In this book you will find

GERTY THE GECKO (created by Moji Moji Design Janine Holmes) Gerty is a house gecko so don't be surprised if you find her quietly minding her own business halfway up your wall. She's naturally quite shy but if you're lucky she might give you a little wave and a cheeky grin to show that she appreciates you sharing your home with her.

24

TOCO THE TOUCAN (created by Airali Design Ilaria Caliri) During his puberty, Toco didn't like that long clumsy beak. But when he looks in the mirror now, he is proud of his colorful look. He aspires a career as an influencer, he seems to be doing pretty well. Toucans are besides llamas the next big thing!

29

HILDA THE HIGHLAND COW (created by Moji Moji Design Janine Holmes) It can get very cold up in the Scottish Highlands but because of her magnificent thick coat of long ginger hair, that's never a problem for Hilda. She's always being asked to star in shampoo commercials but, as proud as she is of her flowing locks, she's much too busy chewing the cud and ruminating with friends to take time out to be a supermodel.

BOBO THE PANDA (created by DIY Fluffies) There you have Bobo, the friendly panda is fond of bamboo ice cream and likes to delve into thick books. He loves to be read a bedtime story just before he goes to sleep. Maybe that's why he takes a nap so often?

34

38

PAPI THE SAILOR PUG (created by Sundot Attack) After a long voyage, Papi is a bit shaky when his feet touch land. But after a dance in the bar, he quickly forgets that shaky start. He loves to be able to run again, dig up a bone and pee on a tree.

44

ANGIE THE ANGLERFISH (created by Sundot Attack) With her big mouth and long, sharp teeth, Angie doesn't seem to be the most amiable conversation partner. But don't let her special appearance fool you, she can make a tête à tête very cozy by lighting the light on her head and humming a tune.

CHLOE THE SWAN (created by Rnata) Besides being a synchronized swimming champion, Chloe is also a poet and passionate flamenco dancer. After a performance, she retreats to the pond to relax.

49

KORA THE RED PANDA AND KIT THE RACCOON *(created by Lex In Stitches)*

Kit and Kora were born oceans apart but are now inseparable. These best friends share everything, including their extensive stripy jumper collection.

63

POLLY THE PIGLET *(created by Patchwork Moose Kate E. Hancock)* Polly the piglet likes chasing butterflies and quantum physics. She's dreaming of becoming a perfumer when she grows up, in the hope that if she creates the perfect fragrance her butterfly friends will be easier to catch.

SHEENA THE SHEEP *(Moji Moji Design Janine Holmes)* Sheena the sheep loves leafing through glossy magazines looking at the latest fashions. Even though there's not much need for woolly sweaters or fancy hats when you're blessed with such a fabulously fluffy fleece, Sheena always makes sure that her scarf matches her flower hair slide just so people know she's got an eye for style.

69

73

PERRY THE OTTER *(created by Irene Strange)* Every summer Perry and Peter the otters swim out into the wild seas in search of new adventures. What can be better than fishing for clams, surfing the tides and sleeping under the stars with your best friend!

MOE THE PENGUIN *(created by YarnWave)* When Moe was still a little boy, his grandmother crocheted a dashing sweater for him because he was always shivering after a swim. He thought it was so wonderful to distinguish himself from the other penguins, that he has now created a whole collection of sweaters.

77

83

PHIL THE FOX *(created by LittleAquaGirl)* Phil is a dreamer. During his daily siesta, he lets his mind wander and he fantasizes about cunning tricks and other mischief. But when he opens his eyes again, he is as kind as a lamb.

OATLY THE HORSE *(created by Crochetbykim)* Oatly was a racing horse in his young years, he surprised friend and foe with his top times and was a real star. Now that he is retired, he enjoys the peace on the farm. Although he feels flattered that he is occasionally recognized by an enthusiastic fan.

Stitches & info

BASIC STITCHES

If this is your first time making amigurumi, you might find it useful to have a tutorial at hand. With the stitches explained on the following pages you can make all of the amigurumi in this book. We suggest you practice the basic stitches before you start making one of the designs. This will help you to read the patterns and abbreviations more comfortably, without having to browse back to these pages.

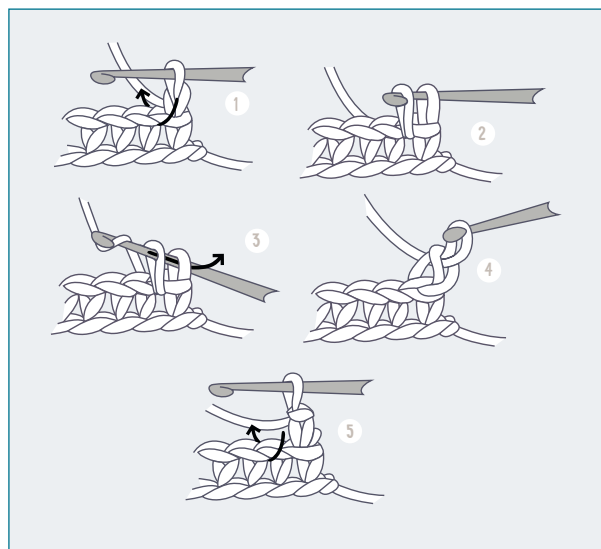

STITCH TUTORIAL VIDEOS

With each stitch explanation we have included a URL and QR code that will take you to our online stitch tutorial video, showing the technique step by step to help you master it even more quickly. Simply follow the link or scan the QR code with your smartphone. Phones with iOS will scan the QR code automatically in camera mode. For phones with Android you may need to install a QR Reader app first.

CHAIN (*abbreviation: ch*)

This stitch is the basis for many crochet patterns. If you're working in rows, your first row will be a series of chain stitches. Use the hook to draw the yarn through the loop (1) and pull the loop until tight (2). Wrap the yarn over the hook from back to front. Pull the hook, carrying the yarn, through the loop already on your hook (3). You have now completed one chain stitch. Repeat these steps as indicated in the pattern to create a foundation chain (4).

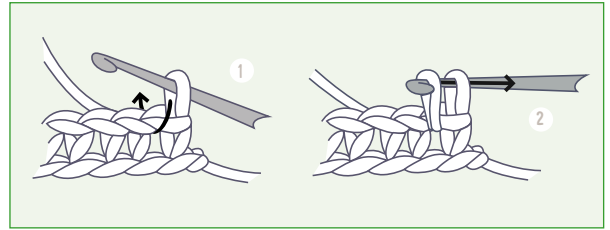

SINGLE CROCHET (*abbreviation: sc*)

Single crochet is the stitch that will be most frequently used in this book. Insert the hook into the next stitch (1) and wrap the yarn over the hook. Pull the yarn through the stitch (2). You will see that there are now two loops on the hook. Wrap the yarn over the hook again and draw it through both loops at once (3). You have now completed one single crochet (4). Insert the hook into the next stitch to continue (5).

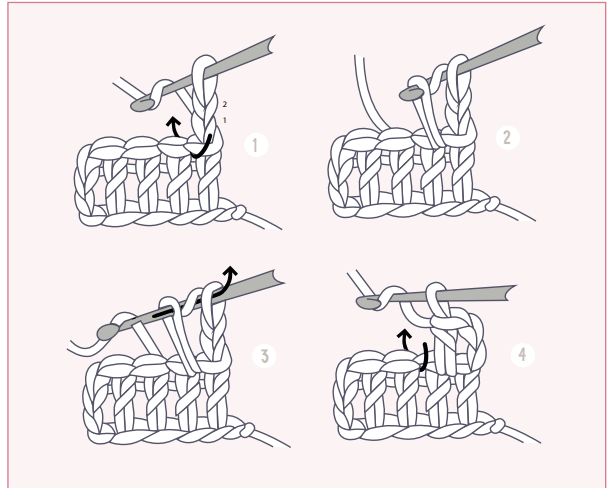

SLIP STITCH (*abbreviation: slst*)

A slip stitch is used to move across one or more stitches at once or to finish a piece. Insert your hook into the next stitch (1). Wrap the yarn over the hook and draw through both loops at once (2).

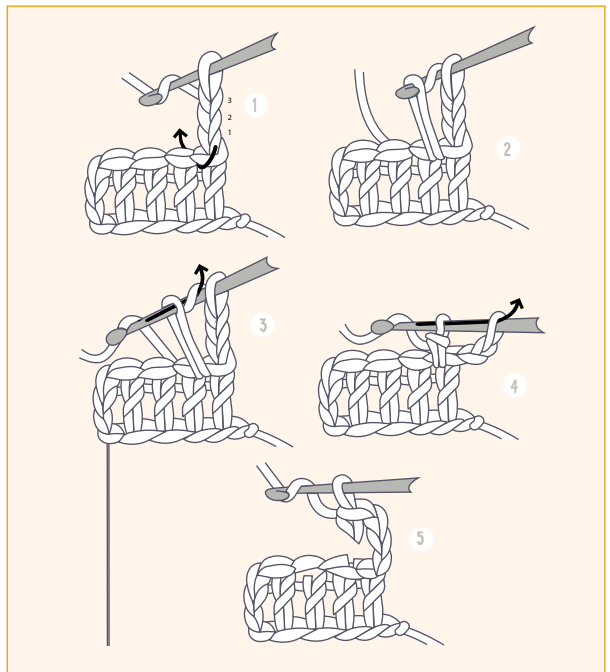

HALF DOUBLE CROCHET (*abbreviation: hdc*)

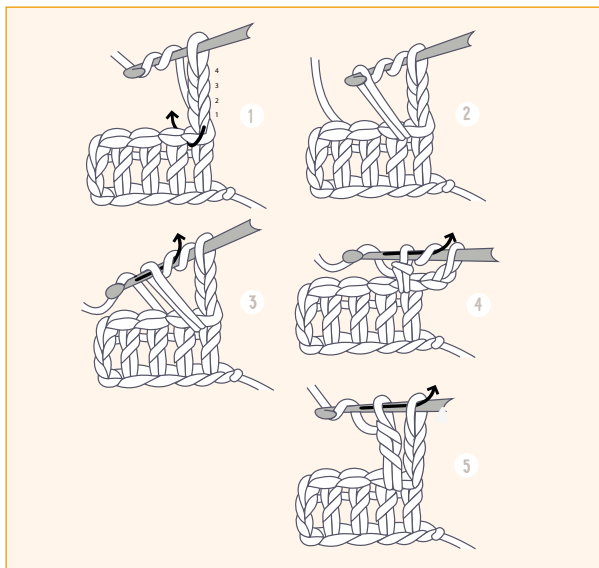

(When starting a new row of half double crochet, work two chain stitches to gain height.) Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through all three loops on the hook (3). You have completed your first half double crochet. To continue, bring your yarn over the hook and insert it in the next stitch (4).

DOUBLE CROCHET (*abbreviation: dc*)

(When starting a new row of double crochet, work three chain stitches to gain height.) Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). You now have two loops on the hook. Wrap the yarn over the hook one last time and draw it through both loops on the hook (4). You have now completed one double crochet. To continue, bring your yarn over the hook and insert it in the next stitch (5).

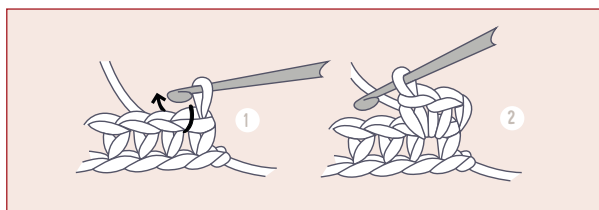

TRIPLE CROCHET (*abbreviation: tr*)

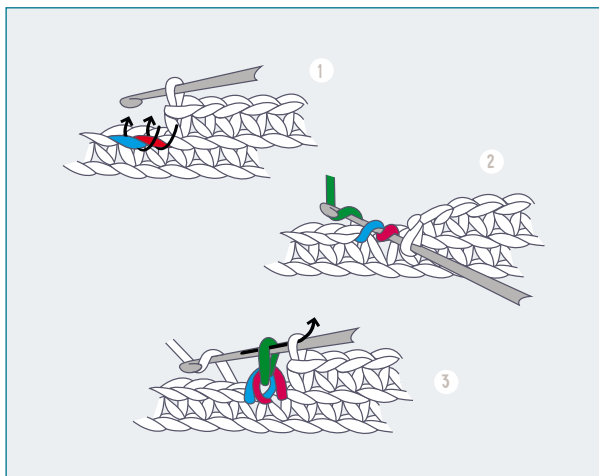

(When starting a new row of triple crochet, work four chain stitches to gain height.)

Bring your yarn over the hook twice before you insert it in the next stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). Repeat this last step twice (4, 5). You have now completed one triple crochet stitch. Start the next triple crochet in the next stitch.

INCREASE (*abbreviation: inc*)

To increase you make two single crochet stitches in the next stitch.

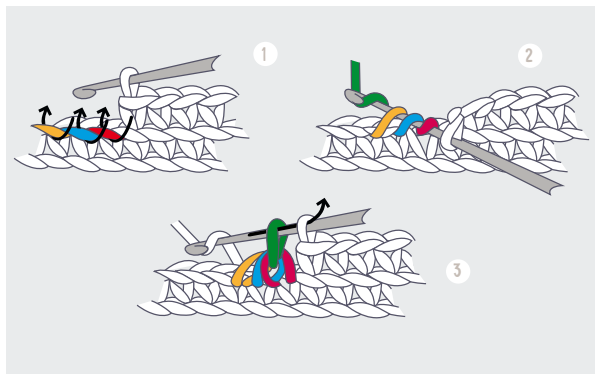

INVISIBLE DECREASE (*abbreviation: dec*)

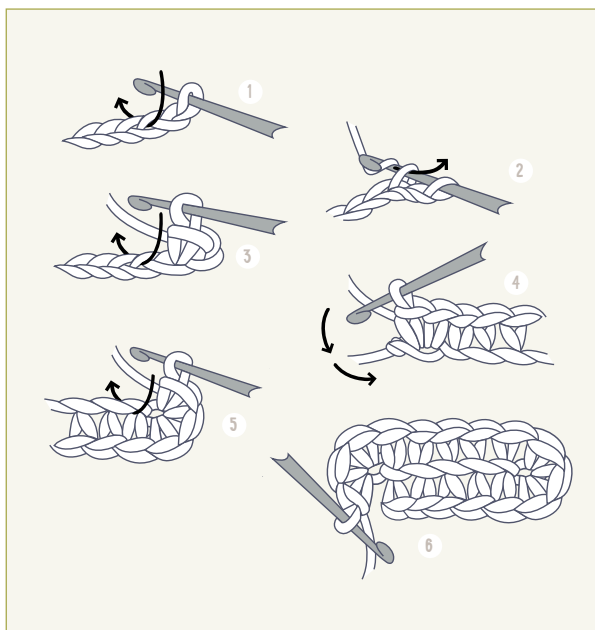

The invisible decrease is a method which will make your decrease stitch look much like the other stitches in the row, resulting in a smooth and even crochet fabric. Insert the hook in the front loop of your first stitch. Now immediately insert your hook in the front loop of the second stitch (1). You now have three loops on your hook. Wrap the yarn over the hook and draw it through the first two loops on your hook (2). Wrap the yarn over again and draw it through the two loops remaining on your hook (3). You have now completed one invisible decrease.

INVISIBLY DECREASE 3 STITCHES**AT ONCE** (*abbreviation: sc3tog*)

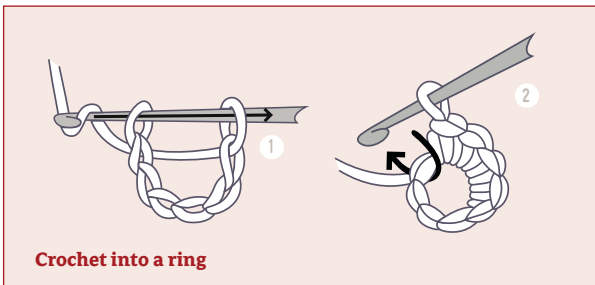

Insert the hook under the front loop only of the next three stitches (1). This gives you four loops on the hook (2). Wrap the yarn over the hook and draw it through the first three loops on your hook. Wrap the yarn over the hook again and pull through the remaining two loops on the hook (3). You have now completed one sc3tog.

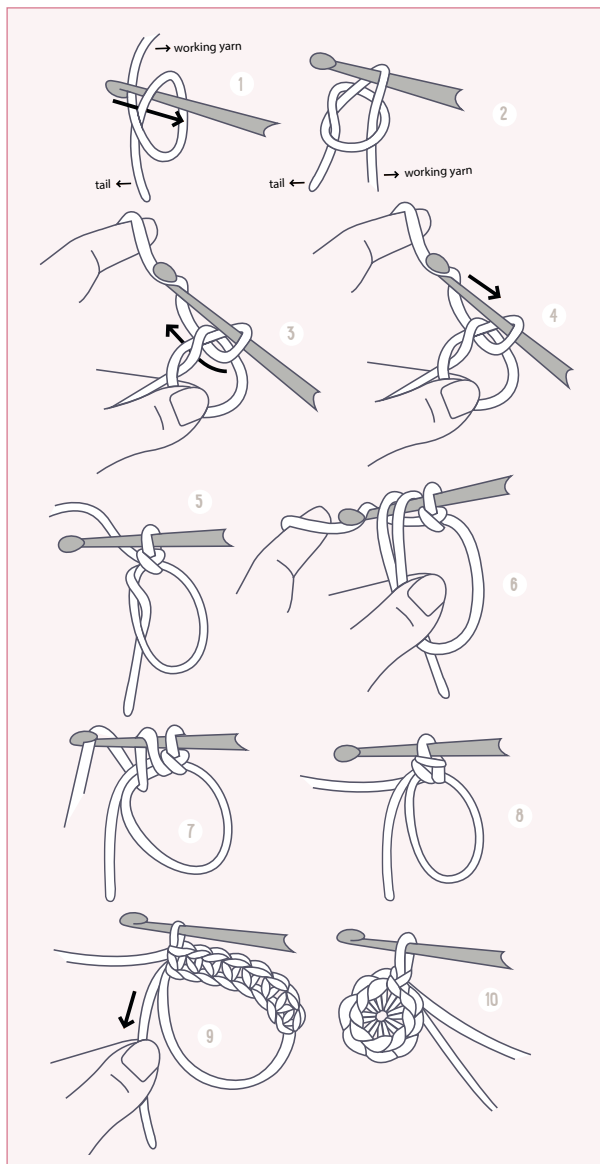

**CROCHET AROUND A FOUNDATION CHAIN**

Some pieces start with an oval instead of a circle. You make an oval by crocheting around a foundation chain. Crochet a foundation chain with as many chains as mentioned in the pattern. Skip the first chain on the hook (1) and work a sc stitch in the next chain stitch (2, 3). Work your crochet stitches into each chain across as mentioned in the pattern. The last stitch before turning is usually an increase stitch (4). Now, turn your work upside down to work into the underside of the chain stitches. You'll notice that only one loop is available, simply insert your crochet hook in this loop (5). Work your stitches into each chain across. When finished, your last stitch should be next to the first stitch you made (6). You can now continue working in spirals.

**CROCHET INTO A RING**

When you want a center ring that is open, you start with a series of chain stitches and close with a slip stitch in the first chain to make a ring (1). Insert your hook into the center of the ring, instead of into the chain stitch (2) and complete the stitch in the usual way. Follow the pattern instructions to determine how many stitches to work into the ring.

MAGIC RING

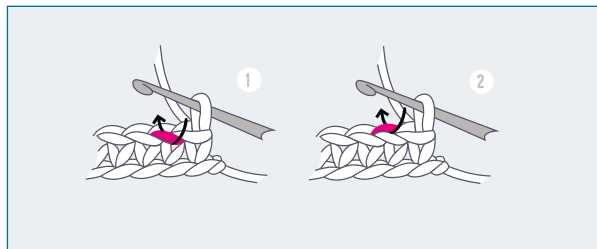

A magic ring is the ideal way to start crocheting in the round. You start by crocheting over an adjustable loop and finally pull the loop tight when you have finished the required number of stitches. The advantage of this method is that there's no hole left in the middle of your starting round.

Start with the yarn crossed to form a circle (1). Draw up a loop with your hook but don't pull it tight (2). Hold the circle with your index finger and thumb and wrap the working yarn over your middle finger (3). Make one chain stitch by wrapping the yarn over the hook and pulling it through the loop on your hook (4, 5). Now insert your hook into the loop and underneath the tail. Wrap the yarn over the hook and draw up a loop (6). Wrap the yarn over the hook again (7) and draw it through both loops on your hook. You have now completed your first single crochet stitch (8). Continue to crochet (repeating step 6, 7, 8) until you have the required number of stitches as mentioned in the pattern. Now grab the yarn tail and pull to draw the center of the ring tightly closed (9, 10). You can now begin your second round by crocheting into the first single crochet stitch of the magic ring. You can use a stitch marker to remember where you started.

If you don't prefer this technique, you can start each piece using the following technique: ch 2, x sc into the second chain from the hook – where x is the number of sc stitches you would make in your magic ring.

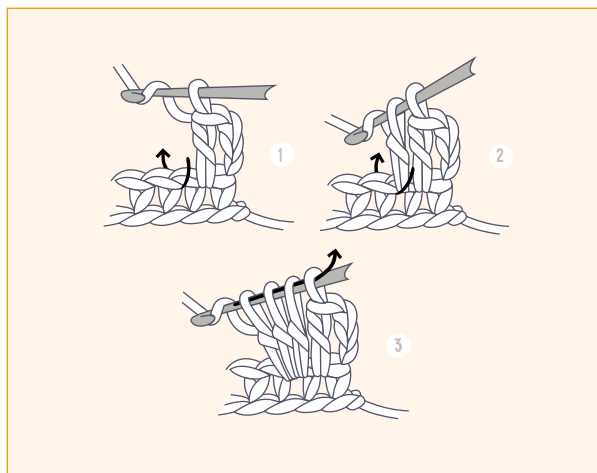

FRONT LOOPS ONLY (*abbreviation: FLO*)
AND BACK LOOPS ONLY (*abbreviation: BLO*)

When making a crochet stitch, you end up with two loops at the top of the stitch, a front loop towards you (1) and a back loop (2). When asked to crochet FLO or BLO you make the same stitch but leave one loop untouched.

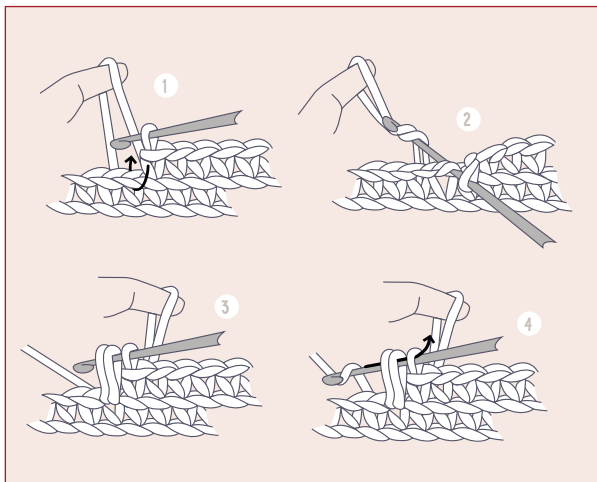

BOBBLE STITCH

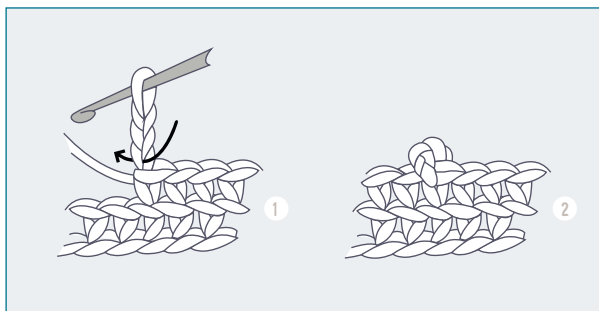

The bobble stitch creates a soft dimensional bobble. Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook. Wrap the yarn over the hook again and pull it through the first two loops on the hook. One half-closed double crochet is complete, and two loops remain on the hook (2). In the same stitch, repeat the preceding steps twice. You should have four loops on your hook. Wrap the yarn over your hook and draw the yarn through all loops on the hook (3). One 3-dc-bobble-stitch is complete. Create a bobble stitch with as many dc stitches as indicated in the pattern.

LOOP STITCH

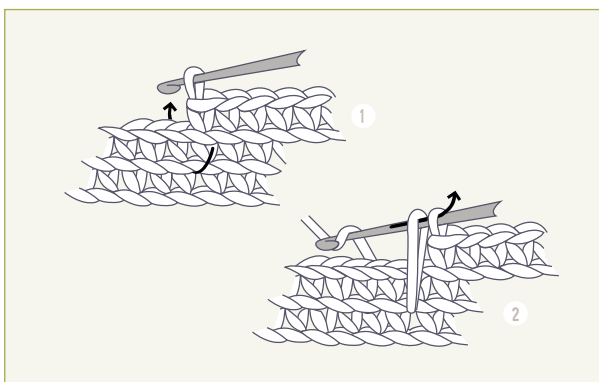

Loop 1: Wrap a loop of yarn around your index finger (1). Insert your hook in the next stitch, grab both strands of the loop and draw them through the stitch (2). Make sure you draw this loop out to approx. 1.5" / 4 cm. You now have three loops on your hook (3). Now wrap your yarn around your hook and draw it through all three loops on your hook (4).

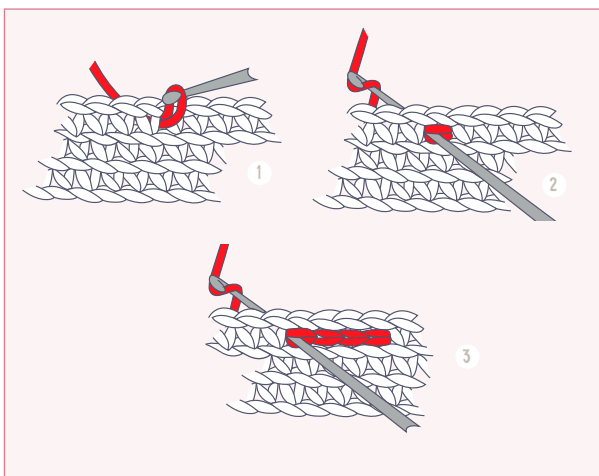

PICOT STITCH

Make 3 chain stitches. Insert your hook in the first chain stitch you made (1), wrap the yarn around your hook and draw it through both loops on the hook. One picot stitch is complete (2).

SPIKE STITCH

Instead of working into the two loops of the next stitch, work into the corresponding stitch in the round below (1). Wrap the yarn over the hook and draw it through the stitch. You now have two loops on your hook. Wrap the yarn over the hook once more and pull it through both loops on your hook (2). You have now completed one spike stitch.

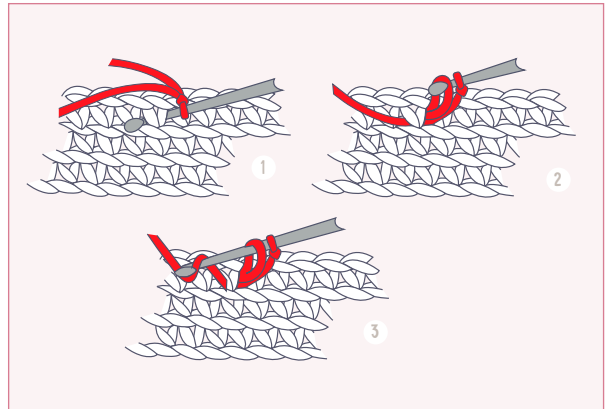

SURFACE SLIP STITCH

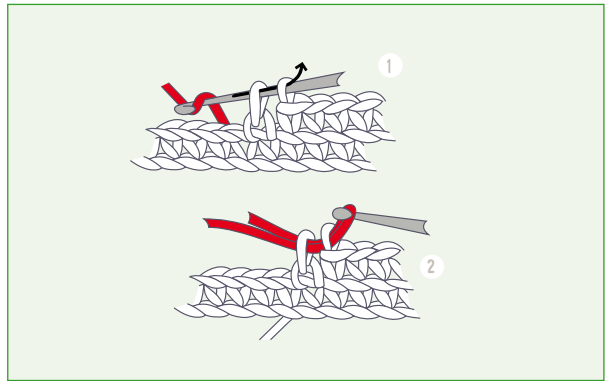

The surface slip stitch is an embellishment of slip stitches worked on top of the fabric of your crochetwork. Insert the hook from the right side to the wrong side where you want your line of slip stitches to start, now wrap the yarn over the hook and draw it through the stitch (1). Insert the hook in the next stitch, wrap the yarn over the hook (2) and pull it through the stitch and the loop on the hook. This is the start of your line of surface slip stitches. Repeat this to the end of your crochetwork or in any shape you like (3).

SURFACE SINGLE CROCHET

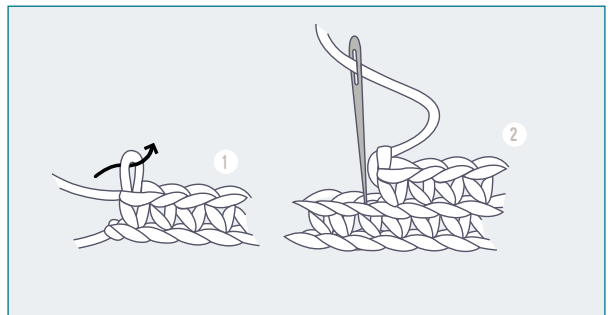

Use a slip knot to tie the yarn onto the crochet hook. Insert the hook around the back horizontal bar of the stitch you're working over (1). Wrap the yarn over the hook, pull that loop through (2). Wrap the yarn over the tip of the hook again (3) and carefully pull it through both loops on the hook.

**INVISIBLE COLOR CHANGE**

When you want to switch from one color to the next, you work to within two stitches before a color change. Make the next stitch as usual, but don't pull the final loop through (1). Instead, wrap the new color of yarn around your hook and pull it through the remaining loops (2). To make a neat color change, you can make the first stitch in the new color a slip stitch instead of a single crochet. Don't pull the slip stitch too tight or it will be difficult to crochet into in the next round. Tie the loose tails in a knot and leave them on the inside.

**FASTENING OFF**

When you've finished crocheting, cut the yarn a couple of inches / cm from your last stitch. Pull the yarn through the last loop until it is all the way through (1). You now have a finished knot. Thread the long tail through a tapestry needle and insert your tapestry needle through the back loop of the next stitch (2). This way the finishing knot will remain invisible in your finished piece. You can use this piece of yarn to continue sewing the body pieces together.

JOINING ALL PARTS

First, pin together the parts that you want to sew to one another, so you can evaluate the results and adjust if necessary. If possible, use the leftover yarn tail from where you fastened off, or use a new length of the same yarn color from one of the pieces that you want to join.

When the different pieces are open: position the piece on the body and sew all around it, going through the front stitches of both the extremity and the body.

When the opening of the different pieces is sewn closed before attaching them to the body, you line up the stitches of one side with the other side and sew through the front loop of one side and the back loop of the other side. Use the same color of yarn as the pieces you want to join together.

Always make sure pieces are securely attached so that they can't be pulled off. Make small, neat stitches and try to make them show as little as possible.

SKILL LEVEL

easy (★), intermediate (★★), advanced (★★★)
Every pattern is marked with a skill level to indicate how easy they are to make. If this is your first time making amigurumi, it's best to start with an easy pattern and work up to the intermediate and advanced ones.

PATTERN STRUCTURE

All patterns in this book are worked in continuous spirals, not in joined rounds. Crocheting in spirals can be confusing since there's no clear indication of where a new round begins and the previous one ends. To keep track of the rounds, you can mark the end of a round with a stitch marker or safety pin. After crocheting the next round, you should end up right above your stitch marker. Move your stitch marker at the end of each round to keep track of where you are.

At the beginning of each line you will find 'Rnd + a number' to indicate which round you are in. If a round is repeated, you'll read 'Rnd 9 – 12', for example. You

then repeat this round four times, crocheting the stitches in round 9, 10, 11 and 12.

Although we usually crochet in rounds, occasionally it happens that we switch to rows, going back and forth instead of working in continuous spirals. When we switch to rows, it will be indicated with 'Row + a number'.

At the end of each line you will find the number of stitches you should have in square brackets, for example [9]. When in doubt, take a moment to check your stitch count.

When parts of the instructions repeat throughout the round, we place them between rounded brackets, followed by the number of times this part should be worked. We do this to shorten the pattern and make it less cluttered.

BASIC MATERIALS

YARN

For every pattern in this book we've listed the materials used to create that design, including the yarn type used by the designer. Don't feel tied to the choices of yarn weight though: any weight of cotton, acrylic or wool can be used as a substitute, provided you use the right crochet hook accordingly.

The patterns don't give the yarn quantity. The amounts are rather small and will vary according to how loosely or tightly you crochet. You could use some of the remnants from other projects or start with a new ball of yarn. One or two balls per color is usually enough.

CROCHET HOOKS

Not only yarn, but hooks as well come in different sorts and sizes. Bigger hooks make bigger stitches than smaller ones. It is important to match the right hook size with the right weight of yarn. In the table on the next page you will find the standard hook size recommended for each yarn weight. For amigurumi, however, you generally use a hook two or three sizes smaller than what is recommended for your yarn. The

crochet fabric should be quite tight, without any gaps through which the stuffing can escape. Using a smaller hook makes it easier to achieve this.

Hooks are usually made from aluminum or steel. Metal hooks tend to slip between the stitches more easily. Preferably choose a crochet hook with a rubber or ergonomic handle.

STITCH MARKER

A stitch marker is a small clip made of metal or plastic. It's a simple tool to mark your starting point and give you the assurance that you've made the right number of stitches in each round. With my stitch marker, I always mark the last stitch of a round.

STUFFING

For the filling, polyester fiberfill is advised. You can purchase this at any craft shop. It is inexpensive, washable and non-allergenic. Be careful not to over-stuff your amigurumi as the stuffing might stretch the fabric and show through.

FACIAL FEATURES

For some patterns safety eyes are used. These are widely available in craft shops. Be careful when you apply safety eyes: once you put the washer on, you won't be able to pull it off again, so make sure that the post is where you want it to be, before attaching the washer.

Alternatively, the features can be embroidered, which is recommended if you're crocheting for children under the age of three. For embroidery, a tapestry needle with a rounded tip is used.

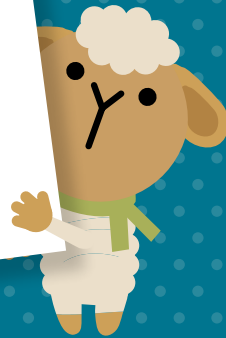

AMIGURUMI GALLERY

With each pattern, we have included a URL and QR code that will take you to that character's dedicated online gallery. Share your finished amigurumi, find inspiration in the color and yarn choices of your fellow crocheters and enjoy the fun of crocheting. Simply follow the link or scan the QR code with your mobile phone. Phones with iOS will scan the QR code automatically in camera mode. For phones with Android you may need to install a QR Reader app first.

Fasten off, leaving a long tail for sewing. You can either stuff the horns and sew them to the head below the top knot with the uppermost side of the horn level with the back center of the eye as they are, or for extra shaping you can follow the next steps: For each horn fold a length of pipe cleaner over so that the doubled up part of the pipe cleaner is the same length as the horn. Trim one of the ends approximately $\frac{1}{2}$ " / 1 cm longer than the doubled-up section, then twist the pipe cleaner together (picture 4). Insert the twisted part into the horn so that it lies between the stuffing and the crochet on what will be the uppermost side of the horn. Insert the end of the pipe cleaner into a stitch space immediately in front of the top knot and in line with the back center of the eye (picture 5) Sew the horn in place. Bend the tip of the horn upwards.

Pinch the base of the ear flat and work the next round through both layers to close (picture 6).

Rnd 10: ch 1, sc in all 9 st [9]

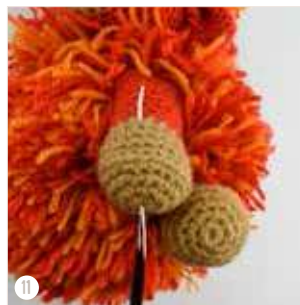

Fasten off, leaving a long tail for sewing. Pinch the flat base of the ear and sew the bottom seam together (picture 7). Sew the flat seams horizontally to the sides of the head directly underneath the horns (picture 8). Sew a stitch through the back of the ear and into the head to keep the ear pointing downwards.

Rnd 8: (sc in next 4 st, dec) repeat 3 times [15]

Change to dark orange yarn.

Rnd 9 – 18: sc in all 15 st [15]

Fasten off, leaving a long tail for sewing. Stuff the legs and oversew the tops flat. Sew the flat seam of the front legs horizontally to the front of the body between rounds 18 and 19, with an interspace of 4 stitches (picture 9). Sew the back side of the front leg to the body with a stitch placed halfway down the leg. Sew the flat seam of the back legs vertically to either side of the body so that the front of the back hoof will touch the back of the front hoof (picture 10). Sew the inside of the back leg to the body with a stitch placed halfway down the leg. To shape the hooves, thread a needle with a length of black yarn and insert into the magic ring, coming out at the top of the hoof (picture 11). Tie the ends in a knot at the bottom of the foot pulling tightly on the yarn (pictures 12-13). Hide the yarn ends inside the hoof.

TAIL

Cut six 7" / 18 cm lengths of dark orange yarn. Insert the hook under a stitch post at the lower back of the

body, fold the yarn lengths in half and place over the hook (picture 14), pull all 6 strands of yarn under the stitch post to create a loop. Feed the tail ends through the loop (picture 15) and pull tight to form a tassel. You will now have 12 strands to make the tail with. Divide the 12 strands into 3 sets of 4 and plait the tail to a length of approximately 2" / 5 cm. Tie off the end with another strand of dark orange yarn and trim off the excess yarn lengths (picture 16).

EAR EDGING

This can either be made using standard stitches (see
method 1) or fur can be added (see method 2). Please
note the fur method is not recommended if making for
a young child.

Method 1 – crocheted edging (in white / dark gray yarn)

With the inner ear facing forward, join your yarn on
the bottom right hand side of the ear - in the center
sc of the corner.

Left Ear: ch 2 + 3 dc in this stitch, dc in next 3 st, hdc in next 4 st, sc in next 3 st, inc in next 3 st around the corner, sc in next 10 st, inc in next st [31]
Fasten off and weave in the yarn ends.

Right Ear: ch 1 + inc in this stitch, sc in next 10 st, inc in next 3 st around the corner, sc in next 3 st, hdc in next 4 st, dc in next 3 st, 3 dc in next st [31]
Fasten off and weave in the yarn ends.

Method 2 – Fur (*in white yarn*)

Cut multiple lengths of yarn, approx. 3" / 8 cm long. Insert your hook in the center stitch of the bottom right corner. Pull up a loop. Using your hook pull both loose ends through your loop and snug down tight. We will use this method to attach lengths of yarn from the current position up and over the top corner and down to the bottom left corner of the ear. Attach 3 lengths of white yarn in each corner stitch and 2 lengths of yarn in the stitches between. The base of the ear is left unworked.

Unravel the fibers on each piece of yarn attached. A wire brush may be used to make the yarn fluffier. Now trim the white yarn. When trimming remember that your ears are mirror images of each other and are not identical.

ARM (*make 2, start in brown / dark gray yarn*)

Rnd 1: start 6 sc in a magic ring [6]

Rnd 2: (sc in next st, inc in next st) repeat 3 times [9]

CUFFS (*in blue / bright pink yarn*)

With the hand pointing upwards, join the yarn in any of the leftover front loops from round 9.

Rnd 1: ch 1, make your first st in same space as where you joined your yarn, (sc in next 2 st, inc in next st) repeat 3 times [12]

Slst in next st. Fasten off, weave in the yarn end.

Rnd 29: (sc in next st, dec) repeat 6 times, slst in first st, ch 1 [12]

Rnd 30: dec 6 times [6]

Fasten off, leaving a long yarn tail. Using your yarn needle, weave the yarn tail through the front loop of each remaining stitch and pull it tight to close. Weave in the yarn end.

Adding Fur to the Tail

This method is optional and should not be added if intending to give the toy to a young child.

Cut many lengths of white yarn, approx. 3" / 8 cm long. Insert your hook in any stitch between round 1 and 2 (picture 9 - sample with orange yarn), come out through the closest stitch between rounds 2 and 3 (picture 10). Pull a loop through (picture 11). Using your hook pull both loose ends through your loop and snug down tight (picture 12). Repeat this process around rounds 2, 4, 6, 8, 10, 12 & 13, joining 2 pieces of white yarn in each stitch. In rounds 14, 15 & 16 you repeat this process using brown yarn and attaching only 1 piece of yarn per stitch. In rounds 17 & 18 you will use white yarn again and attach 1 piece of yarn per stitch. Trim the yarn to approx. 1" / 2.5 cm. Use a wire brush to brush the fur until it becomes fluffy.

ASSEMBLY

– Sew the snout centrally on the head between rounds 12 and 18 (picture 13).

- Insert the safety eyes through the eye patches. Then insert them into the head between rounds 14 and 15. The eye patches should sit snugly against the sides of the nose (picture 14). The safety eyes will be 10 stitches apart. Now secure the safety eyes through both layers and sew the eye patches to the head.
- Sew the cheeks to the lower outer edges of the eye patches (picture 15).
- For the raccoon, embroider a white line around the outer half of the safety eyes. With black thread embroider small eyebrows over rounds 8 to 10 in line with the eyes.
- For the red panda, embroider two patches on the head with white thread. These start on round 8, with 3 visible stitches between them centrally. Make 4 straight stitches that fan outwards on each side.
- Sew the ears to the head. The top of the ears sit on round 4 of the head.
- Sew the head to the BLO of the final round of the body (behind the collar attachment).
- Sew the arms underneath the collar on either side of the body.
- Sew the tail to the back of the body just underneath the jumper. The tail angles slightly outwards.

We will now be working around the ears, working each stitch through both pieces to join them together (picture 1). Draw up a loop in light pink yarn at the edge where you fastened off. sc in next 16 row-ends up to the ear tip, 3 sc into the ear tip and sc in next 16 row-ends back down to the base of the ear. ASSEMBLY

- Place the snout to the head, with the thinner triangular point at the top and the longest edge at the bottom. Line the center of the top of the snout with the stitch marked on the head earlier. Sew the snout to the head, stuffing it as you go.
- Sew the eyelids on, making sure to curve them around the eyes.
- Use pins to guide you in stitching on the ear. Place a pin above the inner edge of the eye on round 3 of the head, this is where the inner ear will start. Place another pin 7 stitches back from the first one on round 7 of the head, this is where the middle of the ear will be. Place the third pin directly below the second pin on round 15, this will show where the ear should end. Repeat for the opposite side of the head. (pictures 2-3) Keeping the placement pins on the inside of the ear, sew the ears around them, sewing through the stitches on the front of the ear and then around to the backs of the ears.
- If you like, you can fold one ear downward halfway along and secure with a stitch for a floppy eared look.
- Place the body in front of you with the open neck edge toward you and the belly marked earlier resting downward. The larger side that curves outward should be the rump of your piglet and that side should face upward. Place the back of the head against the open neck of the body and sew on firmly.
- Rest the head and body on a surface. Place the large open edges of the legs against either side of the back end of the body, resting on the ground, with the trotters pointing toward the head. The back of the thighs should rest along round 4 of the body. Pin them in place. Stitch three quarters of the way around the legs and then add more stuffing to the thighs before closing up.
- Take a long length of strong yarn and stitch through the first arm at about 0.5" / 1 cm from the top, through round 28 of the body and into the second arm at about 0.5" / 1 cm from the top, then stitch back through the second arm, then the body and the first arm in the same place and pull firmly. Repeat these stitches back and forth through the arms and body until legs are securely attached but still movable and fasten off.
- Use dark pink yarn to shape and add detail to the trotters. Working on the back legs first, thread your needle and stitch into the foot just under the slip stitches for the color change. Exiting diagonally at the bottom of the trotter. Stitch again in the same place and pull this stitch tight. Sew through these two points repeatedly, pulling each stitch tight, before making another one. Fasten off securely.
- Pin the spots to the back and sew in place.
- Sew the tail to the lower back. Weave in any loose ends.

ASSEMBLY

- Insert the safety eyes between rounds 13-14, about 12 stitches apart.
- Stuff the head and body and sew together, going under the slst round of the body and the front posts of the stitches from the head (picture 1).

- Sew the cheeks beneath the eyes, between rounds 13 and 17, add a bit of stuffing before completing each cheek (picture 2).
- Sew the ears to the top of the head along the center line, between rounds 5 and 9.
- Sew the nose above the cheeks, lining it up to the tops of the cheeks (picture 3).
- Sew the tummy to the front of the body near the back legs (picture 4).
- Add stuffing to the legs and sew the legs to the body, between rounds 23 and 27, 6 stitches apart.
- Sew the arms to the body between rounds 43 and 47. Add stuffing to both halves and, using some spare yarn, stitch down the tops of the arms over the bottoms so that the shape is folded (pictures 5-7).
- Embroider the mouth, freckles and claws. You can

work the claws as French knots or build them up in layers of stitches gradually (picture 8): work 3 short horizontal stitches over the foot, then work 2 short vertical stitches over the previous stitches, then 1 short horizontal stitch over the last few stitches, weave the yarn back to foot and secure the end.

– To make the shell, sew together 2 halves through the front posts of the corresponding stitches, add stuffing just before the 2 halves are sewn together. Use the yarn tail to shape the shell into 3 segments by pulling the yarn from the center of the shell over the outer edge to the other side twice, pull the yarn tail tight each time to create the shell ridges. Wrap the remaining tail around the narrow point of the shell and pull tight to shape the end.
