitch. You now have three loops on the hook. Wrap the yarn over the hook once more (2) and pull it through all three loops on the hook. You have now decreased two double crochet stitches.

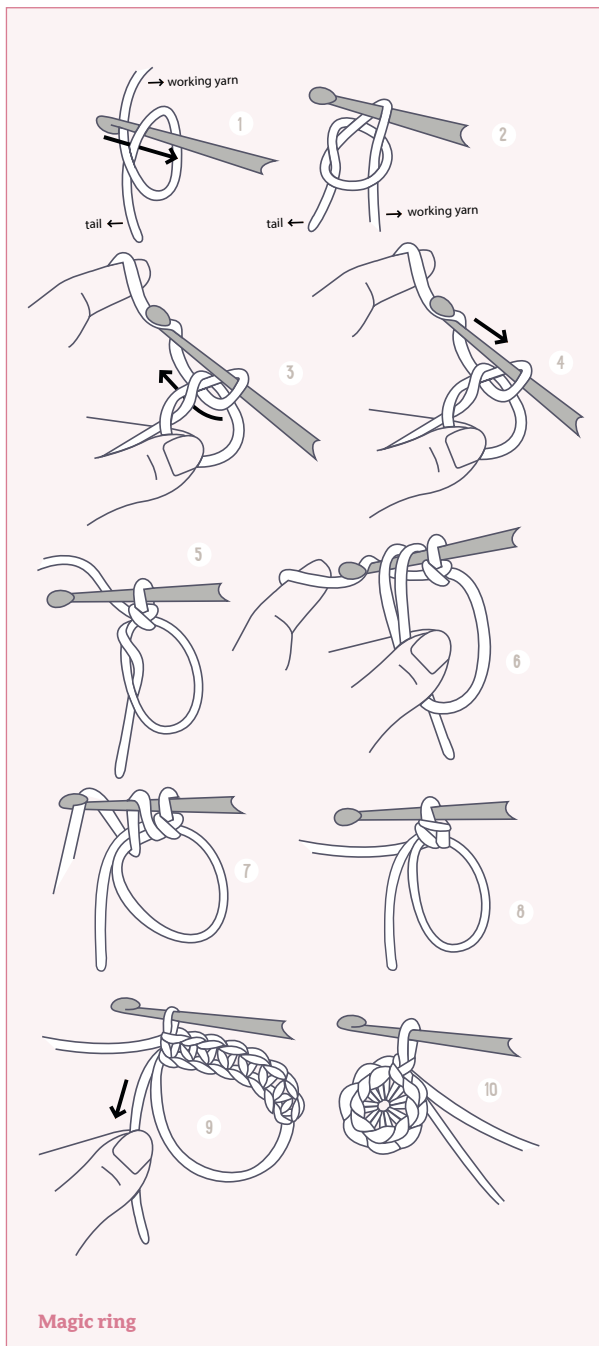

**INCREASE (abbreviation: inc)**

To increase you make two single crochet stitches in the next stitch.

**FRONT LOOPS ONLY (abbreviation: FLO)****AND BACK LOOPS ONLY (abbreviation: BLO)**

When making a crochet stitch, you end up with two loops at the top of the stitch, a front loop towards you (1) and a back loop (2). When asked to crochet FLO or BLO you make the same stitch but leave one loop untouched.

MAGIC RING

A magic ring is the ideal way to start crocheting in the round. You start by crocheting over an adjustable loop and finally pull the loop tight when you have finished the required number of stitches. The advantage of this method is that there's no hole left in the middle of your starting round.

Start with the yarn crossed to form a circle (1). Draw up a loop with your hook but don't pull it tight (2).

Hold the circle with your index finger and thumb and wrap the working yarn over your middle finger (3).

Make one chain stitch by wrapping the yarn over the hook and pulling it through the loop on your hook (4, 5).

Now insert your hook into the loop and underneath the tail. Wrap the yarn over the hook and draw up a loop (6).

Wrap the yarn over the hook again (7) and draw it through both loops on your hook. You have now completed your first single crochet stitch (8).

Continue to crochet (repeating step 6, 7, 8) until you have the required number of stitches as mentioned in the pattern.

Now grab the yarn tail and pull to draw the centre of the ring tightly closed (9, 10).

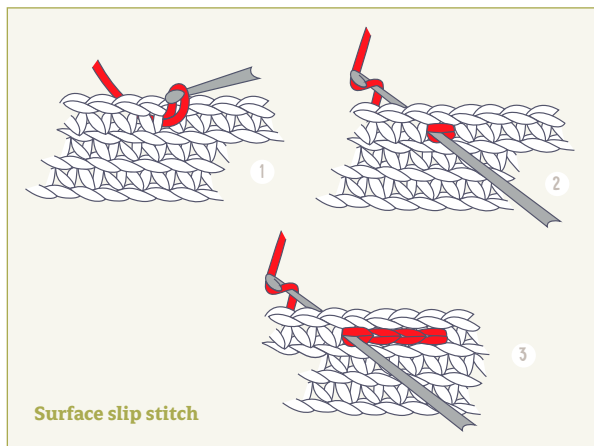

You can now begin your second round by crocheting into the first single crochet stitch of the magic ring.

You can use a stitch marker to remember where you started.

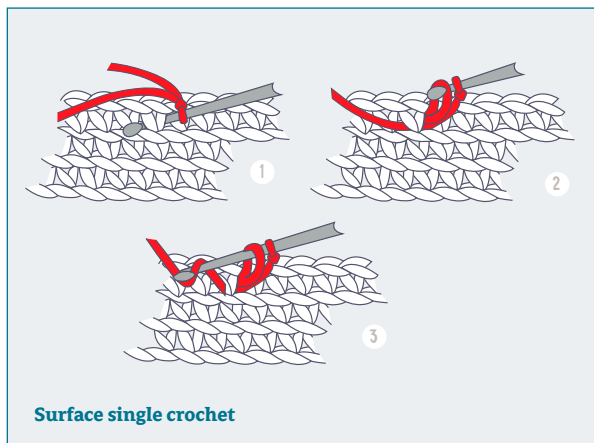

If you do not prefer this technique, you can start each piece using the following technique: ch 2, x sc into the second chain from the hook – where x is the number of sc stitches you would make in your magic ring.

SURFACE SLIP STITCH

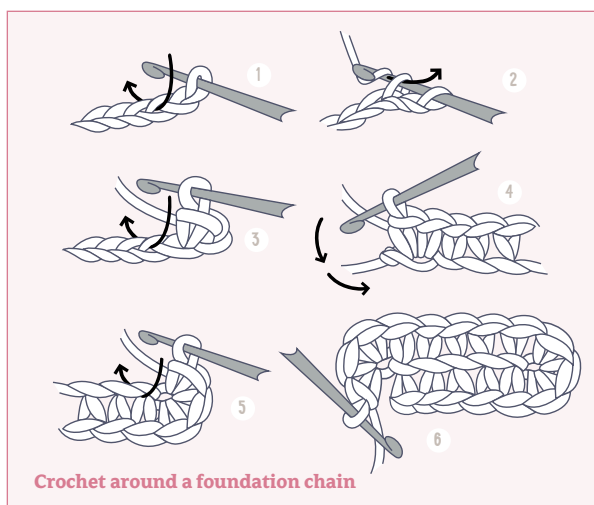

The surface slip stitch is an embellishment of slip stitches worked on top of the fabric of your crochetwork. Insert the hook from the right side through to the wrong side where you want your line of slip stitches to start, now wrap the yarn over the hook and draw it through the stitch (1). Insert the hook in the next stitch, wrap the yarn over the hook (2) and pull it through the stitch and the loop on the hook. This is the start of your line of surface slip stitches. Repeat this to the end of your crochet work or in any shape you like (3).

**SURFACE SINGLE CROCHET**

Use a slip knot to tie the yarn onto the crochet hook. Insert the hook around the back horizontal bar of the stitch you're working over (1). Wrap the yarn over the hook, pull that loop through (2). Wrap the yarn over the tip of the hook again (3) and carefully pull it through both loops on the hook.

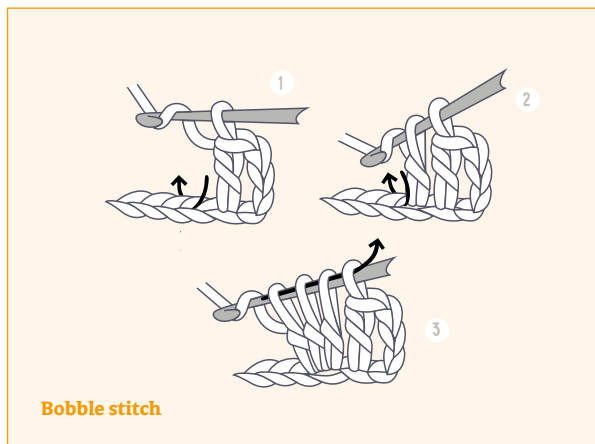

**CROCHET AROUND A FOUNDATION CHAIN**

Some pieces start with an oval instead of a circle. You make an oval by crocheting around a foundation chain instead of crocheting into a magic ring. Crochet a foundation chain with as many chains as mentioned in the pattern. Start in second ch from your hook (1) and work a sc stitch in this chain stitch (2, 3). Work your crochet stitches into each chain across as mentioned in the pattern. The last stitch before turning is usually an increase stitch (4). Now, turn your work upside down to work into the underside of the chain stitches. You'll notice that only one loop is available, simply insert your crochet hook in this loop (5). Work your stitches into each chain across. When finished, your last stitch should be next to the first stitch you made (6). You can now continue working in spirals.

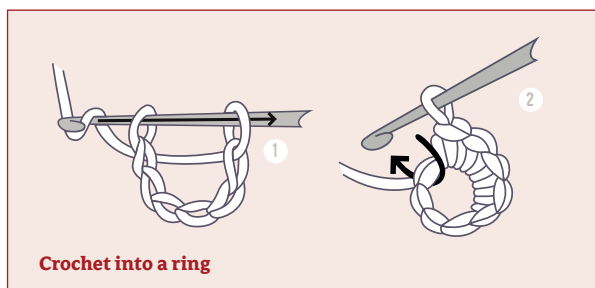

BOBBLE STITCH

The bobble stitch creates a soft dimensional bobble in your crochetwork. Think of it as a cluster of dc stitches worked in the same stitch. Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook. Wrap the yarn over the hook again and pull it through the first two loops on the hook. One half-closed double crochet is complete, and two loops remain on the hook (2). In the same stitch, repeat the preceding steps twice. You should have four loops on your hook. Wrap the yarn over your hook and draw the yarn through all four loops on the hook (3). One 3-dc-bobble-stitch is complete. Create a bobble stitch with as many dc stitches as indicated in the pattern.

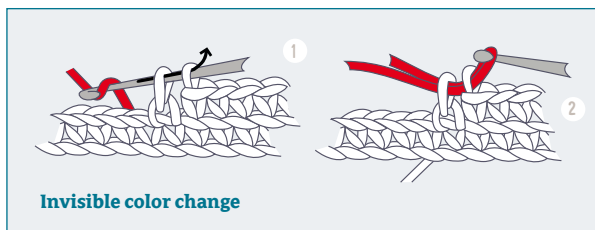

CROCHET INTO A RING

When you want a center ring that is open instead of closed like the magic ring, you start out with a ring of chain stitches, after which your first round is worked over the ring. Make a series of chain stitches as mentioned in the pattern, close with a slip stitch in the first chain to make a ring (1). Now insert your hook into the center of the ring, instead of into the chain stitch (2). Complete the stitch in the usual way. Follow the pattern instructions to determine how many stitches to work into the ring.

INVISIBLE COLOR CHANGE

When you want to switch from one color to the next, you work to within two stitches before a color change. Make the next stitch as usual, but don't pull the final loop through (1). Instead, wrap the new color of yarn around your hook and pull it through the remaining loops (2). To make a neat color change, you can make the first stitch in the new color a slip stitch instead of a single crochet. Don't pull the slip stitch too tight or it will be difficult to crochet into in the next round. Tie the loose tails in a knot and leave them on the inside.

FASTENING OFF

When you've finished crocheting, cut the yarn a couple of inches/cm from your last stitch. Pull the yarn through the last loop until it is all the way through (1). You now have a finished knot. Thread the long tail through a tapestry needle and insert your tapestry needle through the back loop of the next stitch (2). This way the finishing knot will remain invisible in your finished piece. You can use this piece of yarn to continue sewing the body pieces together.

JOINING ALL PARTS

First, pin together the parts that you want to sew to one another, so you can evaluate the results and adjust if necessary. If possible, use the leftover yarn tail from where you fastened off, or use a new length of the same yarn color from one of the pieces that you want to join.

When the different pieces are open: position the piece on the body and sew all around it, going through the front stitches of both the extremity and the body.

When the opening of the different pieces is sewn closed before attaching them to the body, you line up the stitches of one side with the other side and sew through the front loop of one side and the back loop of the other side. Use the same color of yarn as the pieces you want to join together.

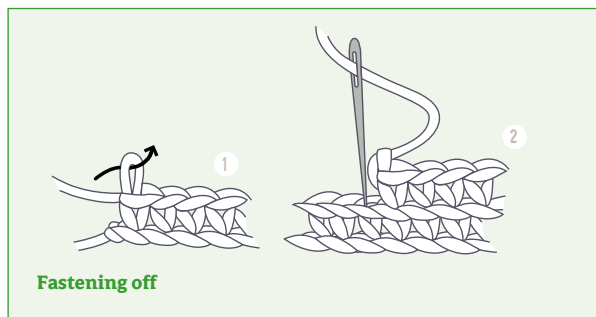

Always make sure pieces are securely attached so that they can't be pulled off. Make small, neat stitches and try to make them show as little as possible.

SKILL LEVEL

easy (★), intermediate (★★), advanced (★★★)
Every pattern is marked with a skill level to indicate how easy they are to make. If this is your first time making amigurumi, it's best to start with an easy pattern and work up to the intermediate and advanced ones.

PATTERN STRUCTURE

All patterns in this book are worked in continuous spirals, not in joined rounds. Crocheting in spirals can

be confusing since there's no clear indication of where a new round begins and the previous one ends. To keep track of the rounds, you can mark the end of a round with a stitch marker or safety pin. After crocheting the next round, you should end up right above your stitch marker. Move your stitch marker at the end of each round to keep track of where you are.

At the beginning of each line you will find 'Rnd + a number' to indicate which round you are in. If a round is repeated, you'll read 'Rnd 9 – 12', for example. You then repeat this round four times, crocheting the stitches in round 9, 10, 11 and 12.

Although we usually crochet in rounds, occasionally it happens that we switch to rows, going back and forth instead of working in continuous spirals. When we switch to rows, it will be indicated with 'Row + a number'.

At the end of each line you will find the number of stitches you should have in square brackets, for example [9]. When in doubt, take a moment to check your stitch count.

When parts of the instructions repeat throughout the round, we place them between rounded brackets, followed by the number of times this part should be worked. We do this to shorten the pattern and make it less cluttered.

BASIC MATERIALS**YARN**

For every pattern in this book we've listed the materials used to create that design, including the yarn thickness

used by the designer. Don't feel tied to the choices of yarn thickness though: any weight of cotton, acrylic or wool can be used as a substitute, provided you use the right crochet hook accordingly.

The patterns don't give the yarn quantity. The amounts are rather small and will vary according to how loosely or tightly you crochet. You could use some of the remnants from other projects or start with a new ball of yarn. One or two balls per color is usually enough.

CROCHET HOOKS

Not only yarn, but hooks as well come in different sorts and sizes. Bigger hooks make bigger stitches than smaller ones. It is important to match the right hook size with the right weight of yarn. In the table below you will find the standard hook size recommended for each yarn weight. For amigurumi, however, you generally use a hook two or three sizes smaller than what is recommended for your yarn. The crochet fabric should be quite tight, without any gaps through which the stuffing can escape. Using a smaller hook makes it easier to achieve this.

Hooks are usually made from aluminum or steel. Metal hooks tend to slip between the stitches more easily. Preferably choose a crochet hook with a rubber or ergonomic handle.

STITCH MARKER

A stitch marker is a small clip made of metal or plastic. It's a simple tool to mark your starting point and give you the assurance that you've made the right number of stitches in each round. With my stitch marker, I always mark the last stitch of the previous round.

STUFFING

For the filling, polyester fiberfill is advised. You can purchase this at any craft shop. It is inexpensive, washable and non-allergenic. Be careful not to overstuff your amigurumi as the stuffing might stretch the fabric and show through.

FACIAL FEATURES

For some patterns safety eyes are used. These are widely available in craft shops. Be careful when you apply safety eyes: once you put the washer on, you won't be able to pull it off again, so be very careful that the post is where you want it to be before attaching the washer.

Alternatively, the features can be embroidered, which is recommended if you're crocheting for children under the age of three. For embroidery, a tapestry needle with a rounded tip is used.

2 st, 4 hdc in next st. Continue on the other side of the foundation chain, hdc in next st, 2 hdc in next st [9] Fasten off, leaving a long tail for sewing. Weave in the yarn end.

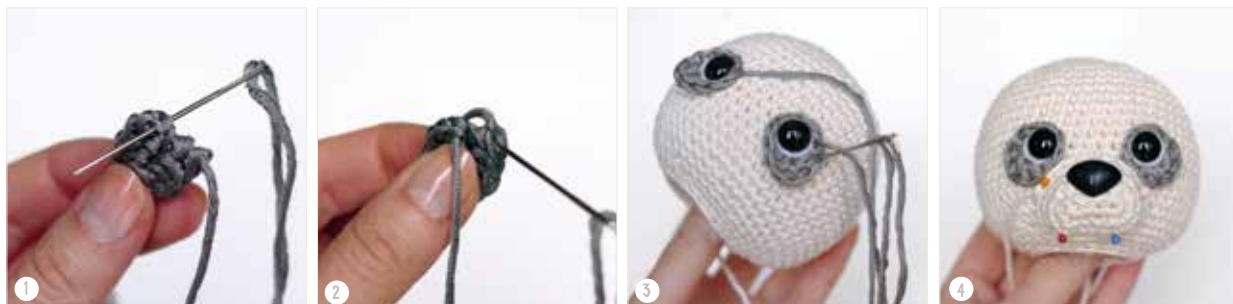

NOTE: To have a neat edge, first insert the needle into the first ch back to front under both loops (picture 1), then insert the needle from the top of the last hdc between the loops and bring the yarn to the wrong side (picture 2). Pull the yarn until the loop is the same size as the other stitches.

Cut two round pieces of felt, slightly bigger than the safety eyes (in the example the felt piece has a diameter of 0.4" / 11 mm). Make a decentralized hole and insert the safety eye. Next, insert the eyes together with the felt pieces through a stitch on one side of the eye patch. Do not fasten the backings yet.

ASSEMBLY

- Sew the head to the body. Make sure that the color change on the body is positioned on the back. Add extra stuffing as you sew, to make the head stable.
- Attach the arms to the body as follows:
 - 1) Thread the yarn tail onto a needle and insert the needle into the body between rounds 15 and 16, go through the body and bring the needle out on the other side (picture 11).
 - 2) Go through the other arm between rounds 10 and 11 coming out on the other side.
 - 3) To avoid flattening the arm, insert the needle back into the arm through the same stitch, go through the arm and bring it out through a stitch next to the one where you first inserted the needle (picture 12).
 - 4) Go through the body once more and through the first arm. Bring the needle back into the arm through the same stitch as described in step 3 and repeat steps 1-3 once more. Pull the yarn until the tension is right and the arms are attached tightly. Bring the yarn tail out at the back of the body for knotting.
- Attach the legs to the body between rounds 5 and 6, following the same method as for attaching the arms. The needle should go through the legs between rounds 13 and 14 (picture 13). Pull the yarn

until the tension is right and the legs are firmly attached. Bring the yarn tail to the same stitch at the back as the leftover yarn tail of the arms (picture 14). Pull both yarn tails and tie them securely into a knot. Thread both yarn tails onto a needle and bring the needle out through the bottom of the body. Pull slowly for the knot to disappear into the body and cut off the excess yarn.

FACE DETAILING (optional)

With a strand of green yarn, insert your yarn needle in round 27 of the head and back out next to the inside of the right eye (picture 1). Wrap the yarn around the back of the eye (picture 2) and insert your needle back into the same stitch it came out of. Bring your needle back out in round 27, one stitch away from where your yarn entered into the head. Pull on both strands and tie them together (picture 3). Repeat these steps for the left eye and weave in all yarn ends.

BODY (start in green yarn)

NOTE: For Carlos' body, you continually switch between two or more colors of yarn. Handling of the yarns may be a little complicated. Therefore, we

recommend the following method for color change:

Carry the unused yarn color along the back of the work. For example, when making the body, a majority of the rounds consists of both green and petrol blue. When working with the green yarn, drop the petrol blue yarn behind your work. When it's time to change to petrol blue, pick up the strand and carry it across the back of your work before making the next color change (picture 4).

Be careful! If you pull the carried yarn too tight, the work will pucker up. If you leave it too loose, the stitches will be loosened and you will get an uneven finish. If you would like, you can leave it looser than normal, then after every few rounds, you can cut the inside strands of yarn in half and tie them to each other to keep the stitches more secure (picture 5).

Rnd 6: (sc in next 4 st, inc in next st) repeat 6 times [36]

ASSEMBLY OF MANU

- Sew the front legs to the body. Position the front top corner of the leg over round 35 and the back top corner of the leg over round 32 (picture 7). The front top corners should be 8 stitches apart (picture 8). Sew two extra stitches on each leg to keep the legs snug against the body.
- Sew the back legs to the body. The front top corner of the leg lies over round 11 and the back top corner of the leg lies over round 7 (Picture 9). The back top corners should be 12 stitches apart (picture 10). Sew two extra stitches on each leg to keep the legs snug against the body. Ensure that Manu stands evenly balanced.

- Sew the ears to the head. The front top corner of the ear lies over round 26 of the head and the back top corner of the ear lies over round 30. The front top corners of the ears should be 16 stitches apart (picture 11).
- Sew the body to the head. Mark the bottom of the head with pins first to outline where the neck of the body is to be attached (picture 12). The neck is positioned between rounds 31 and 25.

- Sew the tail to the back of the body between rounds 5 and 6.
- Wrap the scarf around Manu's neck. Weave in the tail ends. With one of the loose tail ends, weave it to where the scarf will intersect. Overlap the ends of the scarf and use the yarn tail to sew the two sides together.
- Position the beret onto the top of Manu's head, slightly to the left of his head, between rounds 22 and 33.

BRIGITTE

The pattern for Brigitte's head, body, neck, ears, front legs, back legs and tail are the same as for Manu.

- Instead of embroidering eyebrows, embroider eyelashes for Brigitte.
- Where blue yarn is used, use light pink yarn instead.
- Where white yarn is used, use peach yarn instead.
- Instead of making a scarf and beret, we will crochet a bow and create a tutu skirt for Brigitte.

BOW (in light pink yarn)

Rnd 1: start 3 sc in a magic ring. Don't pull the ring closed yet, work 3 dc into the ring (tutorial page 13), ch 3, slst into the ring, ch 3, 3 dc into the ring, ch 3, slst into the ring.

Pull the ring closed and fasten off, leaving a yarn tail. Wind the tail around the middle of the bow a couple of times and knot the ends on the back side.

TUTU

- With a 3 mm elastic, measure out an appropriate length so that it fits snugly around Brigitte's waist, where the beige yarn meets the light pink yarn between rounds 20 and 21. Sew the overlapping ends together (picture 13).

- For Brigitte created using the yarn weight described in this pattern, cut a 3.5 cm / 1.4" piece of cardboard. Wind the 6-inch tulle roll around this cardboard 20 times and cut along one edge. The length of the cut tulle should be $2 \times 3.5 \text{ cm} / 1.4" = 7 \text{ cm} / 2.8"$. Then cut this tulle into 2.5 cm / 1" wide pieces.
- Place the elastic around a cylindrical container. Fold 3 pieces of the cut tulle strips together in half, pass it under the elastic and pull the tails through the loop (pictures 14 and 15). Continue doing so until all of the elastic is covered in tulle. Always tie the tulle to the elastic in the same direction.

ASSEMBLY OF BRIGITTE

To assemble Brigitte, take these specific steps into account.

- Sew the back legs to the body. The top corner of the leg lies over round 7, the bottom corner of the leg lies over round 6 (picture 16). The bottom corners should be 9 stitches apart in the back. Sew two extra stitches on each leg to keep the legs snug against the body. Ensure that Brigitte sits evenly balanced on her back legs.
- Sew the bow above the front corner of the right ear.
- Slip her tutu skirt on.

Fasten off, leaving a tail for sewing.

ARM (make 2, in brown yarn)

NOTE: The arms and legs involve a color change in the bobble stitches. You will need to change to white yarn for every 5-dc-bobble stitch. Switch back to the main color for all other stitches. To change color smoothly, start your bobble in white yarn, but when you have your 6 loops left on the hook, yarn over with the brown yarn and pull through all 6 loops on the hook to complete the stitch. When making color changes, drop the yarn you are not using to the back of your work and pick it up again when you need it, being careful not

to pull it too loose or too tight when starting again.

ASSEMBLY

- Sew the eyelids on, making sure to curve them around the eyes.
- Position the hair on the top of the head, so that the longest sides will run from ear to ear, with the front edge of the hair base lying along round 16. Sew the base on halfway, then stuff. Continue to sew around the base until it is securely attached.
- Stuff the body with fiberfill.
- Sew the head to the body along the neck edge.
- Curl the tip of the trunk upward and stitch into place.
- Attach the tusks. Pin them so the open edges rest along the trunk in a diagonal position, about 0.5" / 1 cm below the eyes. When you are happy with the placement, sew them on firmly.
- Position the ears along round 18 of the head, next to the base of the hair, and sew on.
- Take a long length of strong yarn and stitch through the first leg at about 0.5" / 1 cm from the top, through the body and into the second leg at about 1 cm / 0.5" from the top, then stitch back through the second leg, the body and the first leg in the same place and pull firmly. Repeat these stitches back and forth until the legs are securely attached but still movabl. Fasten off.
- Repeat this process for the arms, attaching them in the same way, below the neck.
- Sew the tail to the lower back. Weave in any loose ends.

EYES NEEDLE SCULPTING

- We will needle sculpt the eyes, so we will define three points of needle insertion: one through the hole at the base of the head (point O), and two points (A) and (B) at the edge of the eyes. Point A will be at the center right corner of the left eye, while point (B) will be at the center left corner of the right eye (see the chart). Follow this procedure:
 - (green in diagram 3) Thread a needle with embroidery thread to match the body and go in at O, with a good knot, come out at point A (left eye), insert the needle one stitch to the side of A and come out at point B (right eye). Pull just a bit to create indentation.
 - (blue in diagram 3) Insert the needle one stitch to the side of B, come out at A, pull just a bit to create indentation.
 - (red in diagram 3) Insert the needle one stitch to the side of A, come out at B, insert it one stitch to the side of B, pull a bit, come out at point O.
 - (fuchsia in diagram 3) Insert the needle again in point O, take it through point C in the muzzle (below the center, on round 4). Insert it one stitch to the side in point D, come out at O, and pull a bit. Sew up to prevent that the sculpting gets loose.
- Embroider a triangular-shaped nose between rounds 2-6. From the lower end downwards down to point C, embroider a vertical line.

EYEBROWS NEEDLE SCULPTING

Place some pins as a guide to mark the eyebrows' edge (follow diagram 4). Use 3 pins for each side: on rounds 4-5, the pin from one side should be 8 stitches apart from the pin on the other side. The second pin pair should be on round 7, 15 stitches apart. The last pin pair should be over rounds 9-10, 20 stitches apart. Now we will sculpt the eyebrow creases, like we did for the eyes. The threads will come and go from the eyes to the points marked by the pins. Try to find points around the upper part of the eye, as close to the eye itself as possible, forming radiating lines towards the pins. Using embroidery thread of the same color and your yarn needle, insert the needle in the upper edge at the center of one eye, and come out at the uppermost pin (picture 6). Insert it in round 6 (not the next pin, but the space between the two pins), go back to the eye edge (picture 7), come out at the next pin mark, insert it again in round 8 and back to the eye edge, go to the last pin and sew up in the eye edge (picture 8). Repeat the procedure for the other eye.

ASSEMBLY

- If necessary, stuff again to get the proper shape of the head before closing the hole. Using your yarn needle, weave the yarn tail through each remaining stitch of the last row and pull it tight to close.
- With tan eye shadow or blush, make up a patch for the eyes, the center of the muzzle and around the nose.
- Embroider the eyelids using brown embroidery thread.
- Flatten the ears and sew them together. Pinch the ear together to form a small cone and affix it with a stitch.
- Sew the ears to each side of the head over round 10.
- Sew the head to the body.
- Sew the arms to the body between rounds 28 and 29.
- Sew the legs to the body between rounds 8 and 9.
- Embroider 3 toes on each foot with dark brown embroidery thread.
- Sew the tail to the back of the body, between rounds 10 and 12.
- Place the collar on the bear's shoulders, with the rectangular part at the back. With the wrong side of the surface slip stitch facing upwards, sew the collar straps to the bear's chest, over rounds 24 and 25.
- Make a bow using red ribbon and sew it where the collar straps meet.
- Pick up the cap. Using blue yarn, crochet surface slip stitch on the inner side of the brim, between the second and third to last row.
- Cut a piece of red ribbon and sew it to the back.
- Sew the cap to the head.
- Add a small strip of red ribbon on the cap's brim.

Without turning, single crochet an edge all around the belly – in the row-ends up the first side, across the top, and down the row-ends on the other side. Fasten off, leaving a yarn tail for sewing (60"/150 cm long).

Position this belly onto the bottom of the shark's body, starting at round 4, and extending all the way to the back tip of the body. Line up the belly so that there are 2 stitches between the eye and the start of the white belly on either side ([picture 2](#)).

Use sewing pins to hold the belly in place while you sew it on. Insert your needle down through the top of the belly and up through the white a few stitches over.

Continue all the way around the belly until there are no more loose sections. Remove the sewing pins as you go.

SIDE FIN (make 2, in gray yarn)

Rnd 1: start 4 sc in a magic ring [4]

Rnd 2: (sc in next st, inc in next st) repeat 2 times [6]

Rnd 11: (sc in next 5 st, inc in next st) repeat 2 times [14]
 Fasten off, leaving a long tail for sewing. Do not stuff.

Position each fin 7 stitches back from the eyes, above the white belly. Sew the fins to the body.

TOP FIN *(in gray yarn)*

Rnd 1: start 4 sc in a magic ring [4]

Rnd 2: (sc in next st, inc in next st) repeat 2 times [6]

Rnd 4: (sc in next 2 st, inc in next st) repeat 3 times [12]

Rnd 5 – 9: sc in all 12 st [12]

Fasten off, leaving a tail for sewing. Using your crochet hook, push out the very top of this fin, and bend it backward so it has a slight curve. Do not stuff. Sew it to the top of the body, starting at round 23 (or counting back 11 stitches from the eyes). Make sure to count the number of stitches between the top fin and side fins on both sides to make sure it is even. The top fin is positioned a little further back on the body than the side fins.

BACK FIN PART *(make 2, in gray yarn)*

Rnd 1: start 4 sc in a magic ring [4]

Rnd 2: (sc in next st, inc in next st) repeat 2 times [6]

Fasten off, leaving a long tail for sewing. Sew each back fin at an angle to the back tip of the shark's body.

FINISHING

- Take a long strand of black yarn. Using your yarn needle, sew the gills onto the shark's body in front of each side fin.
- Take a strand of black yarn. Using your yarn needle, embroider a mouth between rounds 6 and 7 of the belly with a length of 7 stitches. Weave in the yarn ends.
- Take a sewing needle and black embroidery thread and make several stitches on either side of each gill to hold them in place. Weave in your thread ends.

LION'S MANE (in dark brown, beige and orange yarn)

We provide two options to make the lion's mane.

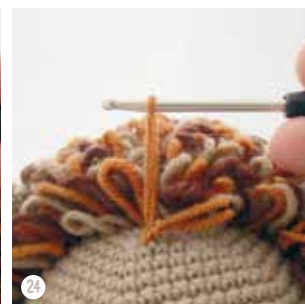

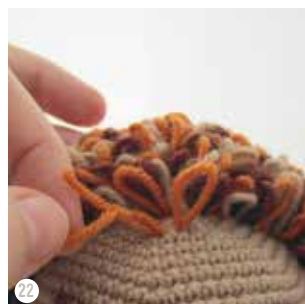

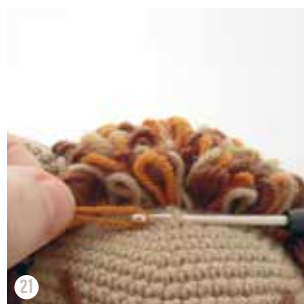

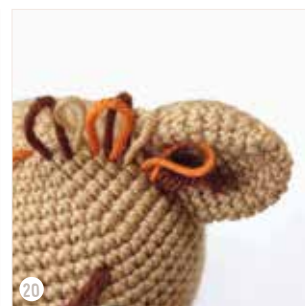

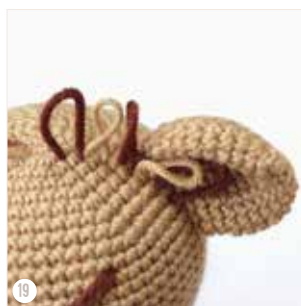

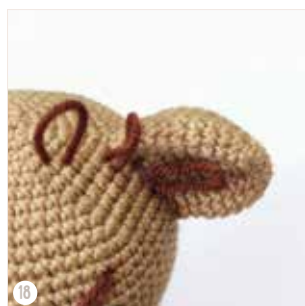

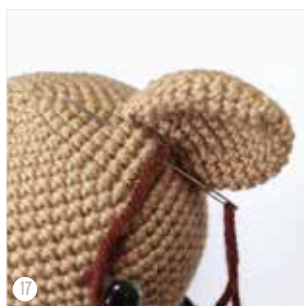

When making the mane with continuous loops, you choose the quickest option, though your finished character will be less suitable to be handled by little children, as the loops can be pulled out easily. We therefore provide an alternative method, using individual loops of yarn that are safely rooted inside the lion's head.

Continuous loops

Take dark brown, beige or orange yarn on your yarn needle. Insert the needle in the lion's head, coming out about 2 rounds from where you started (picture 17). Enter the head again, at a distance of one round, but don't pull the yarn tight. Instead, make a small loop, about the size of your finger (picture 18). Continue making loops around the lion's head in 3 different colors (pictures 19 and 20).

Individual loops

Cut several pieces of orange, brown and beige yarn of about 4" / 10 cm in length. Insert your hook under-

neath one of the stitches on top of the head. Fold a strand and grab the loop with your hook (picture 21). Next, pull the strand about halfway through. Make a small knot in the yarn tails (picture 22). Now take the looped side on your crochet hook, go through the knotted side and pull the loop all the way through (picture 23 and 24). Pull the strand tight. Hide the leftover yarn tail inside the head with the back of a needle. Repeat in different stitches until you are satisfied with the mane.

CREATE HEDGEHOG QUILLS FOR THE BODY

Pin all the parts together, so you can see how it looks. Mark the back part of the body that should be covered with quills with contrasting yarn (picture 4). The sides of the body shouldn't be covered, so it's more comfortable to attach the arms. The fuzzy yarn should cover the back of the body starting with 8 stitches between rounds 5 and 6 and finishing with 23 stitches between rounds 21 and 22.

Pull up a loop of fuzzy yarn between rounds 5 and 6 of the body and surface crochet around the next 8 stitches (picture 5). Turn the work and surface crochet in the other direction around the stitches in the round below. Continue in this manner until the marked area is covered. Finish with 23 stitches between rounds 21 and 22. To finish, remove the contrasting yarn and weave in the yarn ends.

(video tutorial: www.goo.gl/iYE8RA)

SEW-ON EYES

If using sew-on eyes, attach the eyes between rounds 12 and 13 of the head, with an interspace of 10 stitches. Sew them on, using a long needle and gray yarn. Leave a tail at the start for sewing. Insert the needle through the bottom of the head, coming out at the spot where the first eye should be, through the eye, back through the same spot, coming out where the second eye should be, through the sew-on eye and back to the bottom of the head. The needle should come out at

exactly the same place where you inserted it. Pull the yarn tightly, so the eyes shape the head. Tie a double knot. Hide the yarn ends inside the head.

ASSEMBLY

- Sew the ears to the head between rounds 17 and 18, right in front of the quills, with an interspace of 10 stitches.
- Sew the nose to the head between rounds 1 and 2 (picture 6).
- Using black yarn, embroider the eyebrows 1 round above the eyes with two diagonal stitches, about 4 stitches long.
- Sew the arms to both sides of the body between rounds 5 and 6, right in front of the quills (picture 7).
- Put the doll on a flat surface and pin the legs to the body between rounds 17 and 22, so your hedgehog can sit on its own. Sew the legs to the body (picture 8).
- Sew the head to the body. Sew the front side of the head between rounds 3 and 4 and the back side between rounds 4 and 5 of the body.
