

Tiny Cthulhu Amigurumi

Tiny Cthulhu Pattern

Note: *To make the Cthulhu with a shirt on switch to your shirt colour on RND 17 of the body and then back your main colour at RND 26. For the arms switch to your shirt colour at RND 3 on each arm. If you want a bare Cthulhu just make the whole thing in one colour.*

I highly recommend using the [Invisible Decrease](#) method when you get to the decrease rounds of the pattern.

Materials

1 skein of worsted weight yarn (the colour is your choice, but Cthulhus are traditionally green). You'll need about 1/2 or less of a second colour for the shirt if you want a shirt.
two 12mm safety eyes (for Cthulhus I really like the cat's eyes)
fiber fill or stuffing of your choice
size F (3.75mm) crochet hook

Special Stitches

In the pattern I'm going to call the Cthulhu's tentacles a coil. When you see coil, do this:

coil: chain 9, 3 sc in third chain space from hook, 3 sc in each of next six spaces.

If you find the chain spaces too small to work 3 single crochets in, try making the chain with a hook that's one size larger.

Head and Body (worked as one piece, starting with head)
