Meet the Designer

Sue Penrod has been involved in needlecrafts for many years. She learned to knit as a child, but had not learned to crochet until five years ago. Once she began crocheting on a regular basis, she became fascinated with the freedom of working with one hook instead of two needles.

One rainy day about two years ago, Sue sat down with an idea of making crochet toys. After a lot of trial and error, her ideas started taking shape and some of the fantastic results are presented to you in this book. Sue finds that there is no end to what can be made with a crochet hook. The toys presented in this book are just a few of the many ideas Sue has put into form. You may have seen some of her other crochet ideas that have been recently featured in one of the leading women's magazines.

Sue gets her whole family involved in her endeavors. She tries out all her new toy ideas on her two children to test their reactions. Her daughter has started her own collection of crochet toys and has even begun to make some of her own, along with teaching many of her friends how to make the toys.

Sue and Craft Publications hope that you will enjoy making these loveable animals. They are not only fun to make but they also make wonderful gifts for people of all ages.

Crochet Basics

SLIP KNOT

The slip knot is always the beginning step of crochet, in order to put a loop on your crochet hook. Make a loop about 4 inches from the end of your yarn and hold the loop together with thumb and forefinger. Let the strand of yarn fall behind the loop. With crochet hook, draw the strand through the loop. Tighten loop around crochet hook by pulling the

ends of the yarn. (Do not pull so tight that hook cannot pass through the loop easily.)

CHAIN STITCH (ch)

The chain stitch provides a base from which to begin your crochet pattern.

1. Yarn is attached to crochet hook with a slip knot. Pass th hook under the yarn so that hook catches the yarn as it lies across the top of hook; in crochet terminology—yarn over hook (yo).

2. Draw the yarn through the loop on hook to complete one chain stitch. (The first chain stitch is drawn through the loop made by

the slip knot; the slip knot slips off hook as the stitch is completed, and another loop is automatically formed on hook. The next chain stitch is pulled through this loop. Etc.)

3. To continue chain, repeat above—place yarn over hook, catch it with the hook and pull it through the loop already on hook, slipping this loop off and simultaneously forming another. To prevent twisting of chain, keep your thumb and forefinger near your current stitch.

SLIP STITCH (sl st)

To form a chain into a ring the ends of the chain are joined with a slip stitch. The slip stitch can also be used to "edge" a row (for shaping or strengthening) without adding height.

As always, there will be a loop on the hook. Insert hook into a stitch. Place yarn over hook and draw yarn through both the stitch and the loop

on hook. This creates a new loop on hook so you can continue on to the next stitch. If desired, using the same procedure or can begin a row or round of a different stitch.

Crochet Basics

SINGLE CROCHET (sc)

This is the most basic of the crochet pattern stitches.

1. Make a chain of required length.
2. Insert hook through ridge in back of second chain stitch from hook.

3. Place the yarn over your hook; catch the yarn and draw it through your chain stitch. This puts 2 loops on your hook.

4. Place yarn over hook again and draw it through both loops on hook, completing one single crochet.

To work single crochets across the length of chain, insert hook into the next chain stitch and repeat the single crochet steps above.

To continue rows of the single crochet pattern:

5. Work a turning stitch by chaining 1, then raising yarn to the correct height to begin next row. Turn work around in order to work in the opposite direction.
6. Insert hook in first stitch of previous row and repeat the single crochet steps above. Do this in each stitch across previous row to complete another row. For subsequent rows, chain 1 and turn (Step 5) and repeat Step 6.

DOUBLE CROCHET (dc)

The double crochet stitch is also a very common stitch; it is twice the height of the single crochet.

1. Place yarn over hook first, and then insert hook into the back ridge of the 4th chain stitch from hook (not counting loop on hook). Do not draw yarn through yet.

2. Place yarn over hook again and draw yarn through the chain stitch that hook was inserted through. There are now 3 loops on hook.

3. Place yarn over hook again and draw yarn through the first 2 of the 3 loops on hook. There are now 2 loops on hook.

HALF DOUBLE CROCHET (hdc)

You will eliminate one step of the double crochet to make this stitch. Chain an even number of stitches. Place yarn over hook. Insert the hook into the 3rd chain from hook and draw a loop through. You will have three loops on the hook. Hook the yarn and draw it through all 3 loops on hook. This completes one half double crochet.

4. Place yarn over hook again and draw yarn through the 2 loops on hook, completing one double crochet.

5. To continue, insert hook through next chain and repeat the steps above. To make a row, insert hook into the next chain after completing each double crochet and repeat the process.
6. At end of row, make a turning stitch (Step 5 in single crochet instructions, except ch 3 instead of 1); then, working in the opposite direction, work a double crochet in each stitch of previous row. The turning ch 3 at end of previous row counts as the first double crochet of next row, so begin the double crochets of next row in the 2nd stitch of previous row. When working subsequent rows, work the last double crochet of the row into the 3rd chain of the "turning ch 3" of previous row, in order to keep work even. Then ch 3, turn work, etc.

Helpful Hints

IMPORTANT: When decreasing, a stitch is always worked back into project before repeating or continuing. Therefore, you will have one extra sc after you slip the required number of stitches. See *Daffodil the Dog* on Pg. 11 for an example of stitch count.

- To give some of the animals shape, portions of the animal's body have been tucked and attached to another portion of the body. For example: to attach head to body, slip the crochet hook into body, into head, and back into body. Draw yarn through. Tie yarn in a knot and tuck ends into body. Be sure to use the same color yarn as was used to make animals.
- Note: All patterns are worked in continuous rounds. DO NOT CHAIN AND TURN. Always use top loop of every stitch throughout pattern.
- Use thick white craft glue to attach felt face features.
- When stuffing animals, refer to photographs for proper shaping of animals.
- Stitches are medium/loose, approx. 3 sts per inch.

Crochet Basics

TRIPLE OR TREBLE CROCHET (tr)

The triple crochet results in a looser pattern because it is taller.

1. Make a chain of desired length, unless there is already a row.
2. Place yarn over the hook twice before inserting hook into 5th chain from hook (not counting loop on hook).

3. Place yarn over hook again and draw yarn through one loop. There are now 3 loops on hook.

4. Place yarn over hook and draw yarn through 2 of the loops on hook. There are now 2 loops on hook.
5. Place yarn over hook and draw yarn through both loops on hook, completing one triple crochet.
6. To continue row, place yarn over hook twice, insert hook into next chain and continue triple crochet steps above.

7. For another row, at end of first row chain 4 and turn work. This ch 4 counts as the first triple crochet of next row, so begin triple crochet stitches in 2nd stitch of previous row. To keep work even, work last triple crochet of the row in the 4th chain of turning ch 4 at end of previous row.
