General Tips & Techniques:

- * Be sure to keep yarn tension consistent and held tightly throughout your work.
- * At the end of each row, I have given the number of stitches you should have. This is just a guide. If you are off by 1 or 2 stitches, don't worry about it. Amigurumi is very forgiving.
- * I chose Caron Simply Soft yarn because it is soft yet strong. You don't have to worry about it breaking if you pull tightly.

Magic Ring:

Leaving a long tail, at least 12", Ch. 4, join with sl st into first st. Ch. 1, work 10 sc into center ring and around tail, do not join. Pull tail tightly, closing the hole in the ring. Mark beginning of row (piece of contrasting yarn or paperclip works fine). From this point on, you will be working in the round

Abbreviations:

Stuff head and body firmly with Polyfil or stuffing of your choice.

Row 23: *1 sc in next sc, skip next sc*, repeat from * around, 6 st. End, leaving 6" tail.

Sew end closed, tie off end.

Tips: I sew the end closed by inserting the needle through each stitch all the way around and then pulling it tight, and then tying it off.

Instead of just cutting the end, keep it on the darning needle and push the needle up into the amigurumi's body a couple of inches and out the other side. Pull the yarn tightly and cut it. This will hide the tail inside the amigurumi.

Row 3: 2 dc in 1st dc, 1 dc in next 5 sc, 2 dc in next sc space.

Row 4: Continuing from the end of the last row, crochet in each space and row all the way around to create a border around the wing.

Large Wing (make 2):

Row 1: 1 sc in 2nd chain from hook and in each sc across. Ch. 1, turn.

Row 8: Continuing from the end of the last row, crochet in each space and row all the way around to create a border around the wing. At the bottom tips of each wing, ch. 4 in between 2 sc stitches to create wing points.

Antenna (make 2):

Attach yarn using slip stitch where you want the antenna. Ch. 6 (or longer if you want longer antenna), 1 sc in 2nd chain from hook and each stitch across. Tie off and cut yarn, leaving enough to sew around bottom of antenna to secure it.
