In this book you will find

FREDDY THE PIGLET *(Created by Amalou Designs - Marielle Maag)* Freddy loves organizing special surprise parties for his friends, be it a costume party, a potluck or a scavenger hunt in the park. Little does he know that his friends are planning to surprise him with a big party in return! (But it's still a secret, so don't tell him yet!)

18

LONZO THE LLAMA *(Created by Airali Design - Ilaria Caliri)* Lonzo is really proud of his ancestors, who for centuries helped the South American population carry their heavy stuff. He doesn't get to carry much now, but he'll help around the house as much as he can, and he's especially good at vacuum cleaning and dish washing!

22

28

SCRAPS THE SEAGULL *(Created by Crochetbykim)* Scraps adores food and he can spot a delicious bite from miles away. He flies from country to country in order to look for new tasty leftovers, savoring the local cuisine wherever he goes. The other seagulls think Scraps is a bit picky, but he likes to refer to himself as a feathered foodie.

MONTY THE MOOSE *(Created by LittleAquaGirl)* Monty is a true gentleman who believes in chivalry. He loves putting on his bow tie for the annual forest ball, but he is a little shy when it comes to asking another moose for a dance.

31

SNORKY THE ELEPHANT *(Created by Crochetbykim)* Snorky is an active little elephant who can't stand injustice or staying silent on the sidelines. Unsatisfied by the rulings of the current Animal King, he has decided to run for office himself! You can find him campaigning out on the savannah where he talks to everyone he meets about his ideas.

37

XANDER THE ZEBRA *(Created by Kristi Tullus)* Xander likes to tidy his home, putting everything into neat little piles and sorting it all according to color. He's especially particular when it comes to his wardrobe, although he mostly wears black and white, which is pretty easy to sort.

40

HAMISH THE HAMSTER *(Created by Moji-Moji Design - Janine Holmes)* Hamish's favorite treat is a punnet of strawberries. During the summer months, he often visits the local farm to eat as many as his tummy can hold. When he's had his fill, he hoards a few away in his roomy cheek pouches and scampers back to his cage to bury them in his bedding - just in case he feels the need for a midnight snack.

47

NOEL THE REINDEER (Created by Hello Yellow Yarn - MJ Carlos) Noel is a sophisticated and social reindeer who loves to travel all over the world. Although his favorite season will always be winter, he doesn't mind jet-setting to warmer countries to make new friends.

CHERYL THE CHICKEN (Created by Moji-Moji Design - Janine Holmes) Cheryl takes her responsibilities very seriously, whether it be tidying her nest, looking after her latest batch of eggs or scratting around for some tasty corn to eat. She may be the busiest chicken in the coop, but she still finds time to gossip with the other hens.

BOB THE BEAR & BUDDIE THE BEE (Created by DIY Fluffies) While Bob was searching for delicious honey, he met Buddie the Bee. They unexpectedly became friends and now share their daily routine, playing games and sleeping in the sun.

65

69

MADAME DUPRE THE GRAY GOOSE (Created by Patchwork Moose - Kate E. Hancock) Madame DuPre has quite a passion for baking and loves making up many new and unusual combinations. Unfortunately, she can't find any tasters. When she's trying out her newest recipes, like her latest raspberry and mushroom grasshopper soufflé, her many children mysteriously disappear ...

MEYER THE MALLARD DUCK & HIS BABIES (Created by Little Muggles - Amy Lin) Meyer is a stay-at-home dad, and he works hard to take care of his kids. He loves feeding them soft bread crumbs, goofing around with them in the pond and quacking them to sleep. It's pretty tiring, but at the end of the day, he just loves his family more than anything else.

75

80

PENNY THE PONY (Created by Patchwork Moose - Kate E. Hancock) Penny the pony teaches the hula hoop; she's very good at it. In her spare time she is training to be an astronaut. She's always loved the stars and is convinced if she can just touch them, something magical will happen. Also, she's a great cheese lover and everybody knows the best cheese is found on the moon.

LUCKY THE STORK (Created by Zipzipdreams) Lucky the stork counts himself as particularly blessed, performing one of the greatest jobs in the world. He's always looking out for families who're waiting for their little one to arrive and when he swoops into the home carrying their little bundle of joy, he gets to see the biggest love in the world!

86

LEO THE LION (Created by Amalou Designs - Marielle Maag) It's always hot and humid in his home land, but Leo is careful not to stay in the sun for too long and always remembers to apply sunscreen to protect his soft skin from the rays. He also drinks a lot of water and takes long naps in the shade, that's the best thing to do!

Stitches & info

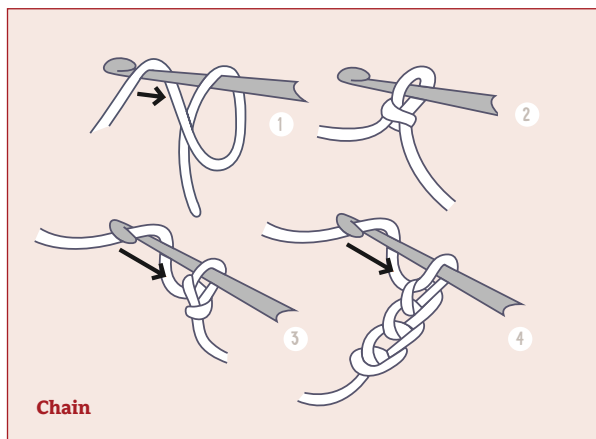

BASIC STITCHES

If this is your first time making amigurumi you might find it useful to have a tutorial at hand. With the stitches explained on the next pages you can make all of the amigurumi in this book. I suggest you practice the basic stitches before you start making one of the designs. This will help you to read the patterns and abbreviations more comfortably without having to browse back to these pages.

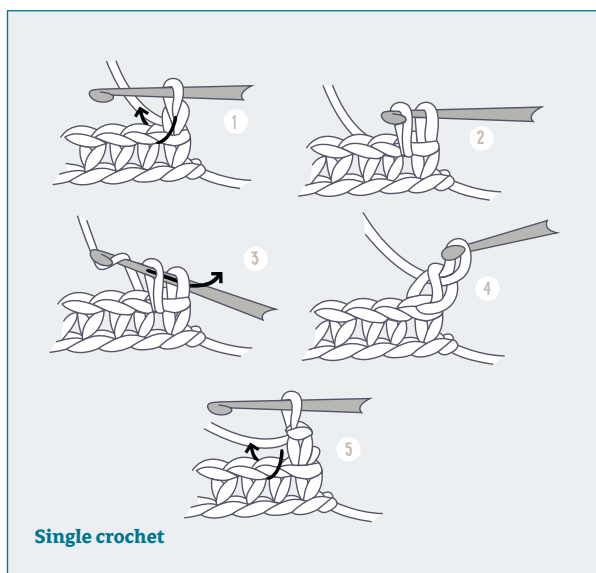

CHAIN (*abbreviation: ch*)

This stitch is the basis for many crochet patterns. If you're working in rows, your first row will be a series of chain stitches. Use the hook to draw the yarn through the loop (1) and pull the loop until tight (2). Wrap the yarn over the hook from back to front. Pull the hook, carrying the yarn, through the loop already on your hook (3). You have now completed one chain stitch. Repeat these steps as indicated in the pattern to create a foundation chain (4).

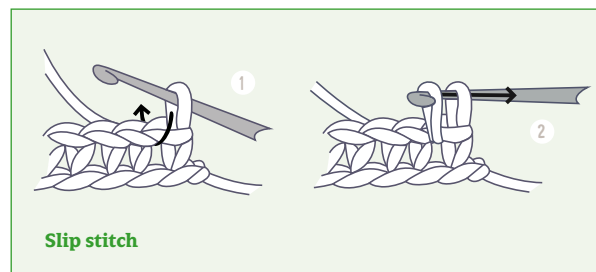

SINGLE CROCHET (*abbreviation: sc*)

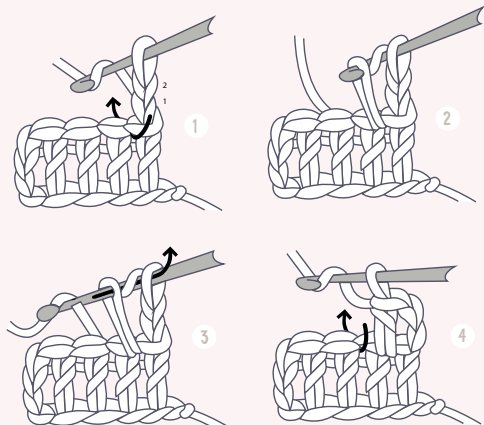

Single crochet is the stitch that will be most frequently used in this book. Insert the hook into the next stitch (1) and wrap the yarn over the hook. Pull the yarn through the stitch (2). You will see that there are now two loops on the hook. Wrap the yarn over the hook again and draw it through both loops at once (3). You have now completed one single crochet (4). Insert the hook into the next stitch to continue (5).

SLIP STITCH (*abbreviation: slst*)

A slip stitch is used to move across one or more stitches at once or to finish a piece. Insert your hook into the next stitch (1). Wrap the yarn over the hook and draw through both loops at once (2).

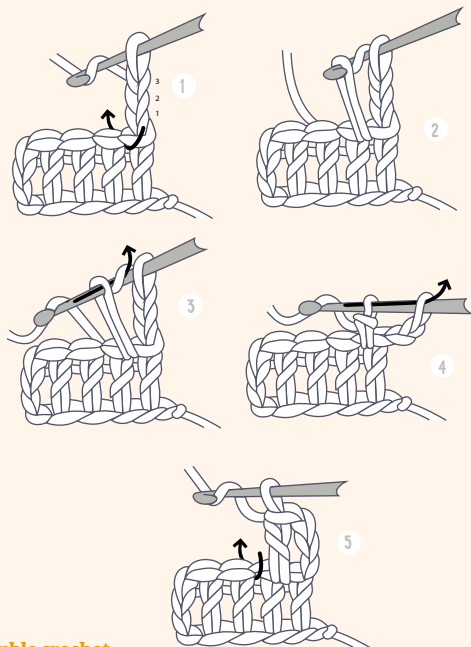

Half double crochet

HALF DOUBLE CROCHET (*abbreviation: hdc*)

When starting a new row of half double crochet, work two chain stitches to gain height. Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through all three loops on the hook (3). You have completed your first half double crochet. To continue, bring your yarn over the hook and insert it in the next stitch (4).

Double crochet

DOUBLE CROCHET (*abbreviation: dc*)

When starting a new row of double crochet, work three chain stitches to gain height. Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). You now have 2 loops on the hook. Wrap the yarn over the hook one last time and draw it through both loops on the hook (4). You have now completed one double crochet. To continue, bring your yarn over the hook and insert it in the next stitch (5).

TRIPLE OR TREBLE CROCHET (*abbreviation: tr*)

When starting a new row of double crochet, work four chain stitches to gain height. Bring your yarn over the hook twice before you insert it in the next stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). Repeat this last step twice (4 & 5). You have now completed one triple crochet stitch. Start the next triple crochet in the next stitch.

INVISIBLE DECREASE (*abbreviation: dec*)

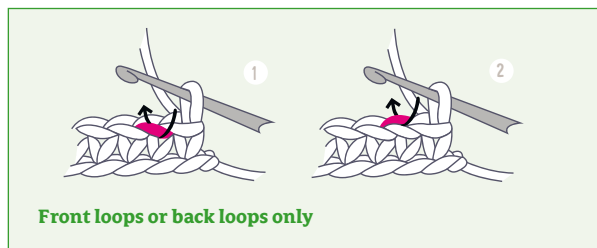

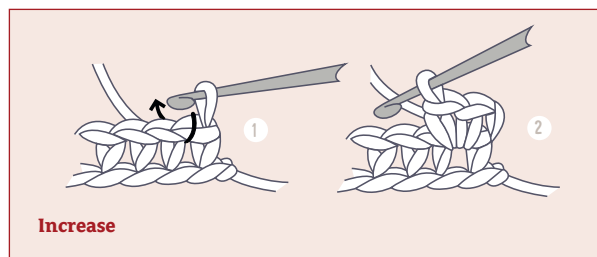

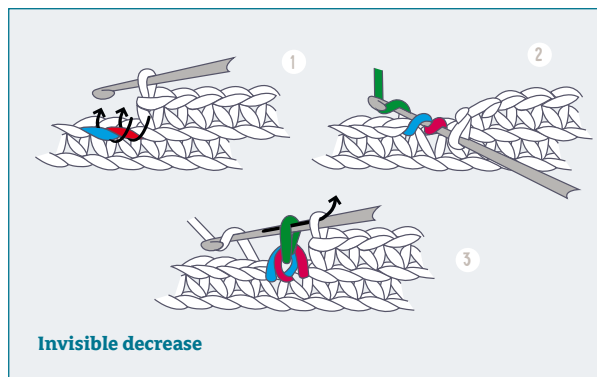

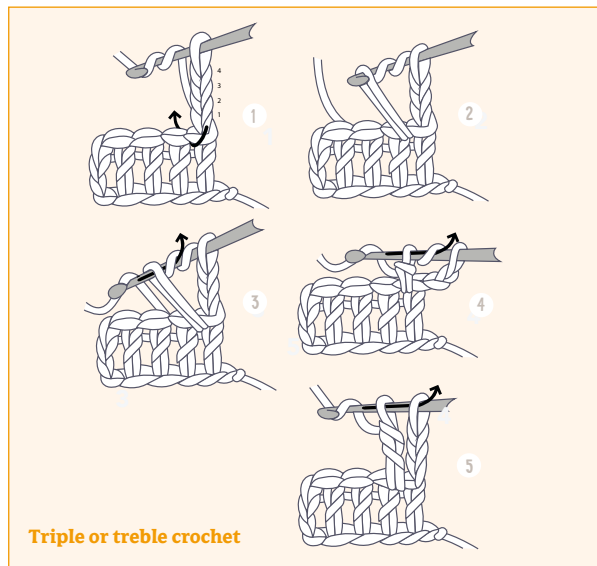

The standard method of decreasing can leave a small bump or gap. The invisible decrease is an alternative method of decreasing which will make your decrease stitch look much like the other stitches in the row, resulting in a smoother and more even crochet fabric. Insert the hook in the front loop of your first stitch. Now immediately insert your hook in the front loop of the second stitch (1). You now have three loops on your hook. Wrap the yarn over the hook and draw it through the first two loops on your hook (2). Wrap the yarn over again and draw it through the two loops remaining on your hook (3). You have now completed one invisible decrease.

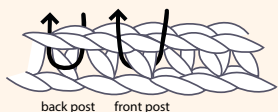

INCREASE (*abbreviation: inc*)

To increase you make two single crochet stitches in the next stitch.

FRONT LOOPS ONLY (*abbreviation: FLO*)
AND BACK LOOPS ONLY (*abbreviation: BLO*)

When making a crochet stitch, you end up with two loops at the top of the stitch, a front loop towards you (1) and a back loop (2). When asked to crochet FLO or BLO you make the same stitch but leave one loop untouched.

Back post or Front post single crochet

BACK POST OR FRONT POST SINGLE CROCHET

(abbreviation: *bpsc*, *fpsc*)

To make a back post or front post single crochet, insert the hook from right to left around the vertical post of the next stitch according to the picture. Wrap the yarn over the hook and draw up a loop. Finish the single crochet stitch as usual.

MAGIC RING

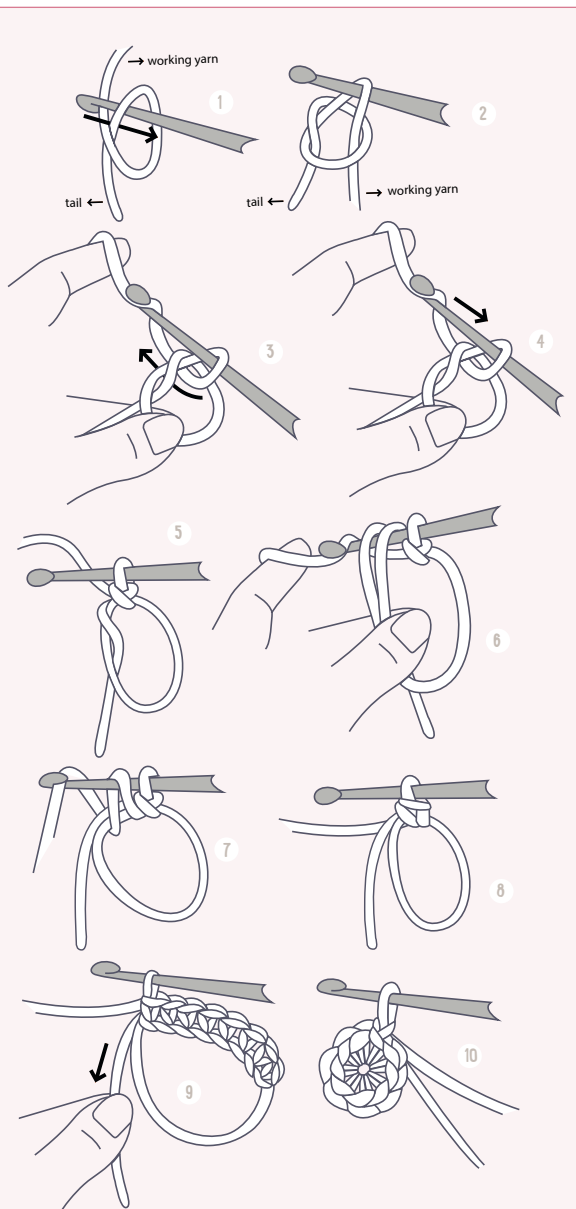

A magic ring is the ideal way to start crocheting in the round. You start by crocheting over an adjustable loop and finally pull the loop tight when you have finished the required number of stitches. The advantage of this method is that there's no hole left in the middle of your starting round.

Start with the yarn crossed to form a circle (1). Draw up a loop with your hook but don't pull it tight (2). Hold the circle with your index finger and thumb and wrap the working yarn over your middle finger (3). Make one chain stitch by wrapping the yarn over the hook and pulling it through the loop on your hook (4, 5). Now insert your hook into the loop and underneath the tail. Wrap the yarn over the hook and draw up a loop (6). Wrap the yarn over the hook again (7) and draw it through both loops on your hook. You have now completed your first single crochet stitch (8). Continue to crochet (repeating step 6, 7, 8) until you have the required number of stitches as mentioned in the pattern.

Now grab the yarn tail and pull to draw the center of the ring tightly closed (9, 10).

You can now begin your second round by crocheting into the first single crochet stitch of the magic ring. You can use a stitch marker to remember where you started.

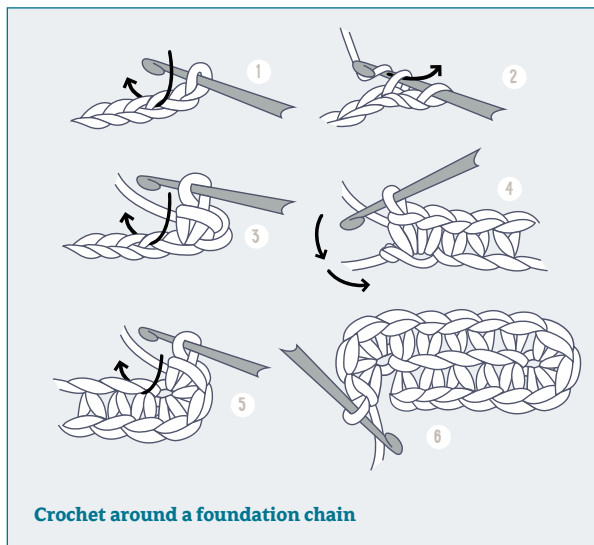

If you do not prefer this technique, you can start each piece using the following technique: ch 2, x sc into the second chain from the hook – where x is the number of sc stitches you would make in your magic ring.

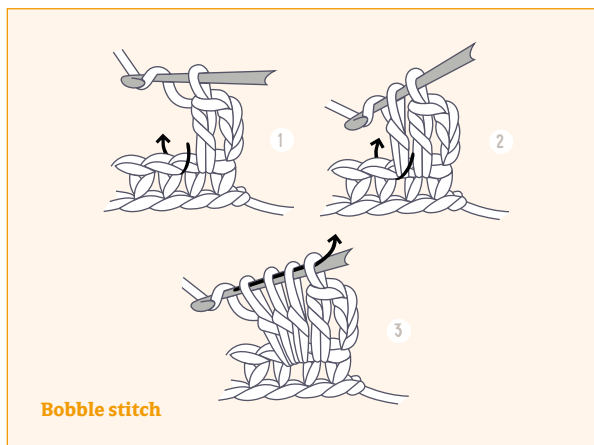

Magic ring

CROCHET AROUND A FOUNDATION CHAIN

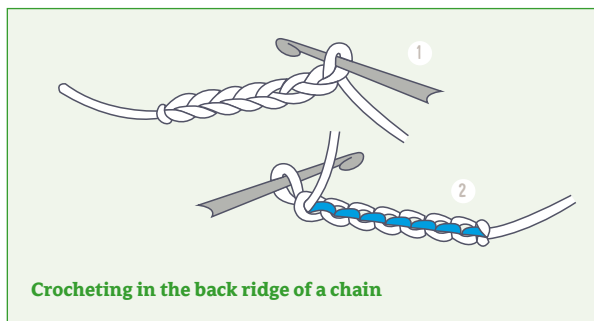

Some pieces start with an oval instead of a circle. You make an oval by crocheting around a foundation chain instead of crocheting into a magic ring. Crochet a foundation chain with as many chains as mentioned in the pattern. Start in second ch from your hook (1) and work a sc stitch in this chain stitch (2, 3). Work your crochet stitches into each chain across as mentioned in the pattern. The last stitch before turning is usually an increase stitch (4). Now, turn your work upside down to work into the underside of the chain stitches. You'll notice that only one loop is available, simply insert your crochet hook in this loop (5). Work your stitches into each chain across. When finished, your last stitch should be next to the first stitch you made (6). You can now continue working in spirals.

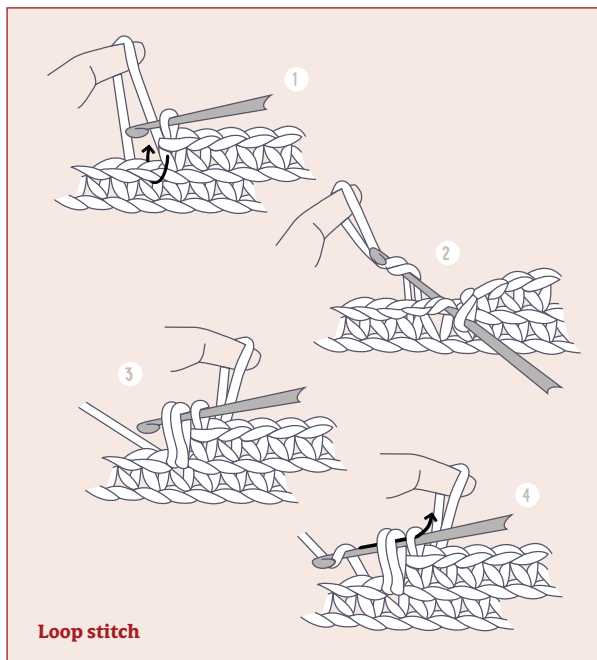

**BOBBLE STITCH**

The bobble stitch creates a soft dimensional bobble in your crochetwork. Think of it as a cluster of dc stitches worked in the same stitch. Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook. Wrap the yarn over the hook again and pull it through the first two loops on the hook. One half-closed double crochet is complete, and two loops remain on the hook (2). In the same stitch, repeat the preceding steps twice. You should have four loops on your hook. Wrap the yarn over your hook and draw the yarn through all four loops on the hook (3). One 3-dc-bobble-stitch is complete. Create a bobble stitch with as many dc stitches as indicated in the pattern.

**CROCHETING IN THE BACK RIDGE OF A CHAIN**

Usually you crochet in the front side of the chain, which looks like a series of interlocking V's (1). When you turn your chain, you'll see a small 'hump' on the back side of each stitch (2 - marked in blue). Insert your hook under this hump and continue as usual.

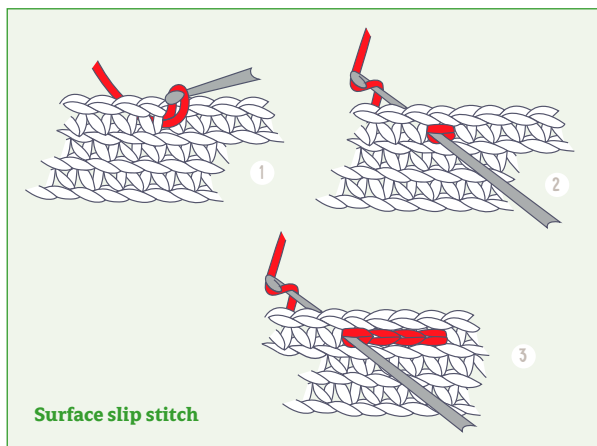

LOOP STITCH

Loop 1: Wrap a loop of yarn around your index finger (1). Insert your hook in the next stitch, grab both strands of the loop and draw them through the stitch (2). Make sure you draw this loop out to approx. 1.5" / 4 cm. You now have three loops on your hook (3). Now wrap your yarn around your hook and draw it through all three loops on your hook (4).

Loop 2: Make two loops as described above in the next stitch.

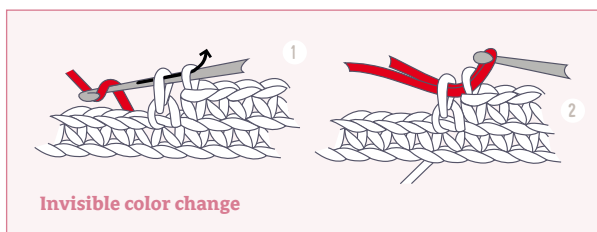

SURFACE SLIP STITCH

The surface slip stitch is an embellishment of slip stitches worked on top of the fabric of your crochetwork. Insert the hook from the right side through to the wrong side where you want your line of slip stitches to start, now wrap the yarn over the hook and draw it through the stitch (1). Insert the hook in the next stitch, wrap the yarn over the hook (2) and pull it through the stitch and the loop on the hook. This is the start of your line of surface slip stitches. Repeat this to the end of your crochetwork or in any shape you like (3).

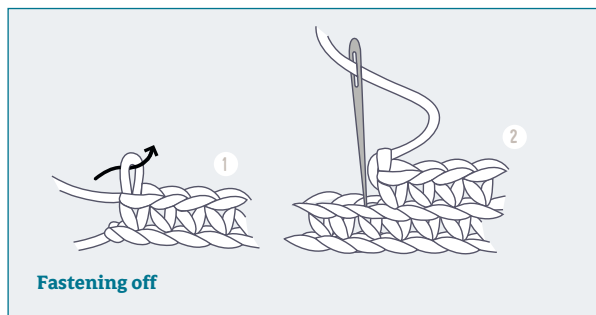

INVISIBLE COLOR CHANGE

When you want to switch from one color to the next, you work to within two stitches before a color change. Make the next stitch as usual, but don't pull the final loop through (1). Instead, wrap the new color of yarn around your hook and pull it through the remaining loops (2). To make a neat color change, you can make the first stitch in the new color a slip stitch instead of a single crochet. Don't pull the slip stitch too tight or it will be difficult to crochet into in the next round. Tie the loose tails in a knot and leave them on the inside.

FASTENING OFF

When you've finished crocheting, cut the yarn a couple of inches / cm from your last stitch. Pull the yarn through the last loop until it is all the way through (1). You now have a finished knot. Thread the long tail through a tapestry needle and insert your tapestry needle through the back loop of the next stitch (2). This way the finishing knot will remain invisible in your finished piece. You can use this piece of yarn to continue sewing the body pieces together.

**JOINING ALL PARTS**

First, pin together the parts that you want to sew to one another, so you can evaluate the results and adjust if necessary. If possible, use the leftover yarn tail from where you fastened off, or use a new length of the same yarn color from one of the pieces that you want to join.

When the different pieces are open: position the piece on the body and sew all around it, going through the front stitches of both the extremity and the body.

When the opening of the different pieces is sewn closed before attaching them to the body, you line up the stitches of one side with the other side and sew through the front loop of one side and the back loop of the other side. Use the same color of yarn as the pieces you want to join together.

Always make sure pieces are securely attached so that they can't be pulled off. Make small, neat stitches and try to make them show as little as possible.

SKILL LEVEL

easy (★), intermediate (★★), advanced (★★★)
Every pattern is marked with a skill level to indicate how easy they are to make. If this is your first time making amigurumi, it's best to start with an easy pattern and work up to the intermediate and advanced ones.

PATTERN STRUCTURE

All patterns in this book are worked in continuous spirals, not in joined rounds. Crocheting in spirals can

be confusing since there's no clear indication of where a new round begins and the previous one ends. To keep track of the rounds, you can mark the end of a round with a stitch marker or safety pin. After crocheting the next round, you should end up right above your stitch marker. Move your stitch marker at the end of each round to keep track of where you are.

At the beginning of each line you will find 'Rnd + a number' to indicate which round you are in. If a round is repeated, you'll read 'Rnd 9 – 12', for example. You then repeat this round four times, crocheting the stitches in round 9, 10, 11 and 12.

Although we usually crochet in rounds, occasionally it happens that we switch to rows, going back and forth instead of working in continuous spirals. When we switch to rows, it will be indicated with 'Row + a number'.

At the end of each line you will find the number of stitches you should have in square brackets, for example [9]. When in doubt, take a moment to check your stitch count.

When parts of the instructions repeat throughout the round, we place them between rounded brackets, followed by the number of times this part should be worked. We do this to shorten the pattern and make it less cluttered.

BASIC MATERIALS**YARN**

For every pattern in this book we've listed the materials

used to create that design, including the yarn thickness used by the designer. Don't feel tied to the choices of yarn thickness though: any weight of cotton, acrylic or wool can be used as a substitute, provided you use the right crochet hook accordingly.

The patterns don't give the yarn quantity. The amounts are rather small and will vary according to how loosely or tightly you crochet. You could use some of the remnants from other projects or start with a new ball of yarn. One or two balls per color is usually enough.

CROCHET HOOKS

Not only yarn, but hooks as well come in different sorts and sizes. Bigger hooks make bigger stitches than smaller ones. It is important to match the right hook size with the right weight of yarn. In the table below you will find the standard hook size recommended for each yarn weight. For amigurumi, however, you generally use a hook two or three sizes smaller than what is recommended for your yarn. The crochet fabric should be quite tight, without any gaps through which the stuffing can escape. Using a smaller hook makes it easier to achieve this.

Hooks are usually made from aluminum or steel.

Metal hooks tend to slip between the stitches more easily. Preferably choose a crochet hook with a rubber or ergonomic handle.

STITCH MARKER

A stitch marker is a small clip made of metal or plastic. It's a simple tool to mark your starting point and give you the assurance that you've made the right number of stitches in each round. With my stitch marker, I always mark the last stitch of a round.

STUFFING

For the filling, polyester fiberfill is advised. You can purchase this at any craft shop. It is inexpensive, washable and non-allergenic. Be careful not to overstuff your amigurumi as the stuffing might stretch the fabric and show through.

FACIAL FEATURES

For some patterns safety eyes are used. These are widely available in craft shops. Be careful when you apply safety eyes: once you put the washer on, you won't be able to pull it off again, so be very careful that the post is where you want it to be before attaching the washer.

Alternatively, the features can be embroidered, which is recommended if you're crocheting for children under the age of three. For embroidery, a tapestry needle with a rounded tip is used.

ASSEMBLY

- Sew the medium antler branch over rounds 17-22 of the main antler. Note that the marked stitch at round 11 of the main antler is the top side of the antler (picture 4).
- Sew the small antler branch over rounds 25-29 of the main antler (picture 4).
- Sew the main antler onto each side of the head, over rounds 29-33. The inside of each main antler should be 20 stitches apart if you count the stitches between rounds 30 and 31 of the head.
- Pin the head to the body. You can tilt it slightly to give Monty a cuter look. The opening of the body should fall over rounds 20-28 of the head (picture 5). Sew the head on.

- Sew the arms between rounds 35 and 36 of the body. The arms should be 8 stitches apart in the front with the hand curving inwards towards the body.
- Sew the ears with the flat edge over rounds 26-29 of the head (picture 6). The front of the ears should be 23 stitches apart.
- Sew the legs to either side of the body. Sew around the top of the curve of the leg (picture 7). To secure the legs against the body, sew the inner side of each leg to the body by making stitches in a circle. Make sure you only make stitches on the inside of the leg, so as not to have any stitches show on the outside of the leg. The top side of the thigh should fall between rounds 16 and 17 of the body. The back side of the leg should fall behind the midline of the body (picture 7).
- Sew the flat edge of the tail between rounds 13 and 14 of the back, between the legs (picture 7).
- Sew the short edges of the bow together using whip stitches. The side where you joined the edges will be the side facing the body.
- Wrap the center of the bow around the bow such that it covers the seam. Sew the ends together on the back side of the bow. Pass a few stitches through the bow itself to prevent the center from sliding around. Sew the bow to Monty's body, below his head.

MANE AND TAIL

Cut pieces of yarn about 2,5 times longer than you want the mane to be, white pieces for the white stripes and black pieces for the black stripes. Insert the hook under a stitch. Fold a piece of yarn in half, grab the center with your hook (picture 9) and draw up a loop. Use your hook to draw both yarn tails through the loop (picture 10). Grab the yarn tails and draw the loop tight. Trim the mane if necessary (picture 11). Keep attaching the mane to the head, making it about three stitches wide. Go from row 16 of the head straight around the head and about 8 rows down the back to row 26 on the body. Attach longer black yarn pieces to the first 2 rounds at the tip of the tail in the same way.

ASSEMBLY

– Stuff the beak lightly and push it into a triangular

shape. Align the top of the beak to rest on round 4 of the head and sew it on firmly.

- Using white yarn, embroider 3 little stitches to form a highlight on each eye.
- Place the crochet eyes on the head so the centers rest on the stitches marked earlier. Sew the eyelids on, making sure to curve them around the eyes.
- Sew the head to the body along the neck edge.
- Use orange yarn to shape the foot. We will be making 2 stitches in between the 3 toes. With a needle, stitch between the first 2 toes, into round 4 of the foot, and make a long stitch, exiting vertically between rounds 12 and 13. Then stitch again in the same place, looping the yarn around the foot and pulling it tightly. Repeat this stitch a few times and fasten off securely. Repeat this between the other 2 toes (picture 8). Repeat for the second foot.
- Take your long doll needle and a long length of strong yarn and stitch through the first leg at about 0.4" / 1 cm from the top, through the body between rounds 9 and 10 and into the second leg at about 0.4" / 1 cm from the top, then stitch back through the second leg, the body and the first leg in the same place and pull firmly. Repeat these stitches back and forth through the legs and body until the legs are securely attached but still movable, and fasten off.
- Pin the wings to either side of the body, with each of the longest feathers at the top of the wing and the smallest feathers at the bottom. Sew them to the body, along the curve at the top of the wing, leaving the rest of the wing free and unattached.

This will bring you back to the point from which you branched off with the chain. Continue into the round, make a sc into the same stitch from which you

branched off. (*Change to warm brown yarn.*) Sc in next 12 st [47]

Insert the safety eyes. To position them so they are looking forward, you need to approximate the position of where the body will be. Take the chain (which is basically the backbone of the body) and pull it straight towards the top of the head ([picture 1](#)). To extend the chain, you can use an extra bit of yarn – pull it all the way around to the other side and this will approximate the midline of the face ([picture 2](#)). Place the eyes symmetrically to either side of this yarn midline. The eyes are placed between rounds 13 and 14, with an inter-space of 11 stitches ([picture 3](#)).

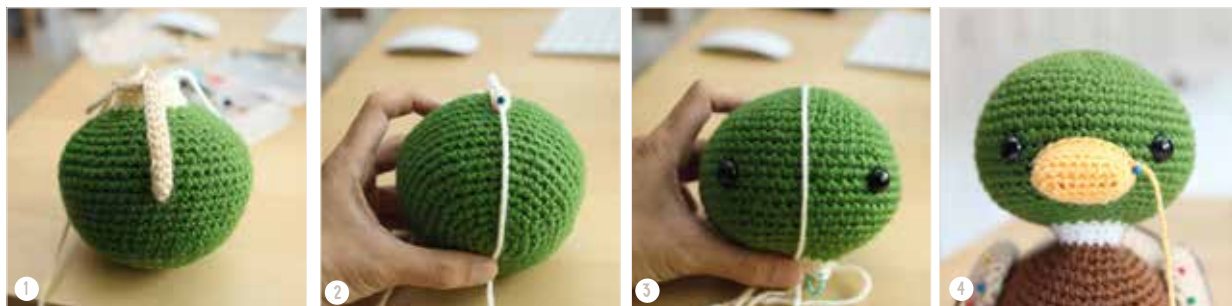

In the next rounds, we continue working in warm brown and beige yarn. Stitches marked in red are crocheted in warm brown yarn, the others are crocheted in beige yarn.

Stuff the head. Insert the safety eyes. To position them so they are looking forward, you need to approximate the position of where the body will be. Pull the yarn so that there is a big long loop (picture 5). Pull the loop

of yarn straight down towards the top of the head and then over to the other side. This gives you the approximate midline of the head as it is looking straight ahead (picture 6). Place the eyes symmetrically using this yarn midline as your guide. The eyes are placed between rounds 9 and 10, with an interspace of 6 stitches (pictures 7-8).

MANE (*with 4 mm hook, in dark brown yarn*)

For the mane, we will be branching off in chains to create hair strands. When working into these chains, you need to work into the bump (loop) on the back of the chain, instead of the front and back

loops ([instructions on page 12](#)).

Following instructions for short, medium and long strands will be implemented in the pattern of the mane. We refer back to them when needed.

Short strand: ch 11, start in second ch from hook, slst in next st, sc in next 9 ch [11 ch, 10 st]

Medium strand: ch 16, start in second ch from hook, slst in next st, sc in next 14 ch [16 ch, 15 st]

Long strand: ch 21, start in second ch from hook, slst in next st, sc in next 19 ch [21 ch, 20 st]

Ch 24, turn to work into the back of the chain.

Row 1: start 6 sc in second ch from hook, sc in next 22 ch, place a stitch marker in the back loop of the last stitch, ch 1, turn [28]

When working the stitches in between the strands on Row 2, we will only be working into the back loops, this will leave a row of open front loops to work row 3 into ([picture 1](#)).

Row 2: working in the BLO between strands; sc in next st, make 1 short strand, sc in next 2 st, (make 1 medium strand, sc in next 2 st) repeat 2 times (make 1 long strand, sc in next 2 st) repeat 7 times, sc in next st, (make 1 medium strand, sc in next st) repeat 3 times, sc in next st, (make 1 medium strand, sc in next st) repeat 2 times. [28 + 15 chain strands]
Slst to foundation chain and fasten off, leaving a tail for sewing. We will now work row 3 in the open front

loops from row 1 (picture 2). Pull up a loop of dark brown yarn in the stitch marked earlier on the mane.

Row 3: make 1 short strand and sc back into the marked stitch on row 1, sc in next st, (make 1 medium strand, sc in next 2 st) repeat 2 times, (make 1 long strand, sc in next 2 st) repeat 7 times, sc in next 2 st, (make 1 medium strand, sc in next st) repeat 3 times, sc in next st, (make 1 medium strand, sc in next st) repeat 2 times, slst in next st [28 + 15 chain strands] Fasten off and weave in the yarn end (picture 3).

Fasten off, leaving a yarn tail. Using your yarn needle, weave the yarn tail through the front loop of each remaining stitch and pull it tight to close. Weave in the yarn end.

TAIL (with size G-6 / 4 mm hook, in dark brown yarn)

For the tail, we will be branching off in chains to create hair strands. When working into these chains, you need to work into the bump (loop) on the back of the chain instead of the front and back loops (instructions on page 12). Leave a long starting yarn tail.

Rnd 1: start 6 sc in a magic ring [6]

Rnd 2: BLO sc in all 6 st [6]

Rnd 3: (make 1 long strand, sc in next st of tail base) repeat 6 times [6 + 6 chains]

Slst in next st. Fasten off and weave in the yarn end.

Pull up a loop of dark brown yarn in the leftover front loop of round 1 and continue to work the next round into the 6 leftover front loops.

Rnd 4: (make 1 long strand, slst in next open loop of tail base) repeat 6 times [6 + 6 chains]

Slst in next st. Fasten off and weave in the yarn end.

ASSEMBLY

- Sew the eyelids on, making sure you curve them around the eyes.
- Flatten the ears, making sure that the yarn tail is on the edge of the fold. Fold one ear in half along the open edge to form a leaf shape and sew it closed. Fold the second ear in half in the opposite direction to the first, so that the ears mirror each other in shape, then sew it closed. Place both ears on top of the head with the ear tips curving inward toward the middle. Pin the ears 6 stitches apart with the centers in line with the nostrils, so that the front edges of the ears rest on round 20 of the head.
- Stitch the head on to the body along the neck edge.
- Take your long doll needle and a long length of strong yarn and stitch through the first leg at about 0.5" / 1 cm from the top, through the body between rounds 9 and 10 and into the second leg at about 0.5" / 1 cm from the top, then stitch back through the second leg, then the body and the first leg in the same place and pull firmly. Repeat these stitches back and forth through the legs and body until the legs are securely attached but still movable, and fasten off. Repeat this process for the arms, attaching them in the same way between rounds 22 and 23, below the neck.
- Place the mane on top of the head, so that the circular end rests in front of the ears to form the fringe. The shorter strands of the mane should rest in front of the ears, with the longer strands behind them. Adjust the center of the fringe so it lies along round 17 in the center of the forehead, with the mane draping vertically down the back of the head. Stitch around the base of the fringe, then sew along the mane, attaching it centrally down the back of the head to the neck and down the middle of the back.
- Sew the tail to the lower back. Weave in any loose ends.
