

Patterns & Instructions

by *Happy Patty Crochet*

Ranunculus

Skill Level

Intermediate

Skill Needed

Crochet, Sewing

Introduction

Hello! Here I'll show you how to crochet a delicate Ranunculus. Ranunculus is a blossom which packs immense beauty in its tiny bulb - so much detail and so much elegance. One of the more popular wedding bouquet blossoms. This e-book includes diagrams and instructions for 2 variations of the Ranunculus (see photos above).

This pattern includes a nonstandard stitch of the Tunisian Crochet family, its a slightly modified Tunisian simple stitch - that's the reason I have marked this pattern as Intermediate. The stitch is easy to learn and fun to do - all included in the document and in a tutorial video.

Materials

- **Size #20 blossom** : 100% Mercerized Cotton Thread Size #20.
- **Size #8 blossom** : Pearl/Perle Cotton Size #8.
- **For both blossoms** : Crochet thread size #20 in Green (for Sepals & head).
- **For both blossoms** : Crochet Hook Size 1.0mm / US size 6.
- Floral tape, Florist stub stem.
- Polyester filler (Soft stuffer), Scissors. Tweezer, Hot Glue.

Pattern notes

In this e-book I first show a pattern diagram, and then the instructions in American Standard Terms (You can see conversion table for British terms at the end of the e-book). After that you'll find the short photo guide for how to build the flower.

For the Size #20 Ranunculus, See Appendix B.

Materials Note :

For the size #20 blossom, I recommend using a 100% mercerized cotton thread. But, of course, any durable size #20 thread could work. I've used thread from "Venus" brand, but the more popular Anchor's Freccia and DMC's Cebelia can be used (or any other brand for that matter). See this [Blog post](#) for more information.

For tutorial about
Misc Stitch #1
please see [this link](#).

Password : hpc2015

** If you have problem finding the material needed, don't hesitate to contact me and I'll do my best to help.*

Abbreviations

sl-st - Slip Stitch
ch - Chain
sc - Single Crochet
dc - Double Crochet
ms1 - Misc Stitch #1

qc - Quadruple (Double Treble) Crochet
2-st sc inc - 2 Stitch SC Increase (2 sc in same stitch)
2-st dc dec - 2 Stitch dc decrease

dec - decrease
yo - Yarn over
sk - Skip
beg - Beginning

Ranunculus Blossom

The Ranunculus is made from 4 elements: From the bottom up - at the base, we have the Sepals. Then, on top of the sepals is the outer petals element, which includes 3 layers of petals, then the inner petals elements (which includes 2 layers of petals) and the last element is the head.

Therefore, you will find in the e-book, 4 different patterns, for each elements.

The Stages of this instructions, are - first, we crochet all the elements, then glue and arrange them together.

Blossom final measurements :

- ~2-2.4" (5-6cm) wide (diameter).
- ~0.8-1" (2-2.5cm) high.

Please Note : The patterns and photos in this document are of the Ranunculus with the thinner thread (Pearl Cotton size #8) - to crochet the size #20 Ranunculus, please see Appendix B.

Outer Element

Outer petals element is done in 6 stages :

Stage 1 : Crocheting the Disc

In this stage we'll crochet the disc that will be the base for all the 3 petals layers.

Stage 2 : Crocheting the 1st Layer

Next, we'll crochet the first layer of petals, working through the outer round of the disc (round number 4).

Stage 3 : Preparing for 2nd Layer

We'll crochet 6 chain rows that will be worked through when we crochet the 6 petals of the 2nd layer.

Stage 4 : Crocheting the 2nd Layer

Working through the chain rows of Stage 3, we'll crochet the 6 petals of layer 2.

Stage 5 : Preparing for 3rd Layer

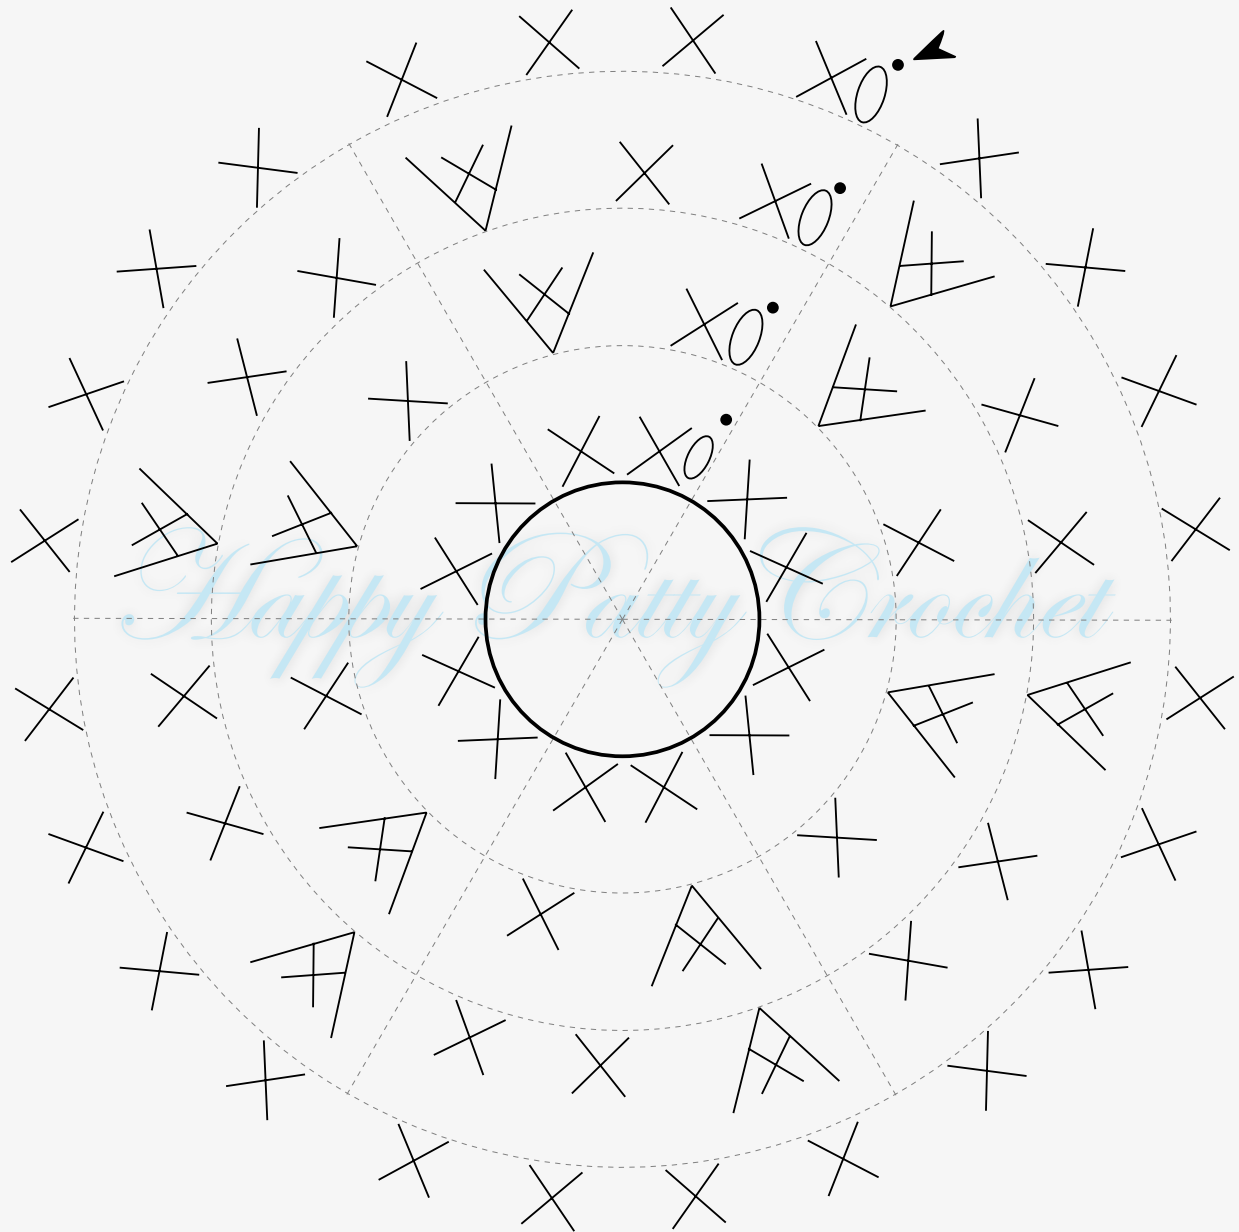

Similar to Stage 3, we'll crochet 6 chain rows.

Stage 6 : Crocheting the 3rd Layer

Working through the chain rows of Stage 5, we'll crochet the 6 petals of layer 3.

Outer Element - Disc Pattern

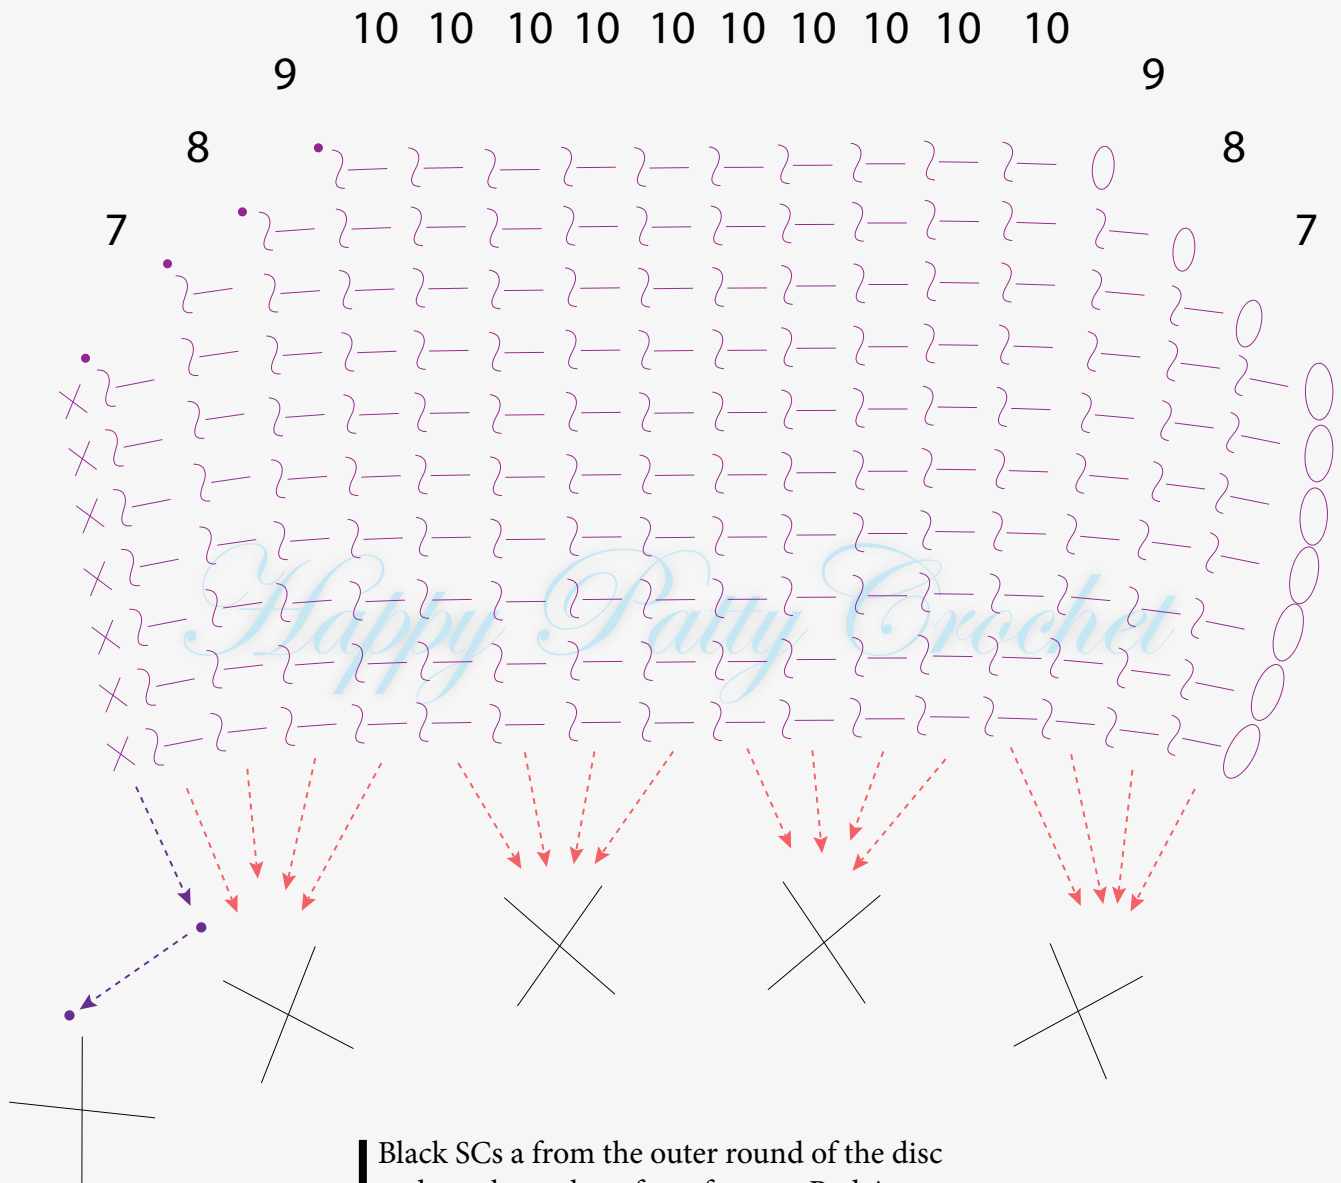

Magic Loop : Make a large loop with yarn. Holding the loop with your fingers, insert hook into loop and pull working yarn through loop on hook. Continue to work indicated number of stitches into loop. Pull on yarn tail to close loop.

Outer Element Instructions

Stage 1 : Crocheting the Disc

If you are using Thread smaller than size #20, it is recommended you crochet the disc using 2 threads together (see photo guide), as it would make it easier later when you crochet the petals.

Rnd 1 : Magic ring, ch 1, sc 12 times, join with sl st to beg ch

Rnd 2 : ch 1, [sc, 2-st sc inc], repeat [] 6 times around, join with sl-st to beg ch

Rnd 3 : ch1, [2 sc, 2-st sc in], repeat [] 6 times around, join with sl-st to beg ch

Rnd 4 : ch 1, sc 24 times around, join with sl-st to beg ch. Fasten off.

Stage 2 : Crocheting Layer 1

Each petal of layer 1 is done row by row starting with a base row of 7 chains. Each petal includes a stitch I will call here Misc Stitch #1 (or MS1), it is very similar to Tunisian Simple Stitch - the only difference is that we work the stitch through the outer horizontal thread and not the vertical threads (Video Tutorial included + Instructions in the next section).

The outer round of the disc has 24 stitches - meaning, each petal is being connected to the disc through 4 stitches (we have 6 petals in total). Each petal has 18 rows - the rows of each petal are being connected to the disc in the following fashion :

Rows 1,2,3,4,5 - Through the first stitch

Rows 6,7,8,9 - Through the second stitch

Rows 10,11,12,13 - Through the third stitch

Rows 14,15,16,17,18 - Through the fourth stitch

Outer Element Instructions (#2)

Row Summary for each petal (total 18 rows) :

Ch 7, MS1 7, MS1 8, MS1 9, 10 Rows of MS1 10, MS1 9, MS1 8, MS1 7, sc 7

Row 1 : Add the petal's thread and chain 7 times.

Row 2 (we do MS1 7 times) :

(we start with the forward pass, heading down, towards the head) Work in the stitches of previous row, [yo, pull a loop through and leave it on the hook], repeat [] 7 times, repeat one more time, this time work through the stitch of the disc.

(reverse pass, heading back up) start your way back by [yarn over, pull thread through two loops] until you are left with one loop on the hook.

Finish the reverse pass with a chain, and start working your way back down, starting a new row and a new forward pass.

Row 3 : Repeat row 2, only this times, repeat the MS1 8 times. Finish the row's reverse pass with a chain as well.

Row 4 : Repeat row 3, only this times, repeat the MS1 9 times. Finish the row's reverse pass with a chain as well.

Row 5 : Repeat row 4, only this times, repeat the MS1 10 times. Without a chain at the end.

Row 6 -13 : Repeat row 5.

Row 14 : Repeat row 5, finish this row's reverse pass with a sl-st to the last stitch.

Row 15 : Repeat row 14, only this times, repeat the MS1 9 times. Finish the row's reverse pass with a sl-st to the last stitch as well.

Outer Element Instructions (#3)

Row 16 : Repeat row 15, only this times, repeat the MS1 8 times. Finish the row's reverse pass with a sl-st to the last stitch as well.

Row 17 : Repeat row 16, only this times, repeat the MS1 7 times. Finish the row's reverse pass with a sl-st to the last stitch as well.

Row 18 : Sc 7 times, join with sl-st to the same stitch in the head as the one we finished the forward pass of Row 17.

Next, we sl-st to next stitch on the head and start the next petal (Rows 1-18). Repeat 6 times for 6 petals.

Stage 3 : Preparing for 2nd Layer

(follow steps 1-9 of the outer layer photo guide)

Working in the loops between Round 4 of the disc and the outer layer : we start with sl-st to next stitch (2nd sc from chain in round 4) and follow with, [ch 4, sk 2 sts, sl-st in stitch], repeat 6 times.

Note : Each chain row will cover 4 stitches of round 4 of the disc.

Stage 4 : Crocheting Layer 2

Similar to Stage 2, we crochet the petals one by one. Only difference is that this time, each petal is being worked through (under) each of the chain rows we crocheted in Stage 3. The Petals themselves are different in their pattern, and we'll cover this in the next page.

Outer Element Instructions (#4)

Row Summary for each petal (total 16 rows) :

Ch 7, MS1 7, MS1 8, 10 Rows of MS1 9, MS1 8, MS1 7, sc 7

Row 1 : Add the petal's thread and chain 7 times.

Row 2 (we do MS1 7 times) :

(forward pass, heading down, towards the head) Work through the stitches of previous row, [yarn over, pull a loop through and leave it on the hook], repeat [] 7 times, repeat one more time, this time work through the chain row.

(reverse pass, heading back up) start your way back by [yarn over, pull thread through two loops] until you are left with one loop on the hook.

Finish the reverse pass with a chain, and start working your way back down, starting a new row and a new forward pass.

Row 3 : Repeat row 2, only this times, repeat the MS1 8 times. Finish the row's reverse pass with a chain as well.

Row 4 : Repeat row 3, only this times, repeat the MS1 9 times. Without a chain at the end.

Row 5 -12 : Repeat row 4.

Row 13 : Repeat row 4, finish this row's reverse pass with a sl-st to the last stitch.

Row 14 : Repeat row 13, only this times, repeat the MS1 8 times. Finish the row's reverse pass with a sl-st to the last stitch as well.

Row 15 : Repeat row 14, only this times, repeat the MS1 7 times. Finish the row's reverse pass with a sl-st to the last stitch as well.

Outer Element Instructions (#5)

Row 16 : Sc 7 times, join with sl-st to the chain row.

Next, sl-st to the next chain row and start the next petal (Rows 1-16). Repeat 6 times for 6 petals.

Stage 5 : Preparing for 3rd Layer

(follow steps 13-15 of the outer layer photo guide)

Working between Rounds 4-3 of the disc : we start with sl-st to next stitch (2nd sc from chain) and follow with, [ch 4, sk 2 sts, sl-st in stitch], repeat 6 times.

Note : Each chain row will cover 4 stitches of round 4 of the disc.

Stage 6 : Crocheting Layer 3

Similar to Stage 4, we crochet the petals one by one and under the chain rows.

Row Summary for each petal (total 14 rows) :

Ch 6, MS1 6, MS1 7, 8 Rows of MS1 8, MS1 7, MS1 6, sc 6

Row 1 : Chain 6 times.

Row 2 (we do MS1 6 times) :

(forward pass, heading down, towards the head) Work through the stitches of previous row, [yarn over, pull a loop through and leave it on the hook], repeat [] 6 times, repeat one more time, this time work through the chain row.

Outer Element Instructions (#6)

(reverse pass, heading back up) start your way back by [yarn over, pull thread through two loops] until you are left with one loop on the hook.

Finish the reverse pass with a chain, and start working your way back down, starting a new row and a new forward pass.

Row 3 : Repeat row 2, only this times, repeat the MS1 7 times. Finish the row's reverse pass with a chain as well.

Row 4 : Repeat row 3, only this times, repeat the MS1 8 times. Without a chain at the end.

Row 5 -10 : Repeat row 4.

Row 11 : Repeat row 4, finish this row's reverse pass with a sl-st to the last stitch.

Row 12 : Repeat row 11, only this times, repeat the MS1 7 times. Finish the row's reverse pass with a sl-st to the last stitch as well.

Row 13 : Repeat row 12, only this times, repeat the MS1 6 times. Finish the row's reverse pass with a sl-st to the last stitch as well.

Row 14 : Sc 6 times, join with sl-st to the chain row.

Next, we sl-st to the next chain row and start the next petal (Rows 1-14). Repeat 6 times for 6 petals.

Fasten off.

Outer Element - Photo Guide

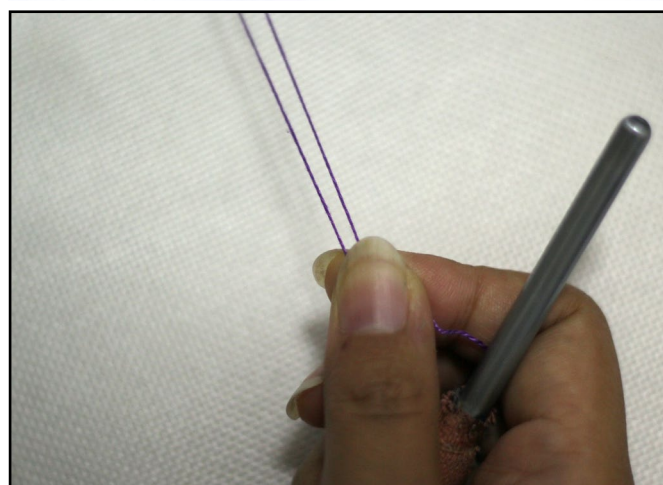

The Outer petal element is made of three layers of petals - each layer has 6 petals.

We start by crocheting a disc that would be the base for the petal layers. Once the disc is done, We'll start crocheting the petal layers :

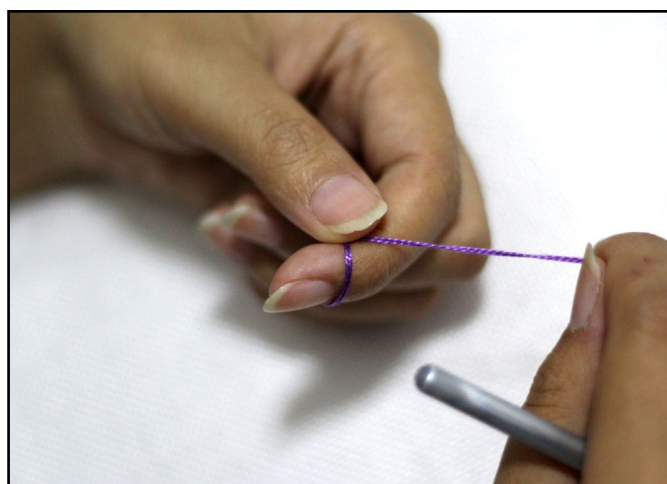

- Layer #1 will be worked in the outer round of the disc.

- Layers #2 and #3 will be worked through chain rows we'll create (see photo guide).

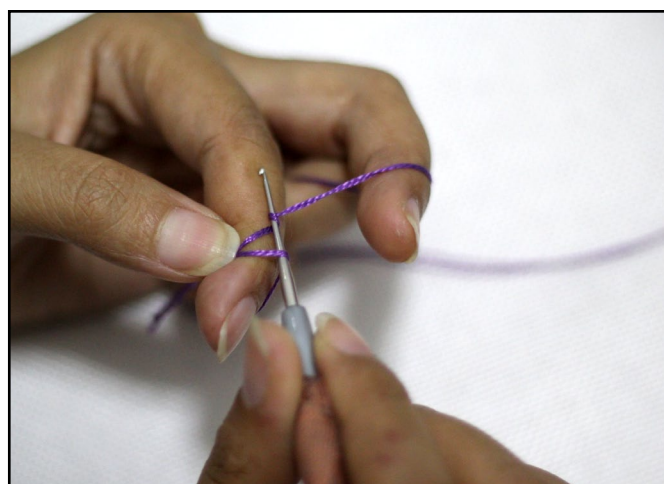

If you are using the Pearl Thread size #8 (or any thread smaller the size #20), it is recommended crocheting the disc using 2 threads over the hook (see photos) - that we it would be easier to work with when we'll crochet the petals.

Step 1 - Grab 2 threads, and work with both of them.

Step 2 - Make a loop with both threads to make a Magic Ring

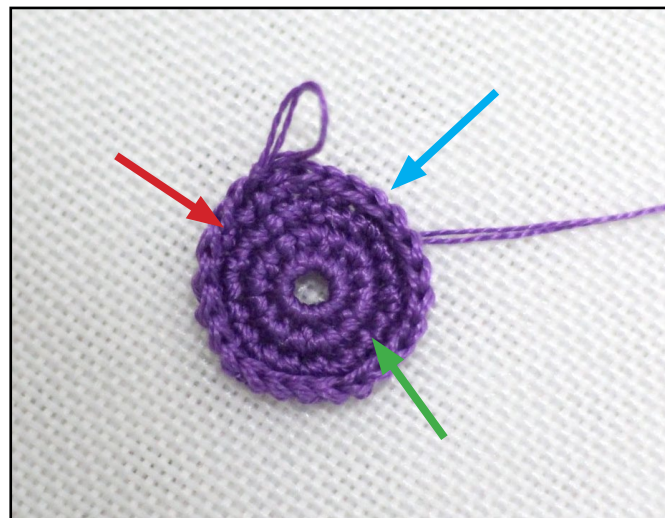

Step 3 - Yarn over and pull through loop to start the magic ring.

Outer Element - Photo Guide (#2)

To the right is the disc we are going to work with. Through the outer round (blue arrow), we are going to start doing the outer layer of petals.

Then, we'll work between the outer round (rnd 4) and the previous round (rnd 3, red arrow) to crochet the second layer.

And, Lastly, between rnd 3 & rnd 2 (green arrow) we'll work the last layer of petals in the element.

Since there are 24 stitches in the outer round, each petal will be worked in 4 stitches, follow the numbering/instructions to know how many rows goes to each stitch in each Petal.

We'll start the outer layer by adding the thread through the chain stitch of the outer round in the disc. Once the thread is added, we start crocheting the petals one by one, starting with the chain row and following the instructions.

Following is a photo guide for the outer petals element :

Step 1 - Add the thread trough the chain stitch of the outer round of the disc.

Step 2 - Slip stitch and we start the petals.

Outer Element - Photo Guide (#3)

Step 3 - Base chain rose of first petal

Step 4 - Forward pass of the second row

Step 5 - Finishing the forward pass through a stitch in the outer round of the disc.

Step 6 - Reverse pass of the second row, keep following the instructions.

Step 7 - After 1.5 petals

Step 8 - Once the first layer is done (color is different due to different lighting).

Outer Element - Photo Guide (#4)

At this point, you'll see that the thread is actually in the back of the element - we'll have to bring it to the front. We'll do that by joining with a sl-st to the last stitch we did in the last petal.

Next, we'll create spaces for us to work through when we crochet the second layer of petals. The spaces (or, holes) will be chain rows that will be connected at each end with a slip stitch (see photo at the bottom left).

Since each petal of the second layer is placed between two petals of the first layer, and each petal is being worked through 4 stitches in the round - then our chain rows should be joined to the middle of each petal and skip 2 chains each time.

Once we crochet all the chain rows, we start to crochet the petals, one by one, through each of the chain rows.

Please Note : Since we'll need to start our first chain row from the third stitch, we'll start with a couple of sl-st to bring it to the third stitch.

Follow the photo guide in the next page.

We'll work through this hole made by the chain row to crochet a petal in the second layer.

We'll need 6 chain rows (red arrow), to make 6 petals.

Outer Element - Photo Guide (#5)

Step 9 - We want to crochet the chain rows from the red arrow to the blue - so, when we'll crochet the petals, they'll be between two outer petals.

Step 10 - Bring the thread from the back with a sl-st to the first stitch of the outer round of the disc.

Step 11 - Sl-st to the 2nd sc stitch of the outer round of the disc (which would be the 3rd stitch of the outer round).

Step 12 - Yarn over and pull through loops to tight. Now we're at the Red Arrow stitch from step 1 and can start the chain row.

Step 13 - Do the chain row.

Step 14 - Slip stitch to the blue arrow stitch of step 1. It would be the 2nd stitch, counting from the first stitch the 2nd outer petal is worked through.

Outer Element - Photo Guide (#6)

Step 15 - The chain row after sl-st its end. Red arrow and blue arrow are added for reference, as they point to the same stitches shown in step 1.

Step 16 - Repeat steps 5-6 5 more times to create 5 more chain rows. Sl-st last row to beg sl-st of first row (not to the chain).

Step 17 - Now we're ready to start the first petal.

Step 18 - First row of first petal (chains).

Step 19 - Finishing the forward pass of the second row.

Step 20 - Work through (under) the chain rows of steps 5-8.

Outer Element - Photo Guide (#7)

Once we finished the second layer (see photo to the right), we'll repeat it to create the third layer.

Again, We'll bring the thread from the back to the front, add another sl-st to bring it to the middle of the first petal, and crochet 6 chain rows.

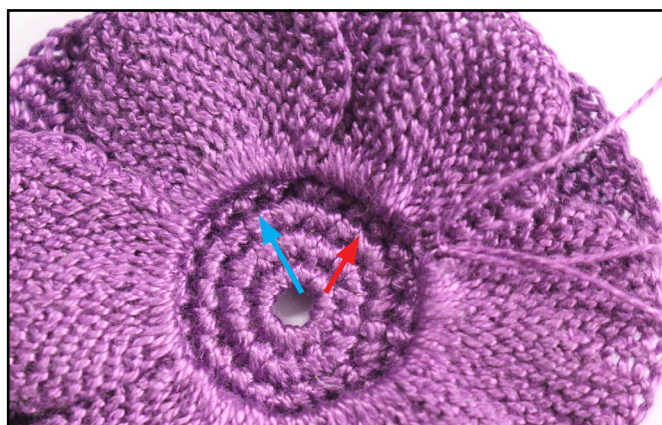

We'll crochet the last 6 petals through this chain rows.

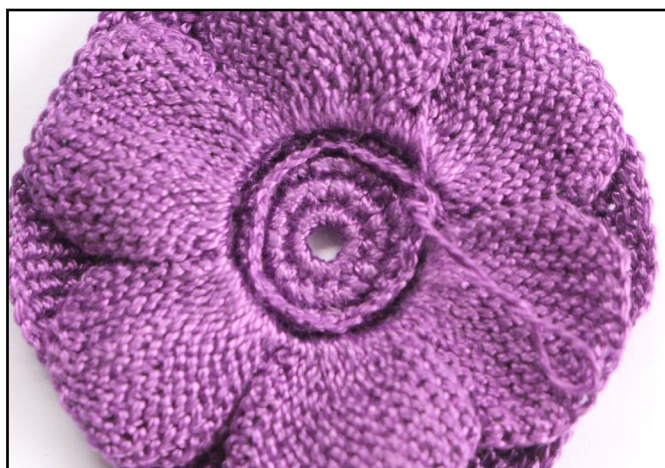

Our element after two layers.

Step 21 - Bring the thread to the front with a sl-st (similar to what we did in the second layer).

Step 22 - We'll work the chain rows from red arrow to blue arrow, this will allow us to crochet the third layer's petals between the petals of the second layer.

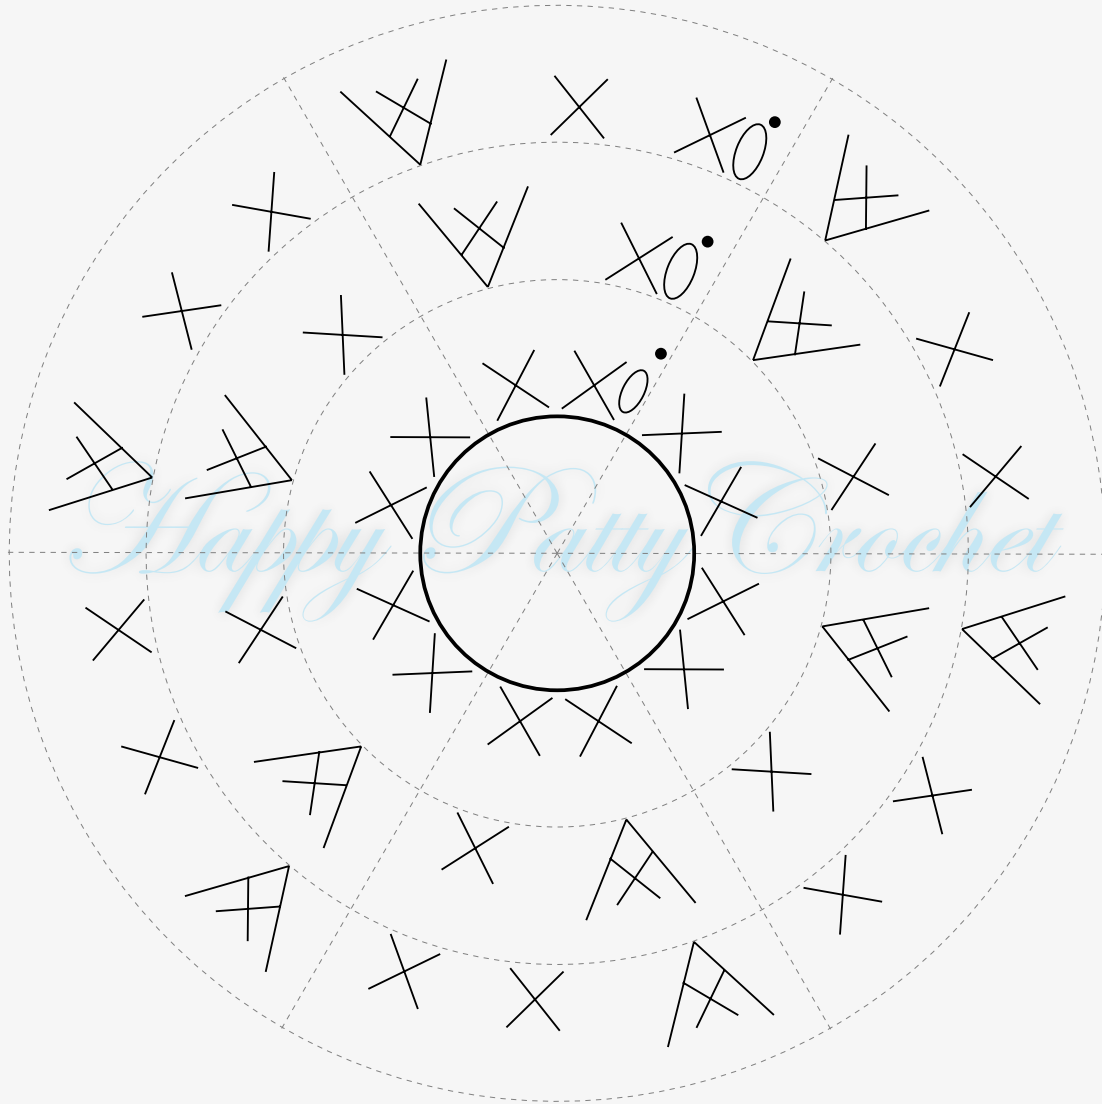

Step 23 - After we finish the chain rows. Continue by crocheting the petals (similar to second layer)

Step 24 - The finished outer layers element.

Inner Element - Disc Pattern

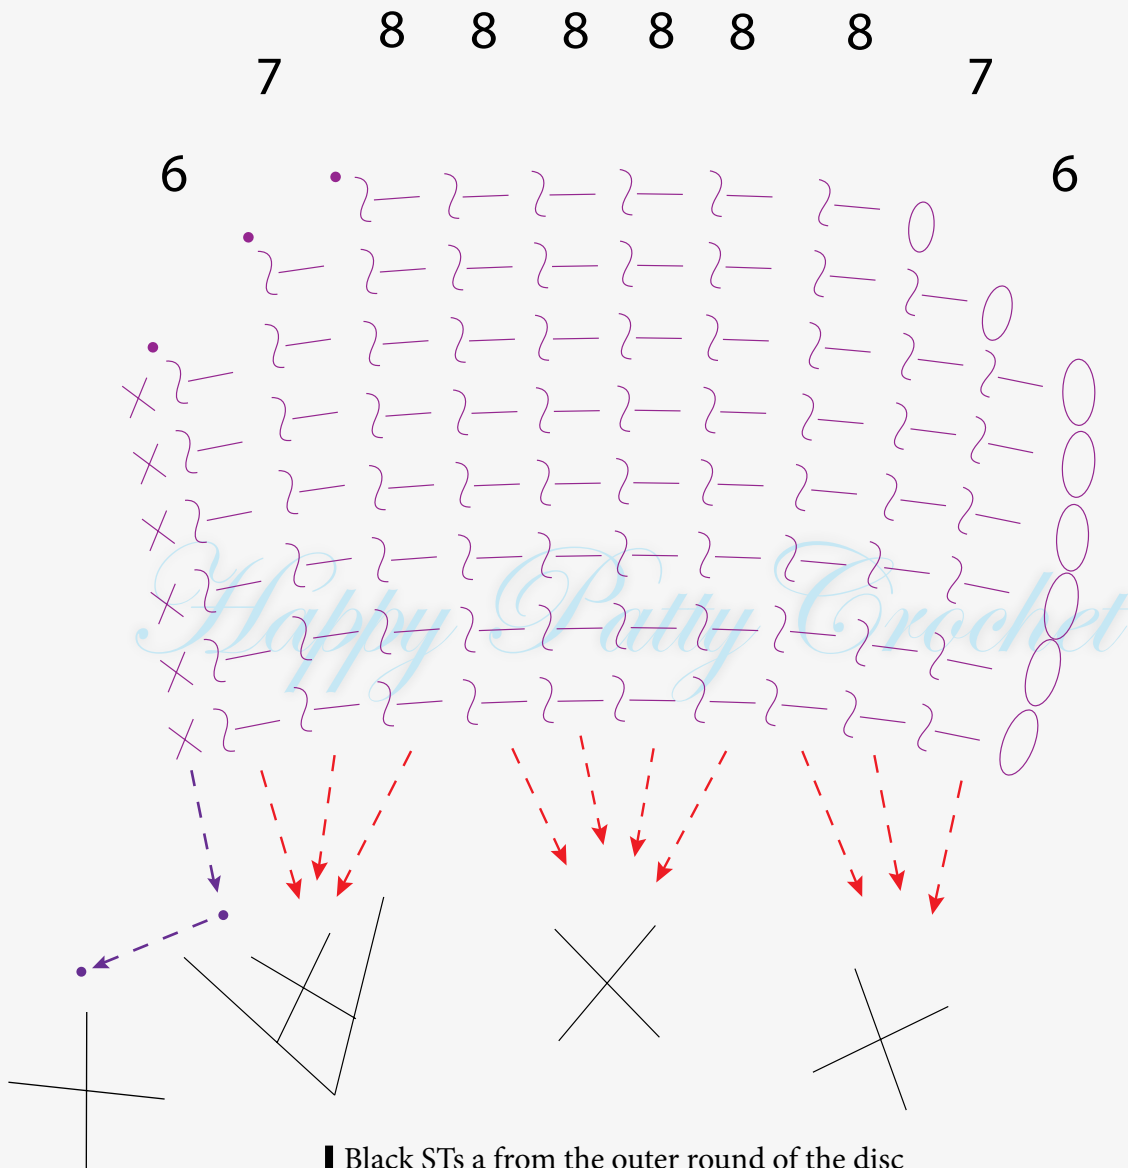

Magic Loop : Make a large loop with yarn. Holding the loop with your fingers, insert hook into loop and pull working yarn through loop on hook. Continue to work indicated number of stitches into loop. Pull on yarn tail to close loop.

Inner Element Instructions

The inner petals element is being crocheted in the same way we crocheted the outer petals element. Only differences are the patterns of the petals, and that we only have two layers of petals in this element. Meaning we only have Stages 1 to 4 in this element.

Stage 1 : Crocheting the Disc

Rnd 1 : Magic ring, ch 1, sc 12 times, join with sl st to beg ch

Rnd 2 : ch 1, [sc, 2-st sc inc], repeat [] 6 times around, join with sl-st to beg ch

Rnd 3 : ch1, [2 sc, 2-st sc in], repeat [] 6 times around, join with sl-st to beg ch. Fasten off.

Stage 2 : Crocheting Layer 1

The outer round of the disc has 18 stitches - meaning, each petal is being connected to the disc through 3 stitches (we have 6 petals in total) - we connect the rows of each petal to the disc in the following way :

Rows 1,2,3,4 - Through the first stitch

Rows 5,6,7,8 - Through the second stitch

Rows 9,10,11,12 - Through the third stitch

Add the thread through the ch stitch of the outer round of the disc.

Row Summary for each petal (total 12 rows) :

Ch 6, MS1 6, MS1 7, 6 Rows of MS1 8, MS1 7, MS1 6, sc 6

Row 1 : Add the petal's thread and chain 6 times.

Inner Element Instructions (#2)

Row 2 (we do MS1 6 times) :

(forward pass, heading down, towards the head) Work through the stitches of previous row, [yarn over, pull a loop through and leave it on the hook], repeat [] 7 times, repeat one more time, this time work through the stitch of the disc.

(reverse pass, heading back up) start your way back by [yarn over, pull thread through two loops] until you are left with one loop on the hook.

Finish the reverse pass with a chain, and start working your way back down, starting a new row and a new forward pass.

Row 3 : Repeat row 2, only this times, repeat the MS1 7 times. Finish the row's reverse pass with a chain as well.

Row 4 : Repeat row 3, only this times, repeat the MS1 8 times. Without a chain at the end.

Row 5 -8 : Repeat row 4.

Row 9 : Repeat row 4, finish this row's reverse pass with a sl-st to the last stitch.

Row 10 : Repeat row 9, only this times, repeat the MS1 7 times. Finish the row's reverse pass with a sl-st to the last stitch as well.

Row 11 : Repeat row 10, only this times, repeat the MS1 6 times. Finish the row's reverse pass with a sl-st to the last stitch as well.

Row 12 : Sc 6 times, join with sl-st to the same stitch in the head as the one we finished the forward pass of Row 15.

Next, we sl-st to next stitch on the head and start the next petal (Rows 1-12). Repeat 6 times for 6 petals.

Inner Element Instructions (#3)

Stage 3 : Preparing for 2nd Layer

(follow steps 5-7 of the inner element photo guide)

Working in the loops between Round 3 of the disc and the outer layer : we start with sl-st to next stitch (2nd sc from chain in round 3) and follow with, [ch 3, sk 2 sts, sl-st in stitch], repeat 6 times.

Stage 4 : Crocheting Layer 2

Similar to stage 2 of the outer element instructions. Here we'll use green thread.

Row Summary for each petal (total 10 rows) :

Ch 5, MS1 5, MS1 6, 4 Rows of MS1 7, MS1 6, MS1 5, sc 5

Row 1 : Add the petal's thread (light green) and chain 5 times.

Row 2 (we do MS1 5 times) :

(forward pass, heading down, towards the head) Work through the stitches of previous row, [yarn over, pull a loop through and leave it on the hook], repeat [] 5 times, repeat one more time, this time work through the chain row.

(reverse pass, heading back up) start your way back by [yarn over, pull thread through two loops] until you are left with one loop on the hook.

Finish the reverse pass with a chain, and start working your way back down, starting a new row and a new forward pass.

Row 3 : Repeat row 2, only this times, repeat the MS1 6 times. Finish the row's reverse pass with a chain as well.

Inner Element Instructions (#4)

Row 4 : Repeat row 3, only this times, repeat the MS1 7 times. Without a chain at the end.

Row 5 -6 : Repeat row 4.

Row 7 : Repeat row 4, finish this row's reverse pass with a sl-st to the last stitch.

Row 8 : Repeat row 7, only this times, repeat the MS1 6 times. Finish the row's reverse pass with a sl-st to the last stitch as well.

Row 9 : Repeat row 8, only this times, repeat the MS1 5 times. Finish the row's reverse pass with a sl-st to the last stitch as well.

Row 10 : Sc 5 times, join with sl-st to the chain row.

Next, we sl-st to next chain row and start the next petal (Rows 1-10). Repeat 6 times for 6 petals.

Fasten off.

Inner Element - Photo Guide

The inner petals layer is done in the same fashion we did the outer petals. First, we crochet the disc that becomes the base for the petal layers.

And then we crochet the petal layers, in this case I crochet 2 different thread colors, light purple for the outer layer and light green for the inner layer - but this is up to your preference.

Step 1 - Once the disc is finished - add the thread, start from the chain of last round of the disc.

Step 2 - Yarn over and pull through.

Step 3 - Sl-st and start the petals.

Step 4 - First row of first petal, continue to complete all petals.

Inner Element - Photo Guide (#2)

Once the outer layer is done, we continue to the inner layer, in the same fashion we did with the outer petals element - bringing the thread to the front, crocheting 6 chain rows, and then crocheting the petals, each petal being worked through a chain row.

In this case, we'll use light green color for the inner layer petals.

First layer.

Step 5 - After we bring the thread to the front, we sl-st to the 3rd stitch in the round (skip 1).

Step 6 - We start doing the first chain row, and continue to complete all the chain rows. Remember to start and finish each chain row at the middle of the petal of the outer layer

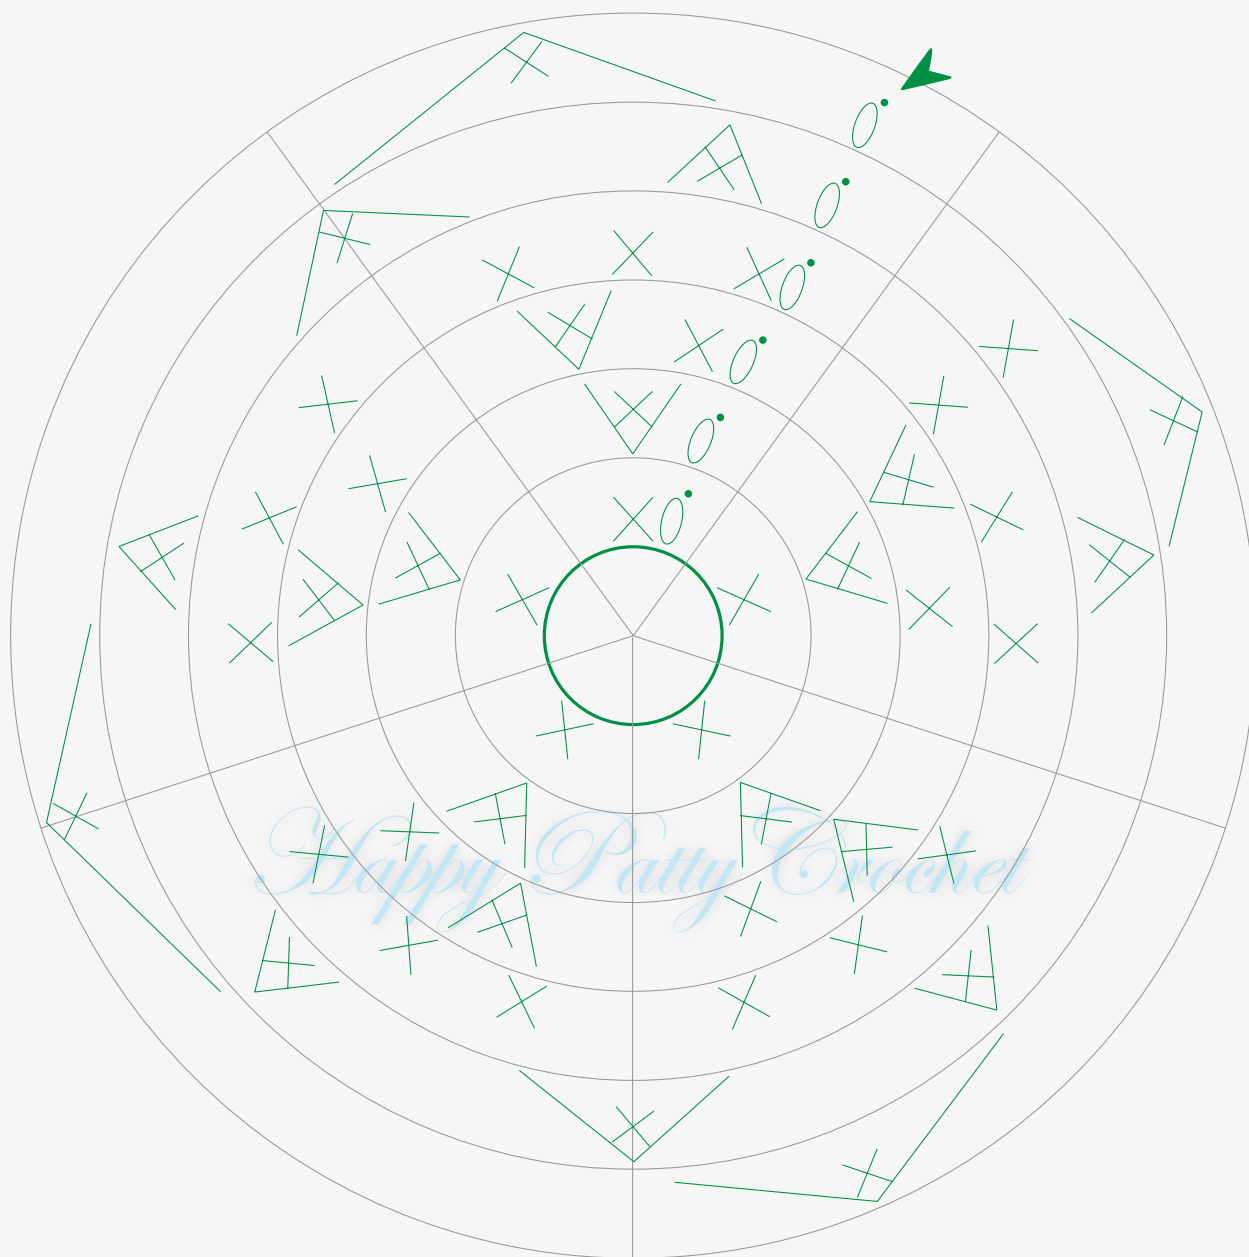

Step 7 - Chain row, once finished.

Step 8 - Add the light green thread through the first chain row, and crochet all petals.

Head Pattern

Stitch Key / Abbr.

 - Single Crochet (sc)
 - Chain (ch)

 - 2-st sc dec

 - Cut Thread

Head Instructions

Rnd 1 (RS) : Magic ring, ch 1, sc 5 times over sc, join with sl st to beg ch

Rnd 2 : Ch 1, [2-st sc inc]. repeat [] 5 times, each st worked in each st around, join with sl st to beg ch

Rnd 3 : Ch 1, [sc, 2-st sc inc], repeat [] 5 times around, join with sl st to beg ch

Rnd 4 : Ch 1, sc 15 times around, join with sl st to beg ch

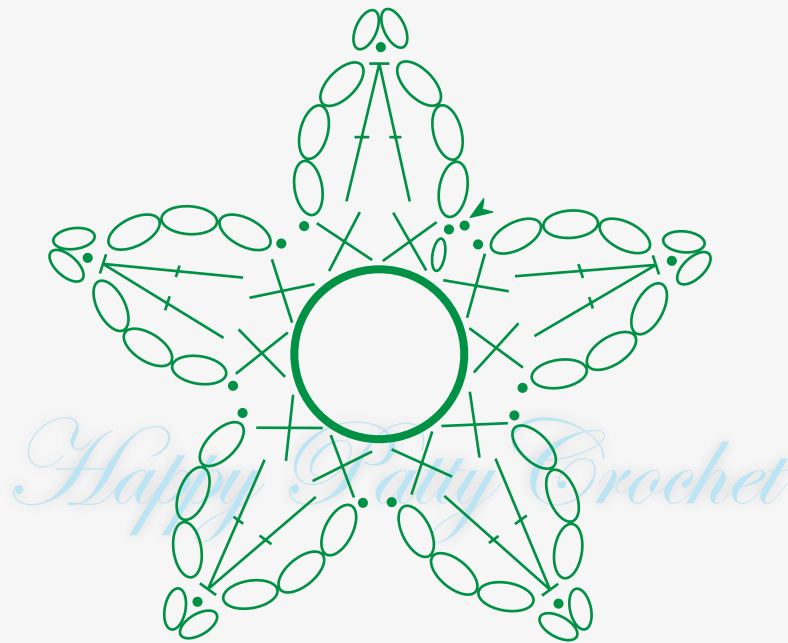

Rnd 5 : Ch 1, 2-st sc dec 7 times, sc, join with sl st to beg ch

Rnd 6 : Ch 1, 2-st dc dec 4 times, join with sl st to beg ch. Leave long tail, and cut thread.

Stuff the head with soft stuffing, and finish closing it with either sewing or clusters (up to your preferences).

Sepals Pattern & Instructions

Stitch Key / Abbr.

 - Single Crochet (sc)
 - Chain (ch)

 - 2-st dc dec

 - Cut Thread

Sepals Instructions (#2)

Rnd 1 (RS) : Magic ring, ch 1, sc 10 times in ring, join with sl st to beg ch.

Rnd 2: [Ch 3 times, 2-st dc dec (first dc to same stitch as chains, second to the next stitch), ch 2, sl-st to dc's tip, ch 3 and sl-st to same stitch of second dc, connect with sl-st to next stitch], repeat [] 5 times for 5 petals. Fasten off thread.

Making the Flower

The photo tutorial here will show you how to make the Stem Ranunculus (with the smaller thread). The method used here is the same for the size #20 Ranunculus.

You'll need to have :

- One Sepal.
- One Head.
- Outer petals element.
- Inner Petals element.

You'll also need :

- Scissors, Stem, Hot glue, Floral tape, Tweezers (Optional).

First, we'll add all the elements to the stem - next we'll work from top to bottom, gluing the head to the inside petals, gluing the petals together, and keep moving down to the outside petals and the sepals.

(Note : It is recommended to iron the petal elements. And to achieve the spherical shape by pressing on each petal in its middle (see photos to the right))

Follow the photo guide below to see how to make the flower.

Step 1 - Push the stem through the hole in the middle of the sepals element.

Step 2 - Next, do the same for the outer petals element.

Making the Flower (#2)

Step 3 - And the same for the inner petals element

Step 4 - Apply a bit of glue to the tip of the stem - we'll add the head to the tip.

Step 5 - Add the head to the tip, don't push too strong - wait until the head is firmly glued to the head.

Step 6 - Apply glue to the bottom of the head

Step 7 - Push the inside petals towards the head, and hold until glued firmly.

Step 8 - Apply light pressure to the edges of the inner petals to give it a spherical shape.

Making the Flower (#3)

Now, we glue the inner petals to the head, remember to keep the petals overlapping and in the same direction (clockwise, or counterclockwise) in both layers.

Work petal by petal, applying glue to its bottom section, and pressing against the head. Once you done with the first layer, move to the second layer.

Step 9 - Apply a bit of glue to the base of the petal, and press against the head.

Step 10 - Work petal by petal.

Step 11 - When first layer is done, move to the next one.

Step 12- Again, glue the base of the petal and press to the head.

Step 13 - For the second layer, you'll need to apply a little bit of glue to the edges of the petal as well.

Making the Flower (#4)

Step 14 - Now the inner petals should look much more firm and balanced.

Step 15 - Apply glue to the base of the inner petals element.

Step 16 - Press against the outer petals element and glue firmly.

Step 17 - Next, work petal by petal of the 3 layers of the outer petals element.

Step 18 - Apply just a drop of glue to the bottom edge of the petal and press against the head.

Step 19 - After first layer, continue to the second layer.

Making the Flower (#5)

Step 20 - And finish with the third layer.

Step 21 - Apply glue only to the edge of the petals

Step 22 - The blossom once all layers are done.

Step 23 - Apply glue to the sepals and press against the outer petals elements.

Step 24 - To finish the stem, wrap floral tape around it to make it more consistent (optional).

Step 25 - Finished blossom!

That's it :) The Ranunculus is finished, crochet several of this for beautiful bouquets or flower arrangements. Try them without a stem - add a clasp/clip for a delicate hair accessory or appliqué.

I really hope you enjoyed making this Ranunculus. If you have any question, please let me know and I'll do my best to help.

Thanks and enjoy crocheting!

Happy Patty :)

Appendix B

Size #20 Ranunculus

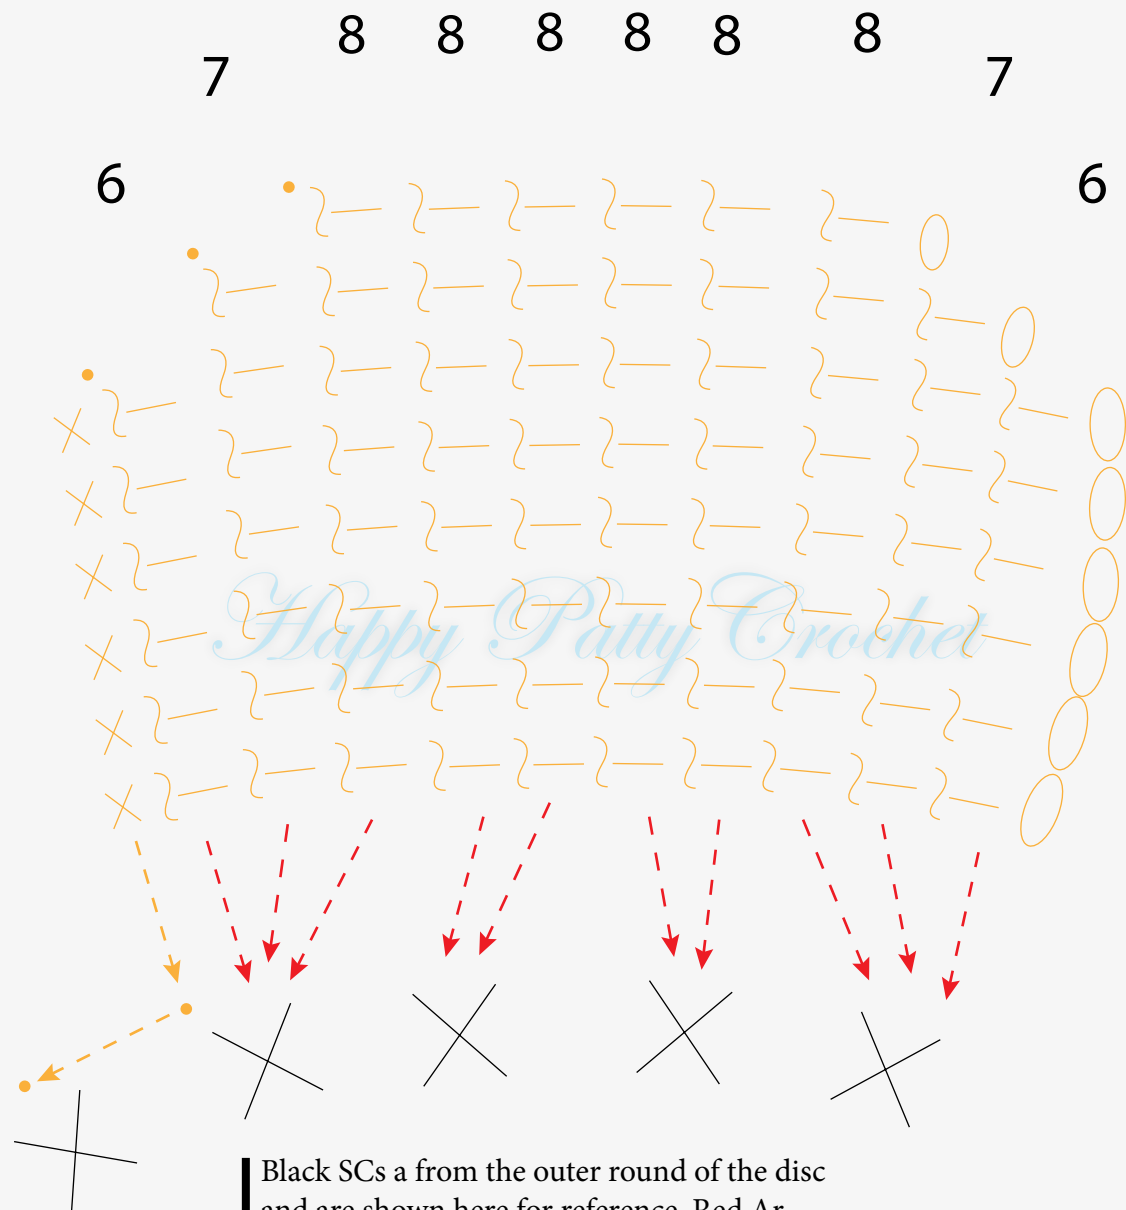

This section includes the patterns to make the size #20 Ranunculus (pictured below).

The process of making the Ranunculus + the patterns for the discs, sepals and head are exactly the same to the smaller thread blossom. The only difference is in the petals' patterns - as we are using larger thread.

To make the Size #20 Ranunculus, crochet the sepals & head and the discs from the thinner thread, add the petals that are included in this section, and follow the instructions in the previous pages of making the flower.

Size #20 - Outer Element - 1st Petal Pattern

Black SCs are from the outer round of the disc and are shown here for reference. Red Arrows show where to work each row.

Size #20 Ranunculus - Instructions

Each petal is being crocheted in the same fashion / technique as we crochet the petals of the thinner thread - please follow the detailed instructions of the thinner thread petals and apply to these petals, according to the following petals row summaries :

Outer Element, Outer Layer (Petal #1) (total 12 rows) :

Ch 6, MS1 6, MS1 7, 6 Rows of MS1 8, MS1 7, MS1 6, sc 6

Outer Element, Second Layer (Petal #2) (total 12 rows) :

Ch 5, MS1 5, MS1 6, 6 Rows of MS1 7, MS1 6, MS1 5, sc 5

Outer Element, Inner Layer (Petal #3) (total 11 rows) :

Ch 5, MS1 5, MS1 6, 5 Rows of MS1 7, MS1 6, MS1 5, sc 5

Inner Element, Outer Layer (Petal #4) (total 9 rows) :

Ch 4, MS1 4, MS1 4, 3 Rows of MS1 6, MS1 5, MS1 4, sc 4

Inner Element, Inner Layer (Petal #5) (total 6 rows) :

Ch 3, MS1 3, 2 Rows of MS1 4, MS1 3, sc 3
