Instructions:

To get the correct stitch count follow these instructions • stitch instructions here • Repeat the instructions inside the dots first as many times indicated by the number written afterwards. (Stitch instruction here) Repeat the instructions inside the parentheses next as many times as indicated by the number written afterwards.

Example: (•1 sc • 8, 1 scinc) 3. You would single crochet 8 times, then single crochet increase once. Making 10 stitches. Working the instructions 3 times. Equaling 30 stitches.

Throughout this pattern you will be working in Spirals. When using the spiral method, at the end of each round don't join, work the next stitch into the first stitch of that round. You may use any starting method you like. IE: Magic Ring, Chain 2 or Adjustable Slip Knot. This pattern is written as if you used the Magic Ring Method and works best with the Magic Ring. When the parts are finished, sew them to the body using the photos as a guide.
